# HUNTERVILLE ST JOHN

## FIRST RESPONSE UNIT

the first to care

Hunterville First Response Unit is a small group of volunteer First Response Officers operating "ON CALL" whenever we can, day and night. We are committed to serving our community with first response medical care.

We cover a wide geographical area and are also happy to assist any neighbouring ambulances. Our main focus is to assist people reaching out for help.

St John has had a presence in Hunterville for a very long time, and we believe that you, the community, would like that to continue.

With the recent sale of the Centennial Hall to a private buyer, the home of Hunterville St John Ambulance needs to relocate.

St John has a regional property division based in Hamilton, and a District Operations Manager in Palmerston North, who are exploring ideas and options to find suitable premises or site for building, so this is a work in progress.

Anyone wishing to express interest, concerns or wanting to make contact please email [Richard.Swainson@stjohn.org.nz](mailto:Richard.Swainson@stjohn.org.nz) and your emails will be forwarded on appropriately.
