

“Spray – Free Frontage” Agreement

Rural Property Verges

I request the Rangitikei District Council installs ‘SPRAY-FREE FRONTAGE SIGNS’ to define the extent of the frontage to be kept spray free.

By signing this agreement I understand the Rangitikei District Council will refrain from spraying along the frontage as defined by the signs. I agree to the following terms and conditions:

- It is my responsibility to keep the roadside drain clear of growth, to the same standard as the adjacent Council maintained sections;
- I will remove any plant pests on the roadside along my frontage. This includes all plant pests, as described in the Horizons Regional Council’s Regional Plant Pest Management Strategy, including Horsetail (*Equisetum arvense*) and Lupin.
- I will ensure any roadside fixtures such as signposts, marker posts, power poles, sight boards etc are kept clear and not be left to overgrow.
- All roadside activities will be performed in a safe manner.

Urban Properties

A green triangle will be painted on the kerb or road edge to define the no-spray frontage.

Should the property owner fail to maintain the frontage to the requisite standard, the District Council reserves the right, after appropriate warning, to resume vegetation control spraying.

Note: All other Council maintenance activities such as the routine mowing will continue as usual.
