## Recycling

### Glass

Glass bottles and jars can be recycled at all Waste Transfer Stations (WTS) in the Rangitikei District. The system allows for users to recycle glass according to its colour. Colour sorting ensures used bottles and jars are recycled into new bottles and jars.

### Green waste

A green waste disposal service is available at the Marton, Bulls, Taihape, Hunterville & Rātana WTS. Green waste is charged at approximately half the actual waste disposal fee - a subsidy is applied to all green waste. When dropping off green waste, please remove concrete, steel and other non-green waste items and dispose to landfill.

Prohibited green waste items are:

- Flax, Cabbage Trees, Palms, Agapanthus and Bamboo
- Branches over 250mm thick
- Food and kitchen waste
- Concrete and stones
- Dirt/ Soil
- Treated wood waste
- General rubbish

### Scrap metal

A wide range of scrap metal is accepted at transfer stations in the district, free of charge. Please note a fee may apply if scrap steel incurs handling charges. Please ensure items are primarily metal. Site attendants may decide to refuse scrap metal if there is too much non-metal material, such as concrete.

### Refrigeration

Refrigeration items incur a degassing charge at transfer stations (\$39 per unit).

Gas in refrigeration items contains chlorofluorocarbons (CFCs), which is an ozone destroying gas. NZ is a signatory of the Vienna Convention 1985 and as such is required to extract CFCs from any items at disposal, not allowing the gas to escape into the atmosphere.

## Other items for recycling

### e-Waste

Rangitikei District Council is removing electronic waste (e-Waste) from the refuse stream.

e-Waste can be defined as obsolete, broken or end of life electrical or electronic devices. This includes items such as TVs, computer monitors, desktop computers, key boards, servers, printers, scanners, fax machines, photo copiers, cell phones, laptop batteries, DVD and VCR players. TVs and old monitors contain valuable metals and a large amount of toxic materials such as lead, mercury, cadmium and phosphorus. These heavy metals pose a serious threat to the environment and our health when not removed from the waste stream in a safe way.

There is a charge to recycle these electronic items. A Council subsidy is applied to help cover the costs.

*\* Please see our current Schedule of Fees and Charges for latest prices.*
