## Statement of Service Report 6 Month (July-December 2024)

## **Stormwater Drainage**

OUR LEVEL OF SERVICE AND HOW WE MEASURE PROGRESS

| Achieved On track to achieve Not on track to achieve Not achieved Not measured   |         |   |                         |                   |  |
|--|---------|---|-------------------------|-------------------|--|
| PERFORMANCE MEASURE  | ОИТСОМЕ | 2024/25<br>TARGET   | DECEMBER 2024<br>RESULT | 2023/24<br>RESULT | NARRATIVE                              |
| Councils intended level of service is to: Provide a reliable collection and disposal system to each property during normal rainfall  |         |   |                         |                   |  |
| *Discharge compliance<br>Compliance with the Council's<br>resource consents for<br>discharge from its stormwater<br>system measured by the<br>number of:   |         | No abatement notices  | Not Measured            | Not Measured      | _                                      |
|  |         | No<br>infringement<br>notices                                   | Not Measured            | Not Measured      |  |
| a. abatement notices<br>b. infringement notices<br>c. enforcement orders, and<br>d. convictions Received by the<br>Council in relation to those<br>resource consents.  |         | No<br>enforcement<br>orders                                     | Not Measured            | Not Measured      | -                                      |
|  |         | No convictions  | Not Measured            | Not Measured      |  |
| *System adequacy The number of flooding events¹ that occurred in the District. For each flooding event, the number of habitable floors affected (expressed per 1000 properties connected to the Council's stormwater system). Note: This is a District-wide assessment |         | Fewer<br>requests than<br>5 per 1000<br>connected<br>properties | 0                       | 0                 | No flooding events during this period. |
| Councils intended level of service is to: Be responsive to reported faults and complaints  |         |   |                         |                   |  |
| *Customer satisfaction The number of complaints received by the Council about the performance of its stormwater system, expressed per 1000 properties connected to the Council's stormwater system.  |         | Fewer<br>requests than<br>5 per 1000<br>connected<br>properties | 4.47/1000               | 4.9/1000          |  |
| *Response time The median response time to attend a flooding event, measured from the time that the Council receives notification to the time that service personnel reach the site.   |         | Two hours or<br>less  | Not measured            | Not measured      | No flooding events during this period. |

The rules for the mandatory measures define a 'flooding event' as an overflow from a territorial authority's stormwater system that enters a habitable floor
