### ***Decision Making***

(6) In considering this application for On-Licence the District licensing Committee (here in after referred to as the ‘Committee’) had regard to the criteria specified under s. 105 of the Act.

#### **(7) Object of this Act:**

With a new licensee it’s always difficult to predict the type of premise that will operate although with such an established premise and given its history and background it’s hard to envisage the licence operating much differently than stated. Certainly the operation under a temporary Authority has not raised any issues by the authorities.

The applicant provided a Host Responsibility Policy that shows how alcohol will be sold in a professional and responsible manner under the licence. If followed this should ensure the object of the Act continues to be complied with. The applicant has the initial first year to show that they can operate the licence in accordance with the Act and the licence conditions. The inspector has visited the premise to view compliance and suitability.

#### **(8) Suitability of the applicant:**

The applicant is a private company incorporated in 2018. The inspector has inspected the premise and talked to the applicant and has offered a report stating that the applicant is a suitable person to operate a licensed premises.

The applicant has named four certified managers for the licence. This is seen as adequate.

(9) The inspector and reporting agencies do not challenge suitability of the applicant and neither do I.

#### **(10) any relevant local alcohol policy:**

No local policy is currently in place.

**(11) the days on which and the hours during which the applicant proposes to sell alcohol:**

The applicant has applied for the following days and hours –

**Monday to Sunday, 9.00am to 2.00am, the following day.**

These hours are within the default national maximum trading hours and seem suitable for the type of premise, operation and risk.

**(12) Design and layout of any proposed premises:**

The application included a floor plan showing premise layout, principal entrance and area to be licensed. All areas and bars to be designated ‘supervised’ which is suitable for this type of licence.

**(13) Whether the applicant is engaged in, or proposes on the premises to engage in, the sale of goods other than alcohol, low-alcohol refreshments, non-alcoholic refreshments, and food, and if so, which goods:**

No

**(14) Whether (in its opinion) the amenity and good order of the locality would be likely to be reduced, to more than a minor extent, by the effects of the issue of the licence:**

This is an existing activity within an existing building and area. The premises is within Marton’s commercial zone with neighbouring businesses being commercial. The premise within a ‘liquor ban’ area.

Within the agency reports there are no concerns raised about the possible reduction in amenity and good order from any licence issue.

**(15) Whether (in its opinion) the amenity and good order of the locality are already so badly affected by the effects of the issue of existing licences that—**

**(i) they would be unlikely to be reduced further (or would be likely to be reduced further to only a minor extent) by the effects of the issue of the licence; but**

**(ii) it is nevertheless desirable not to issue any further licences:**

No concerns raised.

**(16) Whether the applicant has appropriate systems, staff, and training to comply with the law:**

If the host responsibility policy is followed the licence holder should have no problems with compliance.

The Inspector has discussed appropriate systems etc with the licensee to ensure the law is complied with and comments that the premise is off to a good start. This will be reviewed during the first one year renewal period.

### ***Reporting Agencies***

**(17) The following reports were received under section 103 of the Act.**

(18) **Police** – Report received 27th December 2018, offering no opposition.

(19) **Medical Officer of Health** - Report received on 16th January 2019, offering no opposition.

(20) **Licensing Inspector**

Full report dated 4<sup>th</sup> April 2019. The inspector provided a comprehensive report into the application, has met the applicant and concluded that the application is complete, appears to meet the criteria for a new on-licence and therefore has no opposition to the application.
