 Comments: _____

Infrastructure Support:
 Record Contractor invoice details on Sharepoint 'Service Connection' spreadsheet (5-CS-1-6).
Original to Regulatory for filing on Building File. Copy to Asset Information Manager. Copy to Rates Officer.

NOTES TO APPLICANTS

APPLICANT: The applicant must be the owner of the land for which service connections are required or a person who has agreed in writing, whether conditionally or unconditionally to purchase the land or any leasehold estate or interest in the land, or take a lease of land, while the agreement remains in force.

SPECIAL REQUIREMENTS: This will relate to lifestyle, commercial or industrial properties for which there are deemed excess water requirements.

APPLICATION FEE: An invoice for the appropriate fees will be sent to the applicant following approval of the application.

TIME TO PROCESS APPLICATION: Allow 15 working days after payment of fees.

Service connections are: Connections to:

The sewer (wastewater) network
The water network
The stormwater network:

Either

a direct connection to the pipeline
or an outlet to the kerb

How to apply for a service connection to your property:

- You (the property owner) make an application to the Council. This can be done as a 'stand alone' application or when you apply for a building consent. 'Connection to Services' application forms are available from the Council reception offices and the Council website.

Service Connection

Process:

Council Infrastructure staff will investigate the requirements of the application to confirm that the requested connection(s) are possible and appropriate.

Council will notify you with the results of their investigation and provide formal approval for the connection(s) or, recommend alternative options.

Council will invoice you (the property owner) for the appropriate fees.

On receipt of the fee payment Council will then engage a contractor to carry out the required works.

The contractor will record the location of the service connection(s) and this information will be placed on the property file.

From the start of the following financial year, your annual rates will include the *UAC for the new service(s).

- Note: Connection fees are for standard connections to existing services adjacent to the subject property boundary.

Water up to 5 metres in length.

Stormwater up to 10 metres in length.

Connections that require an extension to existing mains or are subject to any other unusual requirements may incur additional costs.

Connection Fees (inclusive of G.S.T)

Rev Date: 1 July 2018

Services Required	Total Fee \$
Water Connection (per standard 20mm domestic connection, max overall length 5m)	As quoted
Water Disconnection (per connection)	\$293.00
Water Re-connection (per connection)	Quote based on investigation.
Wastewater Connection and Reconnection (per standard 100mm domestic connection)	Quote based on investigation.
Wastewater Disconnection (per connection)	\$266.00
Stormwater Connection (per standard 100mm domestic connection)	\$612.00 (plus proportionate share of the *UAC due for the balance of the current rating year)
Stormwater Disconnection (per connection)	Quote based on investigation.

Note: All connection fees include the cost of a road opening fee.

* UAC (Uniform Annual Charge) – the standard component of your rates for the provision of Council services.
