|---|--|----------------------|--|------------------------|---------------------------|--|--|--|--|--|
| PERFORMANCE   | MEASURE  | OUTCOME<br>(9 MONTH) | 2023/24<br>TARGET                            | MARCH 2024<br>RESULT   | 2022/23<br>RESULT         | NARRATIVE  |  |  |  |  |
| Councils intended level of service is to: Be responsive to reported faults and complaints*  |  |                      |  |                        |                           |  |  |  |  |  |
| *Where the Council attends a call out in response to a fault or unplanned interruption to its networked reticulation system, the following median times are measured.       | Attendance<br>for urgent call<br>outs  |                      | 0.5 hours                                    | 0.17 hours             | 0.5 hours                 |  |  |  |  |  |
|   | Resolution<br>of urgent call<br>outs   |                      | 24 hours                                     | 0.8 hours              | 1.5 hours                 |  |  |  |  |  |
|   | Attendance<br>for non-<br>urgent call<br>outs  |                      | 24 hours                                     | 1.21 hours             | 0.7 hours                 |  |  |  |  |  |
|   | Resolution of non-urgent call outs   |                      | 96 hours                                     | 4.33 hours             | 4.3 hours                 |  |  |  |  |  |
| *Customer satisfaction The total number of complaints (expressed per 1000 connections to the reticulated networks) received by the Council <sup>1</sup>                     |  |                      | ≤20<br>complaints<br>per 1000<br>connections | ·                      | 86.71 per 1000            | The increase from 26.3 in the past quarter, to 44.43 shows the higher number of complaints in the summer months as predicted.  Council is aware of ongoing concerns about the water supply, particularly in Marton. Work has commenced on the Marton Water Strategy to improve the odour and taste of the Marton water supply by the end of 2024 / mid 2025. |  |  |  |  |
| Councils intend   | ed level of service  | e is to: Mainta      | iin compliant,                               | reliable and efficient | t rural water supp        | lies   |  |  |  |  |
| Where the Council attends a call out in response to a fault or unplanned interruption to its water supply for rural water schemes, the following median times are measured: | Attendance<br>time: from<br>the time that<br>the Council<br>receives<br>notification<br>to the time<br>that service<br>personnel<br>reach the site   |                      | 48 hours                                     | 2.82 hours             | 0.1 hours<br>(normal)     |  |  |  |  |  |
|   | Resolution<br>time: from<br>the time that<br>the Council<br>receives<br>notification<br>to the time<br>that service<br>personnel<br>confirm<br>resolution of<br>the fault of<br>interruption |                      | 96 hours                                     | 1.12 hours             | 6.4 hours<br>(non-urgent) |  |  |  |  |  |

a. drinking water clarity, b. drinking water taste, c. drinking water odour, d. drinking water pressure or flow,
 e. continuity of supply, and f. The Council's response to any of these issues
