# NZ BIO FORESTRY

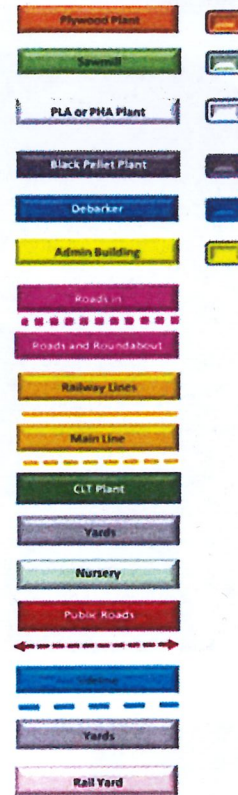

- Marton
- Ply/Laminate Facility and Bio-Refinery Facility

Facilities are modular and planned  
2023/4 – 2026/7

Ply-Laminate will be in-closed

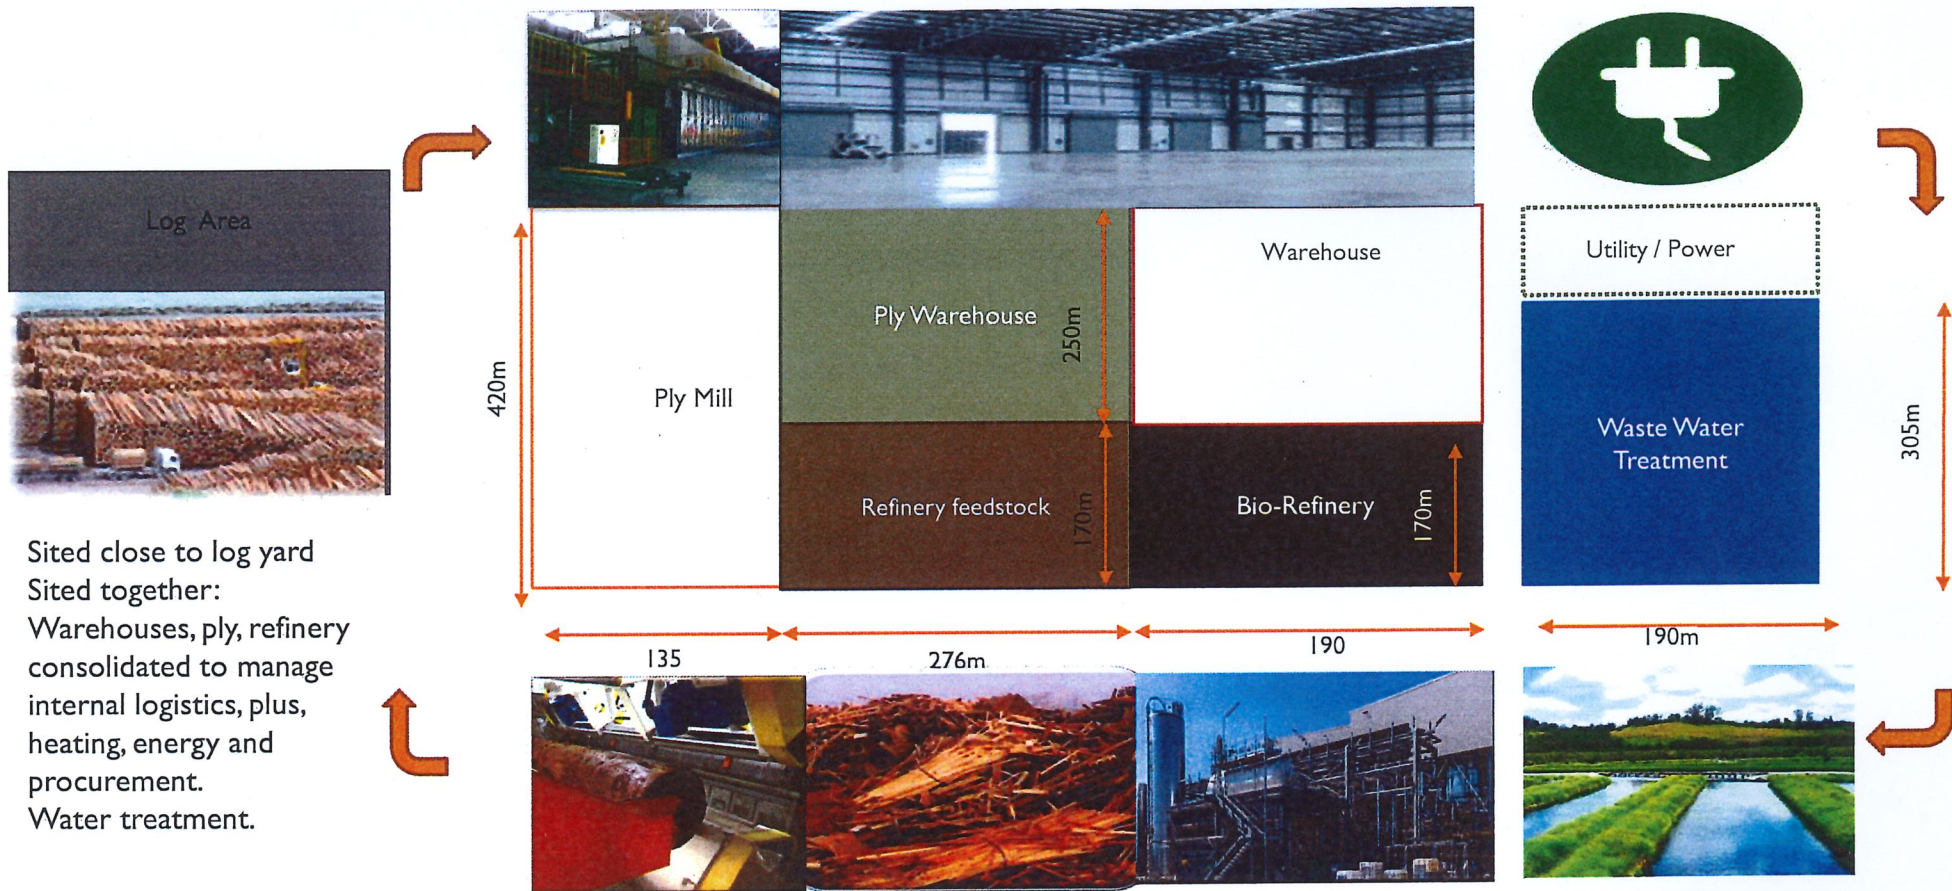

Waste from ply/laminate feeds refinery.

Refinery creates resources that replace  
petroleum/solvents, including adhesives.

# INTEGRATED PLY/LAMINATE & REFINERY

- Sited close to log yard
- Sited together:
- Warehouses, ply, refinery consolidated to manage internal logistics, plus, heating, energy and procurement.
- Water treatment.
