

ORDER PAPER

HUNTERVILLE COMMUNITY COMMITTEE MEETING

Date: Monday, 14 April 2025

Time: 6.30pm

Venue: Hunterville Town Hall
Bruce Street
Hunterville

Chair: Mr Justin Adams

Deputy Chair: Ms Kelsey Smith

Membership: Ms Charissa Lawlor
Ms Karen Kennedy
Ms Sandra Carroll
Ms Lesley Shaw
Cr Fi Dalgety
Cr Richard Lambert (Alternative)
HWTM Andy Watson

Purpose of the Committee

- To provide a local link and point of contact for Council liaison with the community.
- To provide for the exchange of information, communication, and to assist with the Council's consultative processes.
- To exercise delegated authority for the annual allocation for "defined small local works" in line with the guidelines provided¹.
- Particularly, to help ensure that any minor remedial or renewal works are brought to Council's attention through the Request for Service procedure, by promoting its use and advising community members on how to use it.
- To be the first point of contact (prior to Council) for community groups. Where this is not possible, the Committee will be informed of the approach by the community group to the Council.
- To engage with wider/small communities of the ward represented.

For any enquiries regarding this agenda, please contact:

Kezia Spence, Governance Advisor, 0800 422 522 (ext. 917), or via email

kezia.spence@rangitikei.govt.nz

¹ Appended to the Delegations Register

Notice is hereby given that a Huntermville Community Committee Meeting of the Rangitikei District Council will be held in the Huntermville Town Hall, Bruce Street, Huntermville on Monday, 14 April 2025 at 6.30pm.

1 Welcome

Chair declared the meeting open at 6:29pm.

2 Apologies

The Chair informed the committee that apologies for attending the meeting were received from the following members.

Cr Lambert, Ms Sandra Carroll, Ms Lesley Shaw.

3 Public Forum

There was no public forum.

4 Conflict of Interest Declarations

Chair asked for any conflicts of interest to be raised in the relevant items if required.

5 Confirmation of Order of Business

There were no changes to the order of business.

6 Confirmation of Minutes

Resolved minute number 25/HCC/001

That the minutes of Huntermville Community Committee Meeting held on 9 December 2024 **without amendment** be taken as read and verified as an accurate and correct record of the meeting, and that the electronic signature of the Chair of this Committee be added to the official minutes document as a formal record.

Cr F Dalgety/Ms K Smith. Carried

7 Follow-up Actions

7.1 Follow-up Action Items from Huntermville Community Committee Meetings

General discussion around Item 2 - Disabled access to Huntermville Swimming Pool. Action on this item has been problematic and cost prohibitive. Melanie to obtain an update from council staff and inform the committee at the next meeting. Committee to suggest to council in its annual plan submission for council to "explore the cost for providing disabled access to the Huntermville Swimming Pool".

Items 1 & 3 Can now be removed.

Resolved minute number 25/HCC/002

That the report 'Follow-up Action Items from Huntermville Community Committee Meetings' be received.

Ms K Kennedy/Ms C Lawlor. Carried

8 Chair's Report

8.1 Chair's Report - February 2025

Resolved minute number 25/HCC/003

That the Chair's Report –February 2025 be received.

Cr F Dalgety/Ms K Smith. Carried

9 Reports for Decision

9.1 Mayor's Report - 12 December 2024

Discussion during this item brought up the work completed on the Huntermville Community Plan where a survey of the community was completed, and plan documented. Melanie will follow up with staff and report back at the next meeting. With the goal of incorporating the document into the Committee's work moving forward.

Resolved minute number 25/HCC/004

That the Mayor's Report – 12 December 2024 be accepted.

Ms K Kennedy/Ms K Smith. Carried

9.2 Submission on Rangitikei District Council Gambling Policies

Resolved minute number 25/HCC/005

That the committee receive the report Submission on Rangitikei District Council Gambling Policies.

Ms K Kennedy/Ms K Smith. Carried

Resolved minute number 25/HCC/006

That the committee approve without amendment the submission and request the Chair submit to the Rangitikei District Council.

Ms K Kennedy/Cr F Dalgety. Carried

Resolved minute number 25/HCC/007

That the committee does not submit verbally on the policy.

Mr J Adams/Ms K Kennedy. Carried

10 Reports for Information

10.1 Consultation Tracker - December

Cr Dalgety informed the committee that the Local Government (Water Services) Bill appears to have been missed of the tracker and would be something the Committee should consider submitting on, in support of the Huntermville Rural Water Scheme remaining autonomous.

Resolved minute number 25/HCC/008

That the report 'Consultation Tracker - December' be received.

Cr F Dalgety/Ms C Lawlor. Carried

Resolved minute number 25/HCC/009

That the Huntermville Community Committee make a concise submission on the **Local Government (Water Services) Bill** emphasising that rural water schemes are diverse and should have autonomous decision making.

Cr F Dalgety/Ms K Smith. Carried

10.2 Small Projects Fund Update - February 2025

Fitness track around Rugby ground, identify if it is completed or is it still active. Charissa to take photos and submit RFS's where required and report back.

Tribute to Bruce Wilson Formula 1 Master Mechanic and his efforts to the racing industry. Potentially an informational signboard outside his old workshop. Cr Dalgety to follow up on with Rolf Wilson (son) on further details and report back.

Install storyboards within Parks with local stories.

Resolved minute number 25/HCC/010

That the report 'Small Projects Fund Update – February 2025' be received.

Ms K Smith/Ms K Kennedy. Carried

10.3 Funding Schemes Update - February 2025

Resolved minute number 25/HCC/011

That the Funding Schemes Update – February 2025 be received.

Ms K Kennedy/Ms C Lawlor. Carried

11 Discussion Items

11.1 Update on the Shop Local Campaign

Query on how many branded bags were issued to Huntermville Businesses. Chair to inquire as to how many bags to Huntermville and which retailers.

11.2 Kiwiburn/Haast Eagle Statue - Discussion on next steps

General Discussion around The Haast Eagle Statue and other Kiwiburn artworks including future possibilities and display options.

Ms Karen Kennedy will discuss the recommendation and thoughts with Andy Justice of Kiwiburn.

Resolved minute number 25/HCC/012

That the Huntermville Community Committee would like to thank Kiwiburn for the opportunity of displaying the Haast Eagle within the township. At this stage this project lies outside of the committees' terms of reference and would encourage the Kiwiburn Team to engage with council officers if they wish to further progress siting of this statue.

Mr J Adams/Ms K Smith. Carried Unanimous.

11.3 Revised Huntermville Community Response - Civil Defence Plan

Melanie informed the Committee that further work was required on this item, and it will return to the committee at the next meeting.

11.4 Trends on RFS for Huntermville

Chair advised the committee on some analysis done comparing the last two results which showed an overall decrease of RFS's overall by 37% . One spike was with Water RFS's which increased by 850% which is believed by the Chair to be related to the water outage for an emergency pipe repair.

ITEM 6.1**ATTACHMENT 1**

Committee noted that a little further detail on the RFS's would be useful i.e what the issue is. Chair to follow up.

The Committee would like to pass our unequivocal thanks to the Council Water Technicians, Customer Service Team & Public Facilities Cleaners for their hard work and diligence over the Holiday period. It was noticed and appreciated by the entire Committee.

The meeting closed at 8.34pm.

The minutes of this meeting were confirmed at the Huntermville Community Committee held on 14 April 2025.

8 Chair's Report

8.1 Chair's Report - April 2025

Author: Justin Adams, Chair

14th April 2025 – Huntermville Community Committee Chairs Report

Since our last meeting we appear to have set a precedent with our submission to the Local Government (Water Services) Bill which is believed to be the first time a Community Committee in the Rangitikei has submitted on a Parliamentary Bill. (Nice to see Huntermville punching above its weight) *emphasising that rural water schemes are diverse and should have autonomous decision making.*

We also made a submission on Where's water @ Rangitikei which as His Worship the Mayor has previously stated *"Local Water Done Well represents some of the most significant change to Local Government since 1989 and I strongly encourage you to engage in this important work."*

The Annual Plan is the next submission for us to focus on and I look forward in our discussions on it.

In Closing I would like to thank our Community Constable for his hard work over the past 4 ½ Years and wish him good luck in his new role.

Justin Adams

Chairperson

Huntermville Community Committee

Recommendation

That the verbal Chair's Report – April 2025 be received.

ITEM 9.1

9 Reports for Information

9.1 Mayor's Report - 27 March 2025

Author: Andy Watson, His Worship the Mayor

Local Water Done Well

Government has replaced the Three Waters legislation with Local Water Done Well (LWDW). This is National's version which is very similar to Labour's.

I am concerned that Council will end up voting on our position to form a regional CCO (Council Controlled Organisation) with very little knowledge of it by the community. The turnout at recent public meetings and interest in our consultation has been just about non-existent. This is the most important decision that our Council has faced over the last 40 years. So, a quick summary –

A. What is Local Water Done Well?

- The provision of waste-water (sewerage)
- The provision of drinking water (potable water)
- Dealing with stormwater (water run-off)

Council currently provides all of these services and that may change.

B. Why is this an issue now?

- All Councils have not spent enough money (under-investment) to maintain these services over the last 50+ years.
- The pipes that service these waters are at the end of their life.
- Our Council has invested over the last few year, but significantly more money is required (\$100m+).

C. What is the option for a Regional CCO?

- We pass on all of our water assets (sewerage, drinking etc) to an independent business.
- We retain ownership of them by way of shares in the business but they operate them.
- We also pass over the debt (loans) that we have for these plants.

D. What is different in National's version to Labour's 3W position?

- Very little difference
- New legislation which allows the new business (entity) to borrow large amounts of money over a very long term (many years)
- National has left the decision options to the community or Council.

- But if Government doesn't agree with our decision they will decide for us!

E. What are our Council options?

- Continue as we currently do with Council providing the service (business as usual with no regional CCO).
- Form a regional CCO with Ruapehu District Council, Whanganui District Council and ourselves. **This is our preferred option.**

F. Why?

- A long term regional CCO will reduce the cost to ratepayers. It has been calculated that in 10 years time it will reduce the average cost for a household by over \$1000 per year compared to the cost of Council continuing to provide the service.
- The new entity will be more efficient and the operational costs are shared by more people (a scale).
- The significant costs of loans will be lower and spread over many more years.

G. What are the risks?

- There will be a loss of Council/community voice. The CCO entity will make business decisions for us. They will decide where money in the three districts is spent.
- The entity will decide on the costs that ratepayers face (they will set their own costs).
- It is possible that some parts of our district will face higher charges than other parts.
- It is likely that water meters will be required so that you pay for what you use.
- Will there will be a setup cost for the new entity – yes, and initially there will not be, in my opinion, direct savings because of this.

H. What is the process?

- We have already had many meetings between the three Councils to look at the plan and options.
- Costs have been worked out by using Long Term Plan costs that each Council currently has.
- Community consultation is now happening.
- The Council decision following consultation will be sent to Wellington.
- Government then makes a decision to accept our position or change it.
- The CCO becomes operational in 2028/2029.

Notes

If we have the CCO you will still get –

- a rates bill from Council for all other Council services which will include a charge for water that Council uses for parks etc.
- a rates bill from the entity for waste-water, drinking water and stormwater
- an Horizons bill as usual.

Please ask if you want further information or clarification – I cannot stress enough the importance of these decisions.

Kainga Ora Housing

Recently Graeme Broderick, Regional Director of Kainga Ora, met with me to announce a series of changes regarding housing. Government has re-set the direction for housing which includes –

- A refresh of the Kainga Ora Board and Chief Executive
- A pause in the construction programme
- A change in attitude where they will be prepared to evict tenants for poor behaviour after a process, i.e. a fair but firm process.
- A renewal programme for housing, the target of 3000 homes per year as a build/replace/demolition process.
- A large reduction in staff as directed by the Minister of Finance.
- Bad debts will be dealt with by way of payment plans which, if adhered to, may involve some write-offs.

For the Rangitikei, we note –

1. We currently have 48 people in need on the housing register, down from 69 in March 2022.
2. We have had new units built in Wellington Road and Pukepapa Road in Marton.

All of Government and Rural & Provincial Sector Meeting

I have included the presentation notes from the LGNZ Sector Meetings in Wellington on 27-28 March as an appendix to my report and I will provide comment if possible as a tabled item for this meeting giving my interpretation of the changes that are coming our way and how they will affect our district.

As everyone knows Council needs to replace our main office building in Marton under the earthquake prone legislation. As part of that process we need to have a modern Civil Defence building (technically referred to as an IL Level 4 building) separate to Council's main facility. It is our

intention to build a building that can be used by the community as well but is absolutely ready to act as a Civil Defence centre for Marton. Some time ago I was at a meeting in Wellington where I questioned the Hon. Mark Mitchell – Minister for Emergency Management and Recovery - around whether Government should support the need for these buildings. He expressed interest at that time in possible Governmental support. As part of the process in deciding what type of building would best fit, myself and some councillors and staff visited the new buildings that have been built in Gisborne (as a standalone Civil Defence building) and National Park by Ruapehu District Council. The Ruapehu building was seen to be a preferred option and could be used as a community function as well. Given Minister Mitchell's public interest in this space I have written to him requesting a discussion and assistance and in the appendix I enclose the letter of request and the Minister's reply. Unfortunately the Minister's reply does not indicate support at this time.

With the election of Councillor Paul Sharland for the Southern Ward it requires another slight change where I have appointed him as an alternate for the Bulls Community Committee position and I enclose the recommendation as such.

Marton Pool

I continue to chase the future of Marton Pool and the work that will be required. Absolutely my aim is, if at all possible, to have the pool operating for next summer. The timeframe for that process is tight. Council cannot look at just repairing the damage to the roof in isolation. As a consequence to that Council now has a report on the total facility including the building strength and what is required structurally. The report also includes compliance with modern electrical and safety standards and potential options around heating replacements etc. The report is exhaustive. We are now waiting on information around each different aspect of that with the initial focus on the cost of repair to the roof and structures. I am hoping to be able to announce to the community what those options are and how they will be funded. I am also hopeful that we may be able to receive significant outside funding other than just relying on ratepayer source.

Marton Rail Hub

Recently there has been an article in Stuff News regarding the funding of the Marton Rail Hub by Kanoa which is the Government's Regional Economic Development and Investment arm. Originally we were awarded under Minister Jones' PGF Fund \$9.1m as support to the Rail Hub. We applied to have 217ha of land just outside Marton bordering State Highway 1 and Makirikiri Road to be zoned industrial. Council received approval for 40ha of industrial land. The next stage was that we were taken through an Environment Court process that lasted around 5 years. That process resulted in 65ha of land being approved as an industrial zone. It is now up to commercial interests as to whether that land is purchased and a rail hub established. The delay in the Environment Court process and the purchase of the land has meant the balance of the \$9.1m awarded under PGF that has not been spent has been withdrawn by Kanoa. There is still significant interest by commercial partners and industry who want to establish new business to the Rangitikei and operate a new railhead. Kanoa still sees this as a significant potential development for our region. However, funding will need to be through a different process. The interest is high and I am hopeful that the development proceeds in a reasonably short space of time. What we have is 65ha of industrial land bordered by State Highways 1 and 3 and adjacent to the principal rail junction in the lower North Island. This opportunity will be taken up by some businesses at some time and is a significant step forward for this district.

Horizons Ballance 2025 Farm Environment Awards & Ford Ranger New Zealand Rural Games

ITEM 9.1

Recently I have attended the Ford Ranger New Zealand Rural Games held in the Square in Palmerston North on 8 March and the celebration at the New Zealand Rural Sports Awards on the night preceding the games. The Rural Games headed by Steve Hollander have built from strength to strength over the past few years and this year the games celebrated their 10th anniversary. We had a number of competitors from the Rangitikei in sports such as fencing and the gumboot throwing competition which is iconic to Taihape. Similarly, I attended the Horizons Ballance 2025 Farm Environment Awards on 13 March where the Regional Supreme Award was won by the Cousins family from Hiamoe Farm, operating just outside of our district in Whanganui. This year's event celebrated 20 years since the awards began in the Horizons region.

Rural Transport Committee

I represent the Rangitikei on the Regional Transport Committee at Horizons. There are a few points that the community may wish to be aware of –

- NZTA has taken over the speed camera function from the New Zealand Police. There will be 51 new cameras and enforcement will be a partnership between the Police and NZTA and these cameras will be in vehicles and/or trailers.
- There will also be the use of average speed cameras – this is where a camera uses photo recognition of number plates to record average speeds across the district.
- Unfortunately within our district we have had a number of fatalities in recent times. Speed is often a factor.
- NZTA has asked for a transition to a risk based approach of temporary traffic management. This refers to very high costs of up to 35% of work being done on roads attributed to the traffic management rather than the construction. This is something that we need to put onus on our contractors when they are doing road repairs. Consideration should be given to whether it is cheaper and more effective and faster to close roads rather than have traffic management or absolutely to consider the risk to the people and the need for significant traffic management processes.
- A very good example of road closures was nationally on the Desert Road between Waiouru and Turangi that had to be closed for a new bridge replacement. Extensive work on other roading aspects was also carried out during that closure. The closure enabled effective work to be done at far faster rates than would have happened if the road had have been operating. The road is now open and recently I have driven over it and huge areas have been resealed etc.

Infrastructure Symposium

I recently attended a one day summit meeting in Auckland on infrastructure. It was expensive as a one day programme with both travel and attendance charges however it was incredibly worthwhile. The presentations regarding climate change, sea level rises, potential closures of roads nationally in the future because of those things were very significant. We as a country need to absolutely look at these effects with a 10-20-30 year lens. The presentations by Minister Bishop and the Hon. Chris Faafoi ahead of the insurance commission were also really interesting. I will look to provide a tabled report at Council with regards to the symposium.

Recommendation

That the Mayor's Report – 27 March 2025 be received.

FROM THE
OFFICE OF THE MAYOR

12 February 2025

3-EP-3-8

Hon Mark Mitchell MP
Emergency Management and Recovery

mark.mitchell@parliament.govt.nz

Good Morning Minister

Last year at a Local Government Meeting you spoke regarding your role in Civil Defence. During question time I suggested that assistance with Civil Defence specialised IL4 buildings for Councils permanently set up ahead of major events would be a fantastic initiative and partnership between Central Government and Councils. At that time you indicated a general support for this concept which myself and other Councils saw as a positive step.

The Rangitikei District Council is in the process of building a new council centre which will most likely be scaled down in size to meet with cost and Government expectations. However, we have decided that we have a definite need for a separate building on the same site dedicated to Civil Defence. I have been Mayor of the Rangitikei District Council for 4 terms and Deputy Mayor for 2 terms prior to that, a total of 21 years in Local Government. During this time the Rangitikei has declared Civil Defence emergencies, largely for flooding, on numerous occasions. When these events occur both State Highway 1 and 3 are closed and it is difficult to get resources and equipment in and the need for a dedicated IL4 centre in Marton is high.

I have taken the time to travel to view both the National Park Civil Defence centre that I believe you opened and the purpose-built Civil Defence building in Gisborne. I believe the building at National Park would absolutely meet our District's needs.

I would welcome a conversation with you in Wellington around how we could potentially work together and note that I am in Wellington at a series of Local Government meetings on 27-28 February, but am happy to travel to see you at any time you may be available.

Yours sincerely

Mayor Andy Watson - Rangitikei

ALL-OF-LOCAL-GOVERNMENT MEETING

THANK YOU

Thanks for being part of LGNZ's All-of-local-government meeting and individual sector meetings: you'll find slides, notes and more below.

Our next All-of-local-government meeting is on 1 May, followed by sector meetings on 2 May. Confirmed speakers already include Minister Chris Bishop and former Minister Steven Joyce – we'll be releasing the full draft programme and inviting registrations later in March.

SPEAKER SLIDES

All-of-local-government

- Mike Wakefield, Partner, Simpson Grierson – [Overview of the Government's reform programme](#)
- Laura Cannon, Acting Assistant Auditor General and Andre McConnell, Deputy Auditor-General, Office of the Auditor General – [Improving how councils demonstrate value](#)
- Philippa Fourie, Manager Local Government & External Affairs, Fonterra and Mayor Grant Smith, Palmerston North City Council – [The power of partnerships](#)
- Clinton Jury, Chief Executive Officer, Local Government South Australia – [Lessons from across the ditch](#)
- Sarah Baddeley, Martin Jenkins, MC and Harriet Shelton, Director Advocacy & Strategic Partnerships, LGNZ – [Practical ways to demonstrate value](#)

Rural & Provincial

- Allan Prangnell, CEO, Taumata Arowai – [New wastewater standards](#)
 - Michael Lovett, Deputy Secretary for Policy and Te Tiriti, DIA – [Local Water Done Well](#)
 - Dr Grant Davidson, Chief Executive, Hauora Taiwhenua Rural Health Network, Bill Eschenbach, CEO, Waitaha Primary Health and Mark Eager, CEO, Mobile Health – [Rural health](#)
 - Scott Necklen, Deputy Chief Executive, LGNZ, Andrew McKillop, Programme Director, Road Efficiency Group Te Ringa Maimoa and Dawn Inglis, General Manager, Waipā District Council – [Transport kōrero](#)
 - Katrina Casey, Chief Executive, Cyclone Recovery Unit, DPMC – [Cyclone recovery](#)
 - Karen Mitchell, Principal, Deal Advisory, KPMG – [Funding infrastructure](#)
-

LINKS TO SPEECHES

- Parliamentary Under-Secretary Simon Court – [Political Address: 27 February](#)
- Housing Minister Chris Bishop – [Going for Housing Growth: 28 February](#)
- Parliamentary Under-Secretary Simon Court – [Speech to LGNZ Metro, Rural and Provincial Sectors Forum](#)

AOLG – KEY TAKEAWAYS

[READ THE TAKEAWAYS](#)

RURAL & PROVINCIAL – KEY TAKEAWAYS

MEDIA COVERAGE

Last week's LGNZ All-of-local-government meeting drew the attention of media outlets from across the country, on a range of topics from rates capping and four-year terms to a new stalking bill and housing growth.

Local Government Minister Simon Watt's speech and LGNZ's stance on [rates capping](#) took centre stage on Thursday, with [Newsroom](#) leading with a well-written piece alongside stories on [NBR](#), [BusinessDesk](#), [RNZ](#), [The Press](#) and [The Post](#).

[Four-year terms](#) for local government were also a hot topic, with LGNZ President Sam Broughton appearing on [Mike Hosking breakfast](#) on [Newstalk ZB](#) to discuss the issue, with his comments also included in [The Post](#) and [Waikato Times](#) – the topic also causing significant debate on both sides in various opinion columns.

LGNZ Chief Executive Susan Freeman-Greene and Invercargill councillor Alex Crackett also spoke with [Stuff/ThreeNews](#) and [Newstalk ZB](#) about the Government's proposed [stalking legislation](#).

Housing Minister Chris Bishop's announcement at LGNZ's Metro and Rural & Provincial sector meetings on Friday caused a media scrum, with [1News](#) and [ThreeNews](#) running stories and [RNZ](#) livestreaming the Minister's speech.

Analysis articles also ran on [Stuff](#), [NZ Herald](#) and [Gisborne Herald](#), with Stuff's Luke Malpass penning an insightful piece appearing in [The Press](#), [The Post](#) and the [Waikato Times](#).

USING THE SOUTH AUSTRALIAN EXPERIENCE TO ADVOCATE AGAINST RATES CAPPING

As part of our broader advocacy against rates capping, we've set up meetings between Local Government South Australia CE Clinton Jury and Minister Watts' office. Minister Watts has also instructed his officials to connect with Clinton to get more information about the South Australian experience.

**Ngā manaakitanga,
The team at LGNZ**

LGNZ four-monthly report for member councils

// November 2024 – February 2025

Ko Tātou LGNZ.

This report summarises LGNZ’s work on behalf of member councils and is produced three times a year. It’s structured around LGNZ’s purpose: to serve local government by **championing**, **connecting** and **supporting** members.

Please consider putting this report on the agenda for your next council meeting so that all councillors can review it and provide feedback. Sam, Susan or other National Council members are very happy to join council meetings online to discuss the report or any aspect of it – just let us know.

This report complements our regular communication channels, including *Keeping it Local* (our fortnightly e-newsletter), providing a more in-depth look at what we do.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 3

Introduction

This four-monthly report covers the summer holiday period when you hopefully had a well-deserved break. LGNZ continued to work hard on your behalf, delivering two All-of-local government events, meeting with Ministers, making submissions and producing resources for members.

January's Cabinet reshuffle meant a new Minister for Local Government, Simon Watts. LGNZ had dinner with the Minister on his first official day in the job, hosted him at February's All-of-local-government event and had our first formal meeting of the year on 6 March. As the Minister said at our February event, we have a positive relationship and want to work together. He acknowledged local government was fatigued by waves of reform and that a lot of the cost and burden that falls on local government is because of central government legislation (as LGNZ's research last year demonstrated). We're looking forward to working constructively with the Minister.

The political year unofficially starts at Waitangi, which offers many opportunities to mix formally and informally with Ministers, MPs and Iwi leaders. This year LGNZ stepped up our involvement and had a strong presence, including a number of National Council members, who were part of an official pōwhiri and delivered a prayer for the nation at the Dawn Service.

In the advocacy and policy space, in November we launched a set of [funding and financing tools](#) that could make a difference for local government. These tools, which include things like sharing GST on new builds, congestion charging and value capture from growth, gained strong media coverage. We also highlighted to media the potential negative implications of rates capping, with Australian guest speakers at both our November and February All-of-local-government events underlining the negative fiscal impacts for Australian councils and communities.

Other highlights of this period included:

- A range of quality submissions shared with members, including on resource management and water services reform.
- The launch of our Electoral Reform Issues paper, with the draft position paper launching 13 March. As well as four-year terms this covers the inevitable decline of post and how to respond.
- Members can now access for free more than \$1.2 million worth of professional development assets via our Ākona professional development platform (this is what it would cost councils to commercially develop the 15 Ako hours and 22 courses available).
- We distributed a free Vote 25 toolkit to all member councils just before Christmas – which you can use and adapt to promote voter registration, standing and voting.

We always welcome your comments and feedback.

Ngā mihi
Sam and Susan

Champion

Government relations

In January a reshuffled Cabinet meant a new Minister for Local Government along with other portfolio shifts relevant to local government, including a new Transport Minister. We have seized on the reshuffle and our already-strong relationship with incoming Local Government Minister Simon Watts to reset the relationship between central and local government. Sam and Susan had dinner with Minister Watts on his first official day in the job, we've locked in regular ongoing meetings, and the Minister spoke at our All-of-local-government meeting on 27 February. As well as staying as long as he could to answer questions, the Minister joined Mayors, Chairs and Chief Executives for morning tea ahead of his session.

As well as sending the Minister [an immediate letter](#) on key issues, we have developed a briefing for the Minister that sets out the state of play of local government issues, including where there are opportunities to work together in support of New Zealand's economic development. [Read the Briefing to the Incoming Minister.](#)

We have confirmed quarterly meetings with the Prime Minister throughout 2025. We also meet regularly with Infrastructure and Resource Management Reform Minister Chris Bishop, who now holds the Transport portfolio as well, with Regional Development Minister Shane Jones, and of course Minister Watts. During this four-month period, we met with Minister for Building and Construction Chris Penk and got a good insight into what he would like to achieve in the portfolio. He is keen to make changes work on the ground and, as he put it, "make life easier for councils not harder". We are in conversation with MBIE as to how options for the building consents regime might be received by councils and how they might work in practice.

We secured a strong line up of Ministers and representation from the Opposition at both the November and February All-of-local-government meetings and individual sector meetings.

Waitangi Day kicks off the political year and this year LGNZ had a strong delegation that included a number of National Council members. We held formal and informal meetings with local MPs and iwi leaders, and had the opportunity for conversations with a range of Ministers we would not normally meet with, like Education Minister Erica Stanford. Sam, Campbell and Susan attended the Waitangi Trust's dinner alongside with political leaders, including Minister Watts and the Leader of the Opposition. We had a particularly useful meeting with Northland MP Grant McCallum, who was sympathetic to our safety concerns relating for Māori elected members given the tenor of debate around Māori Wards referenda. He was action-focused and was keen to support neutral messaging that promoted safe and informed local elections. He was also interested in looking into working with us to brief National MPs on other local government issues such as funding and financing.

Media

Our media engagement means balancing standing up for councils with being seen as a constructive partner of the Government. LGNZ has gained proactive media coverage of our perspective on rates capping, and our launch of funding and financing tools, and the closure of regional newspapers. Our advocacy positions on all three topics tied into our wider strategy to make local government feel more relevant and improve ratepayers' understanding of issues faced by councils.

Over the past 12 months, the media landscape has shifted significantly with the closure of major platforms, key newsrooms and culling of experienced journalists. These shifts made it harder to place proactive stories but we have intensified our efforts and continue to gain traction on major advocacy issues important to councils and our communities.

An example of these efforts coming to fruition was the coverage of LGNZ's All-of-local-government meeting, which drew the attention of media outlets from across the country on a range of topics, from rates capping and four-year terms to a new stalking bill and housing growth.

We got coverage on our position on [rates capping](#), including [Newsroom](#) leading with a well-written piece alongside stories on [NBR](#), [BusinessDesk](#), [RNZ](#), [The Press](#) and [The Post](#). [Four-year terms](#) for local government was also a hot topic, with Sam Broughton appearing on the [Mike Hosking breakfast](#) on [Newstalk ZB](#) to discuss the issue, with his comments included in [The Post](#).

LGNZ's CE Susan Freeman-Greene and Invercargill Councillor Alex Crackett also spoke with [Stuff/ThreeNews](#) and [RNZ](#) about the Government's proposed [stalking legislation](#) and the need to increase safety for elected members.

On Friday, Minister Bishop's announcement around new and improved funding and financing tools to reduce the disincentives for housing growth for councils made headlines. Analysis articles ran on [Stuff](#), [NZ Herald](#) and the [Gisborne Herald](#), with Stuff's Luke Malpass penning an insightful piece on the financial conundrum facing councils that appeared in [The Press](#), [The Post](#) and the [Waikato Times](#).

Some other specific media highlights in the past four months include:

- LGNZ's rollout of [a funding and finance toolkit](#) for councils got plenty of traction.
- We urged caution around central government's proposed [rates capping](#) introduction in New Zealand.
- We advocated to the Government [to share IVL funding](#) with councils to reduce pressure on ratepayers.
- We [welcomed the new Minister of Local Government](#) and presented the reshuffle as an opportunity to collaborate more.
- Sam penned an [op-ed](#) for Stuff, talking about the benefits of a true partnership between local and central government.
- LGNZ spoke out about the proposed Government changes to the [water and waste levies](#).

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 6

- We [welcomed the move](#) towards benchmarking and more transparency, but pushed the Government to ensure any report card provides a 'full and accurate picture'

Local government funding and financing

In late November we launched a [set of 25 tools](#) to help councils better fund infrastructure and services – from sharing GST on new builds to value capture to improving councils' ability to recover costs.

It's a pragmatic list with three distinct tiers:

1. Tools that are on the Government's agenda
2. Tools the Government has shown an interest in
3. Tools councils want but the Government isn't interested in, so need longer-term advocacy.

While rates will always be local government's primary funding tool, these tools could make a real difference to the challenges councils face. We are starting to see the fruits of this work with the Government's announcement at our February All-of-local-government meeting on new tools that will see development contributions replaced with a development levy system, allowing councils to charge developers a share of long-term infrastructure costs – more on this below.

As well as the [set of tools](#), we developed some resources to support councils' conversations with communities and central government:

- [A set of key messages](#) explaining why we need new tools
- [Slides](#) with key messages and data
- [A draft op ed](#) that you can repurpose
- [A draft letter to your MP](#)

Treasury has released advice to the Minister of Finance on funding tools available to councils. The Minister is seeking to reduce funding calls on the Crown. Treasury considers that council funding tools are generally fit for purpose. Their view is that the barriers to the full use of these tools relate to political economy, such as a general resistance to increasing rates. This is a valid point, but LGNZ believes these tools need improvement to allocate costs better, address affordability, improve efficiency, and align government objectives with local incentives.

The Government's stance against rates increases and its consideration of rates caps risks deepening public resistance to existing funding tools and increasing pressure on Crown funding. LGNZ will continue to engage with Ministers on this issue and work to enhance public discourse on the relationship between the costs of services and infrastructure and rate rises.

Ratepayer Assistance Scheme (RAS)

The new Local Government Minister has expressed interest in progressing the RAS. The RAS would allow ratepayers to cheaply borrow for specific improvements or ratepayer charges and in support of local and central government priorities. By leveraging the high credit quality of local government

rates, it accesses efficient capital market financing, passing savings to ratepayers. The RAS lends directly to ratepayers, keeping councils financially whole.

We are looking to capitalise on the Minister's interest and secure the necessary financial commitment and legislative changes. Minister Watts is positive about the scheme and has identified potential alignment with his energy portfolio if the RAS could foster investment in rooftop solar generation. We are working with Rewiring Aotearoa, an electrification advocacy group, to develop this element of the scheme.

Infrastructure funding and financing

In November, the Government released an [infrastructure funding and financing framework](#). This framework outlines the principles and processes underpinning the Crown's funding and financing decisions. It will have implications across water, energy, housing, climate adaptation, and transport. The framework makes it clear that the Government intends to only fund or finance projects as a last resort (and in minimal viable quantities). The Government also expects user pays and private financing to play a greater role in infrastructure funding and financing. Local government is not mentioned in this framework.

LGNZ will engage with new government agency *Infrastructure Funding and Financing Ltd (NIFFCo)* to ensure this framework is operationalised with councils in mind. Operationalising the framework will be challenging, given the substantial investment required for future infrastructure and the limitations of user-pays models in some sectors, as highlighted by the Infrastructure Commission.

We are also engaging with DIA and MHUD on their current work on changes to the development contributions system.

The Minister for Infrastructure announced changes to New Zealand's infrastructure funding and financing settings at February's All of Local Government meeting. The Government will replace development contributions with a development levy system, allowing councils to charge developers a share of long-term infrastructure costs. There will be regulatory oversight of development levies to ensure charges are fair and appropriate. Councils will also have more flexibility to set targeted rates that apply to new developments. Finally, the Infrastructure Funding and Financing (IFF) Act will be improved for developer-led projects and expanded to support major transport projects like those led by NZTA.

LGNZ has welcomed these changes, which were in our funding and financing toolkit. We will await further detail and work to ensure these reforms work effectively on the ground for councils.

Regional deals

Instead of the initially announced approach of inviting five regions to participate, all councils were eligible to express interest in a Regional Deal by 18 December 2024.

The Minister was clear that councils should work together across a region when submitting an expression of interest. This meant providing a light-touch proposal with an outline of the drivers of economic growth in a region, what the region will do to unlock growth, and what the region needs

from central government to assist. These expressions of interest will be assessed, and the Infrastructure and Investment Ministerial Group will decide which regional deals proceed to the next steps, which involve a MoU process and final negotiation.

Our understanding is that new Minister may be interested in seeing more than one deal agreed by the end of 2025 (we will certainly be encouraging this), with more agreed by the end of 2026.

Rates capping

Rates capping was a significant topic at both the November and February All-of-local-government meetings. This included presentations on the operationalisation and impacts of rates capping from local government representatives from New South Wales and Victoria (in November); and on transparency as an alternative from South Australia (in February).

In Australia, while rates capping has been effective in terms of constraining rates increases, it has failed to deliver an optimal mix of local services and rates. It has degraded council delivery and left councils increasingly financially unstable. In every overseas jurisdiction that has implemented rates capping, councils are advising us to oppose it as strongly as we can because of its negative impacts on councils' ability to deliver for communities.

We raised concerns about rates capping in meetings with numerous ministers, highlighting this policy's risks for communities and advocating for alternative measures. We are suggesting performance reporting and benchmarking should be prioritised instead – and that these would better achieve the Government's aims.

Water services reform

The Local Government Water Services Bill was introduced in December, with submissions closing in late February. This piece of legislation will establish enduring settings for the new water services system and is expected to be enacted in mid-2025. The bill sets out arrangements for the new water services delivery system, a new economic regulation and consumer protection regime for water services, and changes to the water quality regulatory framework and the water services regulator (Taumata Arowai). To help members prepare their submissions, in December LGNZ shared an [explainer on the stage three legislation](#) with members, based on [proactively released decisions](#) on the future system. In January, we circulated a draft submission on the Local Government (Water Services) Bill for member input, and we expect to present our oral submission in March.

The Water Services Authority – Taumata Arowai and the Ministry of Business, Innovation and Employment (MBIE) carried out a short consultation on levies to fund water services regulation, with submissions closing in late January. These levies will be collected from councils or their water organisations, and will fund or part fund the water services regulatory functions of Taumata Arowai and the Commerce Commission. These agencies are already empowered by legislation to charge levies in this way. Taumata Arowai proposes to recover \$20.658 million per annum for the next three years from local government through this levy, around 84% of its operating costs. The Commerce

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 9

Commission is seeking to recover \$6.5m per annum for the next two years from local government (or their water organisations) from their levy. They both propose to allocate these on a population basis, resulting in a total for both levies of \$5.44 per person per year.

Councils will soon start consulting on aspects of their Water Service Delivery Plans (WSDPs), which must be finalised by 3 September 2025. As councils consult their communities, for some councils it will become obvious how difficult it is for water services to be financially sustainable, especially if charges to consumers are kept low. We will support member councils by providing information, connecting members to support from DIA, and advocating for DIA to increase this support. The Minister was also clear when speaking at LGNZ's All-of-local-government event on 27 February that councils should reach out for help now rather than wait till September.

Resource management reform

We are awaiting Cabinet decisions on the "blueprint" for new legislation to replace the Resource Management Act (RMA), which we understand was presented to the Minister Responsible for RM Reform last month.

In the meantime, the Resource Management (Freshwater and Other Matters) Amendment Act, and the Fast Track Approvals Act were both passed by Parliament.

In February, we submitted on the Resource Management (Consenting and Other System Changes) Amendment Bill. This legislation progresses targeted amendments to the Resource Management Act to improve its performance while work on replacing the RMA continues. We are still awaiting the accompanying changes to National Direction, which LGNZ will also submit on.

Some councils have approached LGNZ seeking support for removing specific projects from the Fast Track process. For example, Waimate District Council has written to Ministers raising concerns about the inclusion of the proposed Waste to Energy Plant at Glenavy, primarily on the basis of environmental, health and economic impacts. While LGNZ can't lobby central government about specific projects for individual councils, this serves as another illustration of the tension between central and local government decision making. The Fast Track Approvals Bill aims to speed up consenting for major infrastructure, but the inevitable trade-off is less input from local communities on significant proposals that affect their area. We will continue to reflect this broader concern in our advocacy work.

We are currently working on a plan for how LGNZ will respond to the significant volume of consultations expected in the RM space over the next 12-18 months.

Transport

We have surveyed Transport Forum members to get an idea of the cost of implementing the Government's new policy of variable speed limits in school areas. While councils are at varying stages in terms of quantifying the impact of this policy, early indications are that this is having a

significant fiscal impact on councils that are already facing significant fiscal pressure as a result of funding decisions made in the NLTP 24-27.

Transport Forum meeting dates have been locked in for 2025, and following the letter from Sam and Neil to Simon Bridges, NZTA board members Paul Dougherty and Warwick Isaacs attended the Transport Forum meeting in February.

In November, the New Zealand Transport Agency Waka Kotahi released a discussion document on increasing the private share (i.e. the portion of fares not subsidised by central or local government) of public transport operating expenditure, and wrote to regional councils suggesting specific targets for this share. This had been signalled in both the Government Policy Statement on Land Transport and the National Land Transport Programme, both of which were released earlier in 2024. The Regional Sector and LGNZ have raised concerns about the impact on passenger fares in the media and with Ministers.

The new Transport Minister also holds the Housing, Infrastructure, and RM Reform portfolios, presenting significant opportunities for alignment. We have secured a meeting with Minister Bishop in March and also have briefed him in writing on the LGNZ Transport Forum, which met on 10 February and discussed how best to work with the new Minister.

The Government's 2025 Q1 action plan commits to passing the first reading of the Land Transport Management (Time of Use Charging) Bill. This bill, which was introduced last year, would enable time of use charging (aka congestion charging). This is one of our tier one funding and financing tools and LGNZ will be submitting on this legislation: the model adopted needs to give councils as much flexibility as possible.

Climate change

In November, the Office of the Auditor General has released a report [How well four councils are responding to a changing climate](#). The report highlights that climate change poses significant challenges for councils, requiring long-term strategies, governance clarity, and collaboration. While the four councils audited have taken steps to prioritise climate action, gaps remain in embedding these priorities into planning and resourcing. Recommendations include enhancing collaboration, setting clear climate objectives, strengthening performance measures, ensuring governance clarity, and improving public reporting. The Auditor-General encouraged all councils to consider these recommendations.

On 29 January, the Government published its [response](#) to the Finance and Expenditure Committee's inquiry into climate adaptation (which outlined high-level objectives and principles to guide development of New Zealand's climate change adaptation policy framework). The response signalled the Government intends to adopt a decentralised approach to climate adaptation, with decision-making and resource allocation occurring at the most-local level possible. This suggests residents and councils will generally bear the cost of adaptation. LGNZ will keep advocating for councils to be provided with adequate funding and policy tools to meet adaptation obligations. The Government has said it will consider the committee's recommendations as it finalises the adaptation framework and associated legislation, which is expected to be introduced this year.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 11

Electoral Reform Working Group

Thank you for all your feedback on the Working Group's issues paper, which has been taken into account by the group in developing a draft position.

Mayor Nick Smith will be launching the Electoral Reform Working Group's draft position paper in March, including presenting to all zone meetings to get your feedback. As well as looking at a four-year parliamentary term, the group has also been looking at the unsustainability of postal voting and considering alternatives.

Other policy issues

Earthquake prone buildings

The steering group set up by MBIE to inform its comprehensive review of the seismic strengthening system has had its first meeting, with Nigel Bowen, Helen Craig, and Liam Hodgetts (all put forward by LGNZ) providing a local government voice at the table.

LGNZ has also set up our own informal Seismic Strengthening Group, chaired by Manawātū deputy mayor Michael Ford, which met for the first time in late November. This was a positive meeting that underscored what members want from the Government's comprehensive review of the seismic strengthening regime. This group will meet on an as-needed basis to help guide LGNZ's response to the Government's review, and to support wider advocacy for the remit from Manawātū District Council passed in 2023.

Stalking

We produced [a submission](#) on the Crimes Legislation (Stalking and Harassment) Amendment Bill, which introduces a new stalking and harassment offence and other measures to reduce the harm that victims experience. In our 2022 survey of elected members, 43% had experienced harassment, prejudice, threatening or derogatory behaviours in their role. Aggressive and abusive behaviours can constitute stalking – or be a precursor to it – and we want to see elected members better protected.

Update on 2024 remits

Remit	Progress update
Appropriate funding models for central government initiatives That LGNZ proactively promote and lobby for the development of a more equitable and appropriate funding model for central government initiatives.	This remit is being progressed as part of the wider funding and financing work programme (and is a core objective of this work).
GST revenue sharing with local Government That LGNZ be proactive in lobbying central government on sharing GST revenue with local	This remit is being progressed as part of the wider funding and financing work programme. We understand the Government is looking at

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 12

government, derived from local government rates and service fees related flood protection mitigation, roading, and three waters, for investment in these areas.	alternatives to this policy (such as more enabling changes) and will consider advice on this later this year.
Local Government Māori Wards and Constituencies should not be subject to a referendum That LGNZ lobbies central government to ensure that Māori wards and constituencies are treated the same as all other wards in that they should not be subject to a referendum. We oppose the idea that Māori wards should be singled out and forced to suffer a public referendum.	Now that legislation has been passed, we know that 42 councils will be holding a referendum on Māori wards. See the separate National Council paper on Māori wards, which discusses how LGNZ will support Te Maruata and the wider membership around the referendums and elections broadly.
Proactive lever to mitigate the deterioration of unoccupied buildings That LGNZ advocate to Government: <ul style="list-style-type: none"> • For legislative change enabling local authorities to compel building owners to remediate unoccupied derelict buildings and sites that have deteriorated to a state where they negatively impact the amenity of the surrounding area. • To incentivise repurposing vacant buildings to meet region-specific needs, for example, accommodation conversion. 	Late last year we had an initial discussion with Gisborne District Council to determine the work programme for progressing this remit, which was also discussed at the first meeting of the LGNZ Seismic Strengthening Group. Information from GDC is currently being used to develop a work programme.
Representation Reviews That LGNZ advocate for changes that support the provision of timely and accurate regional and sub-regional population data to councils for use in council representation reviews.	Statistics NZ is reviewing the methodology for the 2028 census. We are monitoring this process in case it provides an opportunity to progress this remit. A move to a four-year term, which we are actively lobbying for, would require a change in the timings of representation reviews so this remit is also informing the thinking of the Electoral Reform Working Group.
Community Services Card That LGNZ advocate to Central Government to amend the Health Entitlement Cards Regulations 1993 so that the cardholder can use the Community Services Card as evidence for the purposes of accessing Council services which would otherwise rely on a form of means testing.	We wrote to relevant Ministers asking that councils be allowed to make use of the Community Services Card when offering discounts to council facilities. We have yet to receive a response. We also put out a media release, which got good coverage, and engaged via social media.
Graduated Licensing System That LGNZ advocate for changes to the fee structure for driver licensing, better preparing young people for driver licence testing, and greater testing	MTFJ has agreed to progress this remit because it relates to its work with the Driving Change Network.

capacity in key locations throughout New Zealand, in order to relieve pressure on the driver licensing system and ensure testing can be conducted in a quick and efficient manner.	
--	--

Connect

2025 calendar

We released a [final version of the 2025 calendar](#) in early December (though this remains subject to change if the need arises).

Vote25

In December, we shared our [free Vote25 toolkit](#) with member councils. This includes a set of creative assets that councils can customise, such as posters and social media tiles. The campaign covers all three phases: register to vote; stand for election; and vote.

All-of-local-government meetings

The November meeting, with a strong programme that focused on local government reform, drew more than 170 members. It was an opportunity to lay the foundations for stronger advocacy on key parts of reform in local government, such as rates capping. At that event we also launched the funding and financing toolkit discussed above, which gained strong media coverage.

February's All-of-local-government meeting focused on accountability and demonstrating value, with more than 180 members attending. Government speakers included Local Government and Climate Change Minister Simon Watts; Infrastructure, Transport, RMA Reform and Housing Minister Chris Bishop; and RMA Reform and Infrastructure Parliamentary Under-Secretary Simon Court. This was Minister Watt's first chance to address a large local government gathering in this role, and he set out his intention to work in partnership with local government while delivering on the reform agenda. Our guest speaker from South Australia's local government association shared how they managed to convince their government to not implement rates capping by implementing greater transparency; an advocacy approach that LGNZ is also taking.

The theme of the 1 May meeting is delivering infrastructure for growth. Confirmed speakers so far include Minister Chris Bishop and former Minister Steven Joyce – we'll be releasing the programme and inviting registrations in March. As usual, individual Regional, Metro and Rural & Provincial Sector meetings will happen on the following day.

Metro Sector

The Metro Sector meetings on 22 November and 28 February confirmed the group's focus areas for the remainder of the current electoral term, as follows:

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 15

1. Enabling and supporting economic development and growth by showcasing the role of cities as engines of the national economy and driving regional collaboration.
2. Lift LGNZ governance and accountability in order to improve LGNZ's impact.
3. Improve alignment of central and local government investment cycles to reduce inefficiencies and encourage more bipartisan agreement on key infrastructure decisions.

Regional Sector and Te Uru Kahika

The final meeting of the Regional Sector for the year included engagement with Hon Mark Mitchell, the Minister for Emergency Management, a discussion with Hon Simon Upton, Parliamentary Commissioner for the Environment on water and land use roles, and discussions on Taumata Arowai's stormwater performance standards and phase 3 of resource management system reforms.

LGNZ has met new Te Uru Kahika Executive Director Iain Maxwell to welcome him on board and build on the positive relationship we enjoyed with his predecessor Liz Lambert. We work closely to coordinate Regional Sector meetings and collaborate on policy work.

February's Regional Sector meeting included new Transport Minister Chris Bishop, Taumata Arowai on wastewater performance standards, and the Department of Prime Minister and Cabinet on significant natural hazard events and recovery settings. This meeting also welcomed new Taranaki Regional Council Chair Craig Williamson, with Cr Charlotte Littlewood recently standing down from the Chair position.

Rural & Provincial

February's R&P meeting canvassed a number of areas impacting rural and provincial councils, with Local Water Done Well a key topic on people's minds, as well as new wastewater standards. The Department of Internal Affairs and Taumata Arowai spoke at the first R&P event of the year and took questions. Rural health was also a big topic so we had speakers address growing concerns over access to health in our rural communities and provided some examples of the hands-on role some councils are playing to bridge the gap. The Roading Efficiency Group also delivered a presentation.

Minister Chris Bishop used our February event as a platform to announce some major changes to local government funding and financing as part of his Going for Housing Growth programme. The event wrapped up with a session with KPMG's infrastructure financing expert Karen Mitchell on infrastructure funding and financing options such as using debt and PPPs.

SuperLocal25

Planning for SuperLocal25, which is from 16-17 July at the Te Pae Convention Centre, is well underway: the conference's theme will be Brilliant Basics and Beyond. We are currently finalising the programme and will open registrations in April.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 16

Based on feedback from SuperLocal24, we have compressed the programme so that the event starts much earlier on the first day (the AGM will be at 8.30am on the Wednesday) and wraps up with the awards dinner on the Thursday night. This leaves Friday for visits to the wider region or travel home. Te Maruata and Young Elected Member hui will be held on Tuesday, before the conference, and there will be a breakfast for Women in Local Government at 7am on the Wednesday morning before the AGM.

Te Ao Māori

Iwi engagement

Waitangi presented new opportunities for engagement, thanks to LGNZ's representation by National Council. The Iwi Chairs Forum held one of their conferences ahead of the Waitangi commemorations at Waitangi, which allowed us to continue building that relationship as well as with Northland Iwi, hapū and whanau. It was the first year we were formally included in a pōwhiri at Waitangi, alongside the legislature, diplomats and the Waitangi Tribunal.

Te Maruata

Te Maruata met early in November to reflect on 2024 and look forward to 2025. The Treaty Principles Bill and broader election-related issues, including how to support members, were also a hot topic. Te Maruata also provided support to LGNZ's participation at Waitangi.

Te Maruata Rōpū whakahaere will hold its first official meeting of the year at the beginning of March. The focus will be on fleshing out plans for Elections 2025, preparations for Te huinga o ngā roma – the in-person whānui hui in April – and plans for the Te Maruata hui at SuperLocal25.

Te huinga o ngā roma will be held from 3-4 April in Taupo. Te huinga o ngā roma acknowledges the tributaries of Lake Taupō and the role of water in the revitalisation and connection of people and place, which will ground the event. There will be a range of inspiring speakers, workshops and discussions to equip, support and inspire members.

Young Elected Members Network

The annual YEM Hui took place in Christchurch from 16-18 October. It was held there despite Christchurch City Council's decision to withdraw from LGNZ, because the YEM Committee had decided earlier this year to shift away from having a host council, with the Committee taking on full responsibility for hosting. We worked closely with Cr Deon Swiggs (Environment Canterbury and member of the YEM Committee) on planning for the event. Former Christchurch Mayor Lianne Dalziel delivered the keynote address, with the theme of the hui being "mā mua kite a muri, mā muri ka ora a mua" – driving change through community leadership. The programme was about councils empowering community leaders to make real change and equipping YEM with the key skills needed to make good decisions around council tables. We also had former YEM Lan Pham from the Greens and Cameron Luxton from the ACT Party give their perspectives on how to deliver for communities.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 17

Tikanga sessions were organised to support members to prepare for the whakatau at the commencement of their hui.

Planning is now underway to work through how the YEM network want to address voter turnout and get more young people to stand in the next local election.

The YEM Committee met at the end of February to develop a plan for the elections – this includes how to get more young people to stand and vote, as well as induction material specific to supporting YEMs. We will also be holding a three-hour YEM hui before SuperLocal25.

Community Boards

The Community Board Executive Committee met in early November and again in February. The committee welcomed a new member, Ross Munro from Pleasant Point community board (who replaces Simon Britten who stepped down due to Christchurch City withdrawing from LGNZ).

The meeting reflected on discussions with the Remuneration Authority on the formula for setting community board remuneration and an option for recognising and compensating boards which have additional responsibilities.

CBEC is keen to strengthen alignment with both YEM and Te Maruata, and also discussed using Ākona for community board members and community board induction, and the impact of representation reviews and on community boards

CBEC is continuing to work on its Relationship Agreement guide for councils and community boards, with a draft available soon for consultation. CBEC is also working on a community board workshop session for SuperLocal25; providing support to boards going through representation reviews; and liaising with the Remuneration Authority ahead of its review of elected members' remuneration.

Women in Local Government

Last year we brought women elected members together online and in person at SuperLocal24 (at a pre-conference lunch with keynote speaker Nicola Willis). We've had a lot of feedback that this work is valuable and should continue. As a result, we've developed a plan for this work that includes creating opportunities to connect; advocacy for system change that improves all elected members' safety (like submitting in support of the stalking legislation currently before Parliament); and championing this work.

Member visits

Susan and Sam are on track to have visited all councils since Sam became President, with the last visits scheduled in early 2025. For the remainder of the triennium, we will have a structured programme of calling Mayors and CEs (by Susan and Scott) as well as ad hoc visits/calls as needed.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 18

Support

Ākona

We are seeing an increase in users as members realise how comprehensive it is, and that they can use it to suit their needs. Ākona has about 500 active users, with 42 users choosing to engage with the platform over the summer break. Over 200 users have made use of the skills analysis tool and 483 members have enjoyed the top five e-modules.

Between November and February, we held six Ako hours attracting a total of 184 registrations – and many individual registrations were for groups attending together.

The value of Ākona to councils continues to grow. An interactive professional development platform with 15 Ako hours and 22 courses would cost about \$1.2 million if you paid for it commercially.

The Induction 2025 pre-elected package of learning is on track for release at the end of March. This package teaches people about what it means to be an elected member, including what councils actually do, and will include a series of animated videos, along with interactive e-modules. You'll be able to share this pre-elected package with anyone interested in standing for council (they don't have to be members).

The Mayor Induction Hui and EM Induction hui around the country have been booked and details released to councils, which have welcomed the early communication. We'll also be holding a Chair Induction Hui after regional councils have elected their chairs.

The Ako Hour Academy, which will provide post-induction learning for all elected members, is being built collaboratively with members, in our governance bi-monthly hui. The response has been very positive, with everyone we have spoken to committing to weaving Ākona into local induction activities. Our Learning and Development Manager is meeting with each council in turn to discuss what materials they could upload into the new Ākona platform so it's a one-stop shop for all elected member learning.

Te Korowai – CouncilMARK

Te Korowai has progressed from three successful trials to a soft launch.

We are now seeking registrations of interest for participation in Te Korowai in 2025. There are multiple ways to engage with the programme:

- **Full programme cycle:** This includes an independent assessment by external assessors, an evaluation by the independent evaluation panel, and a development workshop following the evaluation report.
- **Integrity survey:** This serves as a stepping stone for councils wanting to assess their ability to function with integrity. Similar to an engagement survey, it involves an organisation-wide

rollout — including elected members — followed by an in-person workshop to discuss the findings.

Roading Efficiency Group

LGNZ is a founding partner of the Road Efficiency Group Te Ringa Maimoa (REG) sector partnership, which is entering its 12th year. We welcome the continued collaboration with RCAs and support REG in rolling out a number of exciting initiatives:

- A new governance dashboard in the Transport Insights web portal that provides elected members with valuable insight into the performance and benchmarking of their road network and RCA – www.transportinsights.nz
- An extensive learning and development programme to continue to raise capability.
- Delivering the Consistent Condition Data Collection project, which captures surface condition data for all sealed roads for local authorities.

Learn more at www.nzta.govt.nz/reg

Governance support

The 2025-2028 edition of the LGNZ standing orders template was [published in late December](#). This version has been updated to include recent legislation and additional principles. It's also been redrafted in plain English. As we have done previously, three templates have been developed, one for city and district councils, one for regional councils and one for community boards.

The 2025-2028 Guide to Standing Orders will be published in March. It has been updated and expanded with additional guidance, including:

- Advice on implementing the Ombudsman's Guidance on public access to workshops;
- More information on delegations and setting agendas;
- Guidance on issues that emerged in the last term, such as using co-chairs and vacating the chair;
- Protocols for webcasting and people joining meetings remotely; and
- Templates for parental leave and childcare policies.

LGNZ continues to provide support to a number of councils experiencing tension between elected members and/or between elected members and CEs.

Hon Mark Mitchell

Minister of Corrections
Minister for Emergency Management and Recovery
Minister for Ethnic Communities
Minister of Police
Minister for Sport and Recreation

REF: EM COR 2024-25-067

March 6 2025

Mayor Andy Watson
Rangitikei District Council
Karen.Cowper@rangitikei.govt.nz

Dear Andy,

Thank you for your letter dated 12 February 2025 regarding potential funding for a new IL4 building in Marton. I can assure you that the Government is committed to strengthening New Zealand's emergency management system. You will also know that the Government is operating in a tight fiscal environment and is balancing competing demands (e.g. health, education, law and order) on the funding it administers on behalf of New Zealanders.

Currently there are no dedicated central funds accessible to Civil Defence Emergency Management Groups for Emergency Operations Centres (EOCs) or Emergency Coordination Centres (ECCs).

You will be aware that the Government released its response to the Government Inquiry into the North Island Weather Events (the Inquiry) in October last year. We are in the middle of developing new emergency management legislation and an investment roadmap to support this.

In response to recommendation 7 of the Inquiry we are committed to a series of priority actions to improve the emergency management system, including enabling system interoperability and fit-for-purpose ECCs in each region.

A key area for the Government is enabling the different parts of the system to work better together at the national level. This includes establishing a new National Emergency Management Facility (NEMF) in Wellington, and work on a backup in Auckland. We know that the NEMF must be able to link to regional ECCs, which must also be fit for purpose.

My specific focus is on making sure the Government delivers through building leadership, community capability and capacity, and clearer accountability. We are still working through options and are yet to consider or make decisions on the investment and implementation roadmap.

Thank you for taking the time to write.

Yours sincerely,

Hon. Mark Mitchell
Minister for Emergency Management and Recovery

MAYORS REPORT TO COUNCIL 27 MARCH 2025 - ADDITIONAL TABLED REPORT

Good Morning

I apologise that this is tabled rather than being part of the Order Paper.

Council has been exceptionally busy over the last month with many national level meetings for Mayors and Councillors and we continue to grapple with the relationship building around Local Water Done Well. In my earlier report I had said that the turnout for LWDW public meetings was incredibly low and at the time of writing that was the case. The meetings in Bulls and Taihape attracted less than 10 people combined. I thank that handful of people. However the meeting in Marton subsequent to me writing my report was the exception, turnout was huge possibly also boosted by the street collection of rubbish issues.

Recently Council has made the decision to partially fund the pick-up of rubbish i.e. wheelibins and bags across the district following a local company ceasing trading. The Deputy Mayor and I met with senior staff essentially saying we were not prepared for this rubbish to be left to be scattered around our streets or potentially dumped wherever. That did come at a cost and it was a short term fix. Wheelibins and bag collection are a private matter between the property and private contractors and I urge everyone to either take up current contractors' offers that are available now or to use the Transfer Stations directly. Information on this is available on our websites. My thoughts also go to the owners and staff of the company that is in liquidation. They have provided a service for a large number of years, are huge contributors to our district and I feel for them.

Equally for Marton residents, Council has provided a water tanker at the Memorial Hall over the last few weeks to assist with the seasonal odour/taste issues. That has come to an end but the filter station on site will continue to still be available. This will be the last summer when these issues exist, with the transition to bore water happening this winter. This decades old issue of poor tasting water in Marton will soon be behind us.

There are a number of other issues I wish to further comment on.

1. On 18 March I attended an Infrastructure Resilience Symposium in Auckland chaired by Angela Young from Tonkin + Taylor. I will try and make available the presentations but I add these comments now.
 - i) The conference opening comments were from Nick Leggett CE Infrastructure New Zealand and also Chair of Wellington Water. He said this conference is about the need for a national resilience structure to support New Zealand. He stated that "as defined by Lloyds of London we are second to Bangladesh in countries susceptible to national disasters". Think here of Gabrielle, Christchurch etc.
 - ii) The next speaker was Reid Basher a specialist in National Disaster Risk Management. He qualified the scale of the issue in regards to costs for recent events -
 - Canterbury earthquake - \$40b estimate
 - Leaky homes - \$47b estimate
 - Covid - \$58b estimate
 - Gabrielle - \$10b estimate

- New Zealand's debt now sits at \$192b whereas in 2015 it was \$60b.
 - He also noted that you can have significant events such as a 7.8 earthquake shake in Fiordland that caused very little collateral damage – imagine the effect when this happens off the East Coast of the North Island.
 - He then moved onto how you would reduce these disaster risks which are by way of –
 - a) Knowledge/data
 - b) Best practices in construction etc
 - c) Policy/Bylaws, i.e. politics – this is about not building in high risk (flood prone) areas and learning the lessons from the past.
 - He commented that at the time of the event there is always significant interest but post-disaster lessons are forgotten and the invisibility of risks sits there for decades.
 - We as a sector are scared of policy positions because they then threat property values.
 - He finished by saying that New Zealand has 33 national risks identified.
- iii) Chris Bishop Minister of Infrastructure - his comments were –
- There is a need for a transparent model in New Zealand for who pays for risk management.
 - Risk management is about safeguarding our economy.
 - We have two options – invest to protect; or to insure.
 - 4% of our national GDP is tied to natural hazards.
 - We need to deal with these issues and to highlight to overseas investors that New Zealand is a good place to invest.
 - Our asset management risk processes are poor, partly because of our ageing infrastructure.
 - He gave the example of a \$40m pipe in Wellington buried but not connected and not listed on any asset management plan.
 - His message was clear – work out what we own and how we should look after it and replace it.
 - We have an adhoc response to disaster crises i.e. bespoke political solutions. It leaves councils/districts thinking why should we invest to mitigate if Government will just turn up. This is, I think, partially unfair – think of our roading partnerships with Government and our Local Government share of GDP and our ability to fund.
 - He also criticised Government “We have too many Government people across risk management/civil defence, there is a spaghetti junction of linkages that needs to be sorted”.
 - Government is looking to co-invest with councils using Shayne Jones' fund to protect communities and for relatively small sums of money the payback is huge. (Think of stopbank funding here for Horizons in our region).
 - Minister Bishop talked enthusiastically about PPP (Private Public Partnerships) where there is the ability to lock in processes and costs over a long time. Where buildings etc are maintained by companies who have an interest in them. These build/design/maintain contracts are becoming more widely used in New Zealand.

ITEM 9.1

ATTACHMENT 6

- He ended with a couple of one-off notes “the RMA should be suspended in times of national disaster” and “that water decisions (LWDW) have been made in New Zealand by politicians rather than by good decision makers, i.e. people with professional expertise”.
- iv) Simon Watts – Minister of Climate Change/Local Government/Minister of Energy
- Speech was on party lines i.e. New Zealand is open to investment and we need to encourage GDP growth.
 - Simon built further on the cost of natural disasters to New Zealand.
 - He is looking to build a national policy on climate change resilience in conjunction with the opposition parties.
 - Adopting to climate change is a long term challenge and there is a desperate need for data.
 - He touched on city/regional deals as a partnership between local/central Government which are 10 year deal structures.
 - He talked about the success of Auckland Water dispelling the myths that are out there in the country.
- v) Panel Discussion – Stuart Smith MP Kaikōura / Simon Court working on RMA reform as a Minister / Kieran McAnulty Opposition Minister of Infrastructure / Chloe Swarbrick Green Party Co-leader
- Cyclone Gabrielle involved many neighbouring districts and in the past the Civil Defence model relied on support from your neighbours. I recognised this as a very good point.
 - Unfortunately this session became tit-for-tat between the relevant political parties i.e. Greens/Labour -vs- Government which was a real pity because it had the potential to be a very very good session.
 - The blame was levelled on Local Government for rate increases -vs- the ability for Local Government to be able to fund itself.
 - A disappointing session but one where Chloe spoke very well compared to the others.
- vi) Jo Hendy – CE Climate Change Commission
- Highlighted the effects of climate change and talked about businesses closing when power goes down (mill closures etc).
 - People will look to migrate to New Zealand under international climate change effects.
 - Food will become more expensive.
 - Climatic events leverage off previous events i.e. a severe drought makes you far more susceptible to floods.
 - Cited the advantages of councils restoring wetlands/solar farms noting that for every dollar spent now it saves \$10 later.
- vii) Aotearoa Futures – Social Cultural Adaption for Resilience – speakers Dr Alanga Rā, Director for Social Investment WSP and Dr Rowan Dixon WSP
- Mana Whenua is often better placed to lead discussions on Climate Change, they are more aligned to the value for the dollar, they are more versatile and react faster in times of disaster.

- Governments will come and go but Iwi will always be there.
 - The Maori population percentage will continue to rise in New Zealand and they have a patient mindset to investment.
- viii) Panel discussion regarding Roading Transport - Vanessa Brown NZTA as lead -
- A limited supply of Government funding and Local Government funding is under pressure.
 - The conversations here were about roads that should not be replaced noting that people elect to live in remote areas and then expect connection.
- ix) The symposium continued with presentations on telecommunication resilience and energy security
- A takeout was that technology is the fourth strand of infrastructure i.e. very similar to the need for having roads.
 - The energy security looked at 90% of New Zealand electricity being from renewable sources, demand is dramatically increasing with electric cars and companies wanting to convert boilers to electricity for national political reasons. The winter storage lakes levels in 2024 were publicly realised to be very low, in 2025 they are potentially worse.
- x) This was a session on who pays for climate change lead by Jonathan Boston from the Wellington School of Business
- The biggest single issue is sea level rise
 - National disasters in 2024 cost an estimated \$320b USD worldwide
 - Talked about the sea level rises in New Zealand - by 2100 it will probably be about 70cm.
 - An example cited was the potential need for the relocation of Westport a town of 4000 residents which would come at a current cost of \$2b.
 - It is seen that the assistance for business owners is less than that of residents.
 - Rental units and second homes should not get as much assistance?? / effectively this is means testing.
 - Those that need relocation see themselves as victims not beneficiaries.
- xi) Final speaker Chris Faafoi CE of Insurance Council
- There is a 75% chance of a magnitude 8 earthquake occurring over the next 50 years.
 - Collectively the Insurance Council covers \$2 trillion of New Zealand assets.
 - There are 8400 FTEs working in the industry.
 - Last year the industry paid out 78% of its income.
 - Insurance in the future will not be available on flood plains.
 - Banks will not lend without insurance so why would council zone flood plains for urban.

ITEM 9.2

9.2 Consultation Tracker - March

Author: Kezia Spence, Governance Advisor

1. Reason for Report

- 1.1 This is included for the committee's information. The attached schedule will be update regularly.
- 1.2 This dashboard highlights the topic, staff lead and expected consultation period. There is a lot planned across the local government sector and for our Council over the next 12 months, so it is of benefit to provide this to not only Council but also our Community Committees on a monthly basis.

2. RDC Website

- 2.1 Council's website lists all open and recently closed consultations (see the below weblink). This is also where individuals can make submissions.
<https://www.rangitikei.govt.nz/council/consultation/current-consultations>

ITEM 9.3

9.3 Small Projects Fund Update - April 2025

Author: Kezia Spence, Governance Advisor

1. Allocation

- 1.1 The yearly allocation of the 2024/25 Small Projects Fund for the Huntermville Community Committee is \$1,316.64.

2. Breakdown

- 2.1 No payments have been made in the 2024/25 financial year.

3. Discussion Item

- 3.1 The opportunity for members to report on any ideas for projects.

Recommendation

That the report 'Small Projects Fund Update – April 2025' be received.

9.4 Funding Schemes Update - March 2025

Author: Kezia Spence, Governance Advisor

1. Overview

- 1.1 Council currently administers four funding schemes for the Rangitikei District, these are:
 - a. Community Initiatives Fund
 - b. Events Sponsorship Scheme
 - c. Creative Communities Scheme
 - d. Sport NZ Rural Travel Fund

2. Community Initiatives Fund

- 2.1 This is a Council fund intended to support community-based projects in the Rangitikei District that develop community cohesion and community resilience.
- 2.2 Council allocated \$30,000 to this fund annually, to be distributed across two separate funding rounds.
- 2.3 Round one for 2024/25 opened 01 July 24 and closed 31 August 24. Decisions were made at the September Finance and Performance meeting with funds totalling \$12,337.
- 2.4 Successful applicants were:
 - 2.4.1 Bulls and Community Development Trust
 - 2.4.2 Marton and Districts Budget Service
 - 2.4.3 Parkinson's NZ
 - 2.4.4 House of Science NZ Charitable Trust
 - 2.4.5 Te Kai Whaka Ora- Marton Youth Trust
 - 2.4.6 Forest and Bird Society- Rangitikei Branch
 - 2.4.7 Marton and Surrounds ICT Hub Charitable Trust
 - 2.4.8 Marton and District Historical Society
- 2.5 Round two for 2024/25 opened on the 01 February 25 and closes 31 March 25. Decisions will be made at the Community Grants Committee meeting on the 15 April 25.

3. Events Support Scheme

- 3.1 This is a Council fund intended to support events in the district that help to develop community cohesion and reinforce economic growth.
- 3.2 Council has allocated \$25,000 to this fund annually, to be distributed across two separate funding rounds.
- 3.3 Round one for 2024/25 opened 01 July 24 and closed 31 August 24. Decisions were made at the September Finance and Performance meeting totalling \$15,460.
- 3.4 Successful applicants were:
 - 3.4.1 Turakina Caledonian Society

ITEM 9.4

3.4.8 BCDT, Bulls 147th Annual Rose Show and Fest a Bull

3.4.9 St Joseph's School PTA

3.5 Round two for 2024/25 opened on the 01 February 25 and closes 31 March 25. Decisions will be made at the Community Grants Committee meeting on the 15 April 25.

4. Creative Communities Scheme

4.1 This fund is supplied by Creative NZ and administered by Council. Applications are encouraged from community groups and individuals whose projects:

- Demonstrate growth over time
- Develop and support local artistic communities
- Encourage a transfer of artistic skills
- Support diversity and inclusion
- Projects with a youth focus are also encouraged

4.2 Creative NZ typically allocates \$24,090 (+ GST) to the Rangitikei District Council on an annual basis, and this is distributed across two separate funding rounds.

4.3 Round two for 2024/25 opened on the 10 December 24 and will close on the 10 April 25. Decision will be made on the 28 May 25.

5. Sport NZ Rural Travel Fund

5.1 This fund is supplied by Sport NZ and administered by Council. The fund is targeted at young people aged between 5 and 19 years and is open to rural sport club teams and rural school club teams with eligible members who require subsidies to assist with transport expenses to local sporting competitions.

5.2 Sport NZ allocated \$9,500 (+ GST) to the Rangitikei District Council on an annual basis. There is one funding round per year.

5.3 Applications are now open for this fund and close 31 March 25. The decision will be made on the 15 April 25.

6. Further Information

6.1 More details about these funding opportunities can be found on the Council website (link below) and this is also where applications can be submitted:

<https://www.rangitikei.govt.nz/district/community/grants-funding>

Recommendation

That the Funding Schemes Update – March 2025 be received.

ITEM 9.4

10 Discussion Items

10.1 Huntermville Community Response - Civil Defence Plan

Author: Paul Chaffe, Emergency Management Officer

1. Reason for Report

1.1.1 Included is the Huntermville Community Response Civil Defence Plan.

1. Huntermville Community Response Plan [↓](#)

Recommendation

That the committee receive the Revised Huntermville Community Response- Civil Defence Plan report.

Recommendation

That the committee does/does not [delete one] endorse the Huntermville Community Response plan with/without amendment [delete one].

HUNTERVILLE CIVIL DEFENCE

COMMUNITY RESPONSE PLAN

RESILIENT COMMUNITIES TOGETHER - AUGUST 2024

PLEASE
KEEP THIS PLAN
SAFE IN YOUR
HOME

MANAWATU-WHANGANUI
EMERGENCY MANAGEMENT GROUP

GETAWAY KITS

Everyone in the house should have a packed getaway kit in an easily accessible place which includes:

- Torch and radio with spare batteries
- Hearing aids and spare batteries, glasses or mobility aids
- Emergency bottled water and easy-to-carry food rations
- Extra supplies of special dietary items
- First aid kit and essential medicines
- For infants or young children – formula and food, nappies
- Change of clothes (wind/waterproof clothing and strong outdoor shoes)
- Toiletries – towel, soap, toothbrush, sanitary items, toilet paper
- Blanket or sleeping bags
- Face and dust masks
- Pet supplies
- Important documents:
Identification (birth and marriage certificates, driver's licences, passports)
Financial (insurance policies and mortgage)
Precious family photos

If we have to evacuate we will:

- Take our Getaway Kit
- Turn off electricity and water at mains
- Turn off gas only if we suspect a leak or if asked to do so by the authorities
- Take our pets with us
- LOCK OUR PROPERTY

Do Not Use Phones Unless URGENT

Emergency Survival Kit

- Torch with spare batteries or a self-charging torch
- Phone power pack
- Radio with spare batteries
- Wind and waterproof clothing, sun hats, strong outdoor shoes
- First aid kit and essential medicines
- Blankets or sleeping bags
- Pet supplies
- Emergency toilet – bucket, toilet paper and large rubbish bags
- Face and dust masks

Check all batteries every 3 months

Animals

Your animals are your responsibility. You need to include them in your emergency planning and preparation. Check out www.mpi.govt.nz and www.sPCA.nz.

Food and water for a week or more

- Non-perishable food (canned or dried food)
- Food, formula, nappies and drinks for babies and small children
- Water (at least 3 litres per person, per day) for drinking
- Water for washing and cooking
- A primus or gas barbeque to cook on
- A can opener

Consider stocking a two-week supply of food and water for prolonged emergencies such as a pandemic. Check and replace food and water every twelve months.

How to store water

Wash bottles thoroughly in hot water. Fill each bottle with tap water until it overflows. Add five drops of household bleach per litre of water (or one teaspoon for 10 litres).

Store in a cool dark place and replace the water every 12 months.

The Huntermville Civil Defence Community Response Plan was created by the Rangitikei District Council in collaboration with the Huntermville Community Committee

1. INTRODUCTION

This Plan has been prepared to provide a Civil Defence Community Response Plan for the Huntermville Community in the event that the community is required to respond to any civil defence emergency or take action in advance of any civil defence emergency to prevent potentially devastating effects.

When an emergency occurs, this Plan will be activated by the community in response to the event. Other agencies will respond to the event by activating their own plans and coordinating their activities with other agencies to manage the impact on the community.

This Plan has been prepared with the aim of providing an effective, planned civil defence emergency response that links the community and the civil defence organisations in the Rangitikei.

In preparation for surviving a civil defence emergency the community should undertake to be personally prepared as suggested in the **Huntermville Emergency Preparedness Handbook** (visit www.getthru.govt.nz for more detail on survival information).

2. PLAN PURPOSE

In an emergency, agencies such as Civil Defence, Fire and Emergency, Police, Ambulance and others, will activate their response plans. In a severe event where more than one area is impacted, pressure on resources could mean delays in getting into a community.

This plan identifies the potential hazards that may impact on the Huntermville community; it provides a plan for how the community can respond and be self reliant. The plan prepares the community for a worse case scenario, where communities may be self reliant for at least three days if an emergency occurs.

3. COMMUNITY OVERVIEW

Huntermville is located on State Highway 1, halfway between Taupo and Wellington, within the Rangitikei District of the North Island. It straddles the state highway as well as the main trunk railway in the foothills forming the gateway to the Central Plateau.

The township is named after George Hunter, who was a member of the Wellington Provincial Council.

Huntermville is well known for its statue of the huntaway, a specialised herding dog that uses its voice to drive the sheep. The town festival and market held on the first Saturday after Labour Day has a "Shepherds Shemozzle" - a race with man and dog with shepherds travelling from all over New Zealand to compete for the top prize

Huntermville has marae, affiliated with Ngāti Hauiti hapū. Otāhuhu Marae and Te Ruku a Te Kawau meeting house is a meeting place for Ngāti Haukaha. Rātā or Te Hou Hou or Potaka Marae and Hauiti meeting house are

affiliated with Ngāti Ruaanga and Ngāti Tamateraka.

At the time of the 2018 census the Huntermville township had approximately 408 residents with an estimated rural community exceeding 1,000 residents

Vulnerable members of the Huntermville community include (but are not limited too), school children, our elderly residents, medically dependent residents and visitors to the township

The community can easily be cut off from the outside (and has in the past) by flooding, slips and trees over the road and damaged bridges.

HUNTERMVILLE CIVIL DEFENCE COMMUNITY RESPONSE PLAN 5

4. GEOGRAPHICAL MAP

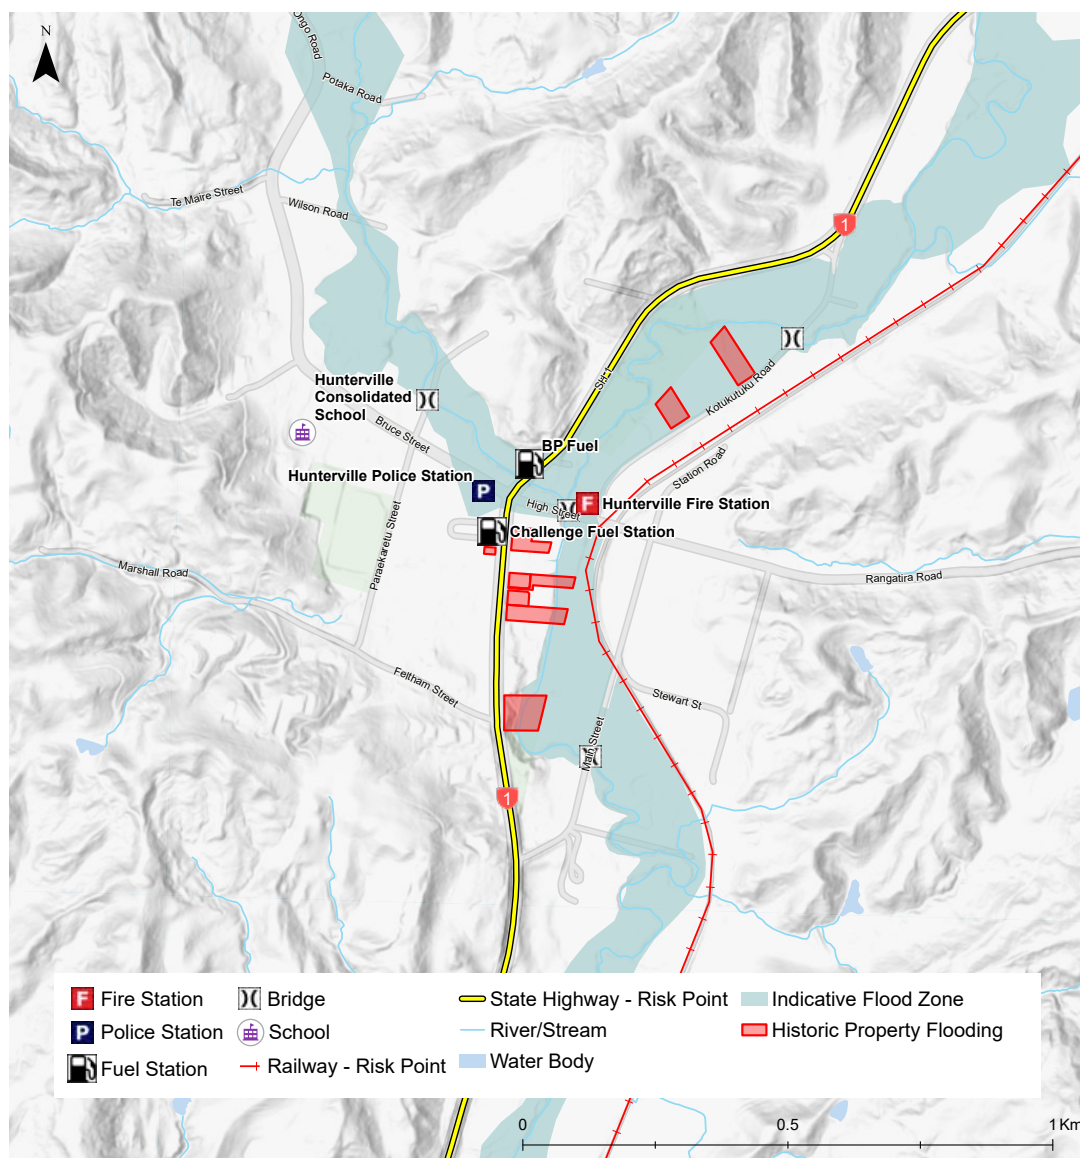

For the purpose of this Plan, the geographic area of coverage for the Huntermville Community will be Huntermville township

5. SIGNIFICANT THREATS TO HUNTERVILLE

Civil Defence hazards which pose a significant threat to the Hunterville Community may include:

- Flooding
- Landslides
- Cyclones
- Earthquake
- Pandemic
- Animal Disease outbreak
- CBRE – SH1/rail – Chemical Biological Radiology Explosive

HUNTERVILLE CIVIL DEFENCE COMMUNITY RESPONSE PLAN 7

6. ALERT AND WARNING SYSTEMS

The Rangitikei District Council is a member of the Horizons Regional Council Civil Defence Emergency Management Group and receives warning of adverse natural events from Central Government, the Meteorological Service, the Institute of Geological and Nuclear Sciences and from other agencies.

Warning systems in place for Huntermville are as follows:

National Warnings:

These will be received by Council and Police/Fire/Ambulance Communication Centre's and disseminated to regional and local emergency responders. National Warnings come from the National Emergency Management Agency (NEMA) and from different agencies who are contracted by NEMA, For example:

- The MetService issues severe weather warnings and watches for storms, cyclones, snow, thunderstorms and wind
- The Institute of Geological and Nuclear Sciences provide earthquake and volcanic bulletins
- The Ministry of Health and District Health boards provide public health warnings
- MAF disseminate alerts and warnings for animal disease outbreaks
- The National Emergency Management Agency provide tsunami warnings and advisories.

Natural Warnings:

For some natural events there are no pre-warnings, for example an earthquake. But an earthquake can be a natural sign that an eruption may follow. This natural warning should be heeded by the public.

Local Warnings:

All television and radio networks will provide public information. The public should listen to the radio, refer to the **Huntermville Emergency Preparedness Handbook** and follow instructions.

7. EMERGENCY RESPONSE GUIDELINES

Incidents of emergencies are categorised into five levels reflecting the intensity of scope of the event that has occurred.

The broad headings of the levels of response are:

1. Local incident, declaration not required, emergency is dealt with by the Emergency Services.
2. Local incident, declaration not required, but some external support is necessary.
3. Imminent state of local emergency is being considered and is of local significance.
4. Imminent state of local emergency that is regionally significant.
5. Imminent state of national emergency.

8. DECLARATIONS

Only the following persons may declare a state of Civil Defence Emergency within the Rangitikei District Council:

1. The Mayor of the Rangitikei District
2. An elected member of the Rangitikei District Council authorised to act on behalf of the Mayor, or if the Mayor is absent
3. The Rangitikei District Council Civil Defence Controller.

When a civil defence emergency is declared, the Civil Defence Emergency Management Act 2002 is invoked which gives Emergency Services and Police additional powers over and above their respective Acts.

The lead agency in the event of any emergency response is the agency that has the legislative or agreed authority for control of the incident or emergency.

Civil Defence – geological hazards such as earthquakes, volcanic hazards, landslides, tsunamis.

Fire and Emergency New Zealand - control and suppression of fires and other specialist functions.

New Zealand Police - maintain law and order, exercise additional powers as required during the state of emergency.

Ministry of Health - control the outbreak of infectious diseases.

IN A CIVIL DEFENCE EMERGENCY THE CIVIL DEFENCE CONTROLLER HAS ABSOLUTE AUTHORITY OVER ALL PERSONNEL

All instructions given by the Emergency Services and the Police must be followed without exception.

9. COMMUNITY RESPONSE GROUP COMMITTEE

During an emergency:

- Rangitikei District Council may activate this community response plan
- Council will ensure that warning information is disseminated to the community as quickly and efficiently as possible
- Council will liaise with the emergency services, if at all possible, to get an overview of what is happening and what is required
- If required Rangitikei District Council may set up a Civil Defence Centre
- Provide assistance to the emergency services to help evacuate the affected community

After an emergency has occurred the main avenue for the collection of information will be from local sources and those people identified in this Plan. The early collection of information is very important as it will assist in determining the scale of the response that is required.

After an emergency:

- Rangitikei District Council will work in support of any recovery efforts in the Huntermville community.
- Hold a de-brief of the response to see if there needs to be any improvements or there are things that worked really well that should be continued
- Arrange to get this plan updated with any improvements or new ideas that have come about as a result of the emergency.

10. AGENCY AND OTHER GROUP RESPONSIBILITIES

The roles and responsibilities of the emergency services are clearly defined by legislation. In the event of this Plan being activated due to an emergency occurring, the roles and responsibilities of the community groups are set out as below. However, it is intended that by agreement, it is acknowledged that these roles are intended to be flexible if required.

Police

- Maintain law and order
- Protect life and property
- Assist the coroner
- Co-ordinate movement control
- Search and rescue

Fire and Emergency New Zealand

- Firefighting responsibilities
- Containment of releases and spillages of hazardous substances
- Urban search and rescue
- Limitation of damage
- Redistribution of water for specific needs

St John Ambulance

- Provision of emergency medical care

Community Incident Controller

- Civil defence welfare

Community organisations

11. PLAN ACTIVATION

This Plan may be activated by the following:

- local Incident Controller
- Chief Fire Officer or his/her delegate
- the Mangaweka Community Response Group Chair in isolation only if contact cannot be made with either the Local Incident Controller or Chief Fire Officer

There may be situations when an event has not occurred but the local community is concerned about the impact of a potential threat and this Plan can be activated. For example an impending eruption or a cyclone may cause the activation of this Plan.

12. EMERGENCY CENTRES

A Civil Defence Centre / Welfare Centre may be established for any event if it is required. The designated Civil Defence Centre for Huntermville is the Huntermville School. The Emergency Centre will be run as outlined in the document Huntermville Community Activated Emergency Centre Guide if practicable.

13. COMMUNICATION

Communication is the critical component of this Community Response Plan. People within the community must be alerted to an impending emergency or be contacted after an emergency or an event has occurred. Communication must also be made outside the community to relay the situation and/or request any assistance if required.

Communication within and between communities:

Communication typically relies on the following communication pathways:

- Telephone
- Cell phone
- E-mail
- Radio Networks
- Pagers
- Radio telephone
- Face to face (neighbours calling on neighbours)
- Campground information to campers (announcement/signage)
- Social Media

During emergencies there are often disruptions to these telecommunications pathways (i.e. with loss of power, cell phone towers and poor satellite coverage) and the following alternatives have been identified if traditional communication pathways have become interrupted to communicate with those outside the community:

- VHF radios or satellite phones. (Held by Council)
- Alternative communication within the community when the normal means of communication has been disrupted, i.e. face to face contact, whistles, alarms, loudspeakers.
- Starlink satellite

Communication of this Plan to the community

This Plan needs to be communicated to the wider community if it is to be effective and representative of the entire community. The following have been identified as means of communicating this plan to the wider community:

- Presentation at community meetings
- Stands at community events
- Notice or articles in community newsletters
- Training exercises
- Plan available at the library
- Abridged Plan delivered to all households and on the Rangitikei District Council website

14. RECOVERY

Recovery is the coordinated efforts and processes of the community and council, to bring about the immediate, medium- and long-term holistic regeneration of a community following an emergency event.

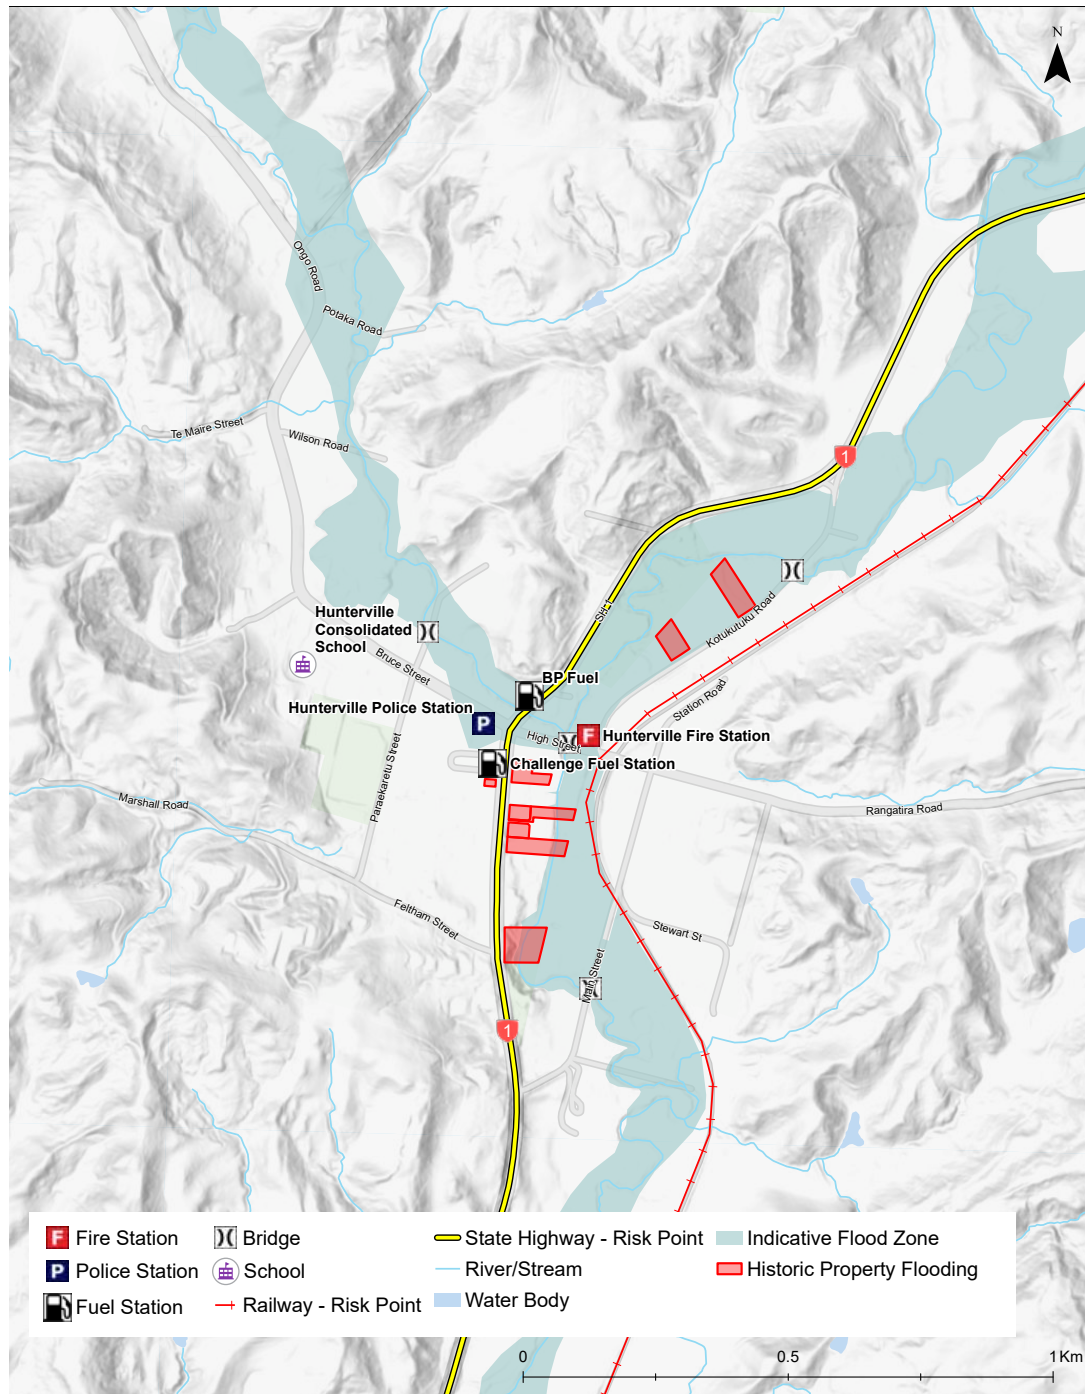

To enable the recovery of community bonds within the Huntermville community, a community gathering point is to be prioritized.

Consideration should also be given to the recovery of:

- Communications networks
- Lifeline utilities
- Roading infrastructure

Depending on the type of event and damage sustained, the recovery process and priorities can change.

APPENDIX 1: HAZARD MAP

14 HUNTERMVILLE CIVIL DEFENCE COMMUNITY RESPONSE PLAN

APPENDIX 2: HAZARDS

Significant threats to Huntermville include but are not limited to:

Threat	Probability	Impact to Mangaweka
Flooding	High	Road access denied Cause landslips affected Community cut-off from outside Community may have to be self-sustainable
Storms	High	Can be life-threatening Cause of panic & fear - in particular to elderly Loss of power affecting water pumps & appliances Telephones not working properly Damage to property or homes Community may have to be self-sustainable
Earthquake	High	Can be life-threatening Damage to property or homes Road access could be denied Community may have to be self-sustainable
Pandemic	High	People may not be able to leave their homes Services may be disrupted Food supply may diminish and supplies hard to source Pressure on local health services Community may have to be self-sustainable
Animal disease	Low	Restriction on movement of people and stock Services may be disrupted Community may have to be self-sustainable Cause of panic & fear
Chemical spillage	Medium	People may not be able to leave their homes Services may be disrupted Food supply may diminish and supplies hard to obtain Community may have to be self-sustainable
Volcanic eruption	Low	Water supplies affected Road access denied Dust in the air Health risks People may not be able to leave their homes Services may be disrupted Food supply may diminish and supplies hard to source Community may have to be self-sustainable Loss of power affecting water pumps & appliances Telephones not working properly

Hazard identification determines which hazards threaten areas of the community and the probability identifies how likely it is that the disaster will occur.

APPENDIX 3: WARNINGS FOR NEW ZEALAND

The following table outlines risks and the monitoring agency responsible for issuing warnings:

Particular Risk or Hazard	Monitoring Agency	Comment
Severe Weather Outlook Watch or Warnings Storms Flooding Wind	Meteorological Service of New Zealand (Met Service). www.metconnect.co.nz	National Weather Services (NWS), A division of the Met Service collects and analyses meteorological data from around New Zealand and the world, from which the many different types of weather forecasts are made. The NWS is responsible for the safeguarding of New Zealand lives and property through the issuing of Severe Weather Watches and Warnings.
Earthquake	Institute of Geological and Nuclear Sciences	Monitored by the Institute of Geological and Nuclear Sciences who are responsible for alert bulletins issued to MCDEM and CDEM Groups.
Volcanic Eruption	Institute of Geological and Nuclear Sciences	Monitored by the Institute of Geological and Nuclear Sciences who are responsible for alert bulletins issued to MCDEM and CDEM Groups.
Public Health Warnings	Ministry of Health and District Health Boards	Develop and disseminate alerts and warnings to CDEM Groups and the general public.
Flood Warnings for major rivers	Rangitikei Regional Council	Develop and disseminate river flood warnings to the public, emergency responders and pre-arranged landowners.
Animal Disease Outbreaks	Ministry of Agriculture and Forestry	Dissemination alerts and warnings to CDEM Groups and public.

APPENDIX 4: ACTIVATION AND EVACUATION PROCESS

Rangitikei District Council is responsible for the activation of this Plan in the lead up to an event that is known to be likely to occur due to advance warning, or as a result of a sudden event. Council may also be asked to activate the Plan as part of a local, regional or national exercise to test its capability.

Initial actions

Where advance warning of an event is received by Council or the responsible agency then the following should be notified:

1. Rangitikei District Council Civil Defence (unless already notified)
2. Local emergency services
 - Chief Fire Officer, Fire and Emergency NZ.
 - Station Manager, St John Ambulance.
 - Officer in Charge, Huntermville Police.

ONCE ADVICE OF AN EVENT IS RECEIVED BY CIVIL DEFENCE:

A Civil Defence Centre may be set up at Huntermville School Hall to among other things;

- Provide shelter, warmth and information to those affected by the emergency

WHERE AN UNEXPECTED SUDDEN EVENT OCCURS:

REMEMBER

The person in charge of the lead agency or the community should activate this plan if required or at all possible – This could be any of the following personnel

- Chief Fire Officer, Fire and Emergency NZ.
- Station Manager, St John Ambulance.
- Officer in Charge, Marton Police.

Civil Defence warnings to the Huntermville community will be by the following methods

- Warnings via radio
- PA systems on emergency services vehicles
- Local procedures – car horns, telephone trees, door to door knocking.

IF YOU RECEIVE A WARNING...

Do this:

- Listen to your local radio station and follow instructions
- Refer to this plan as a guide on what to do
- Activate your pre-determined telephone tree to warn others
- Prepare to activate your household emergency plan

STAY AT HOME UNLESS YOU ARE TOLD TO EVACUATE, AVOID UNNECESSARY TRAVEL

IF YOU ARE ADVISED TO EVACUATE THEN...

Do this:

- Assemble with your emergency survival kit at the Huntermville School Hall.

THE CIVIL DEFENCE CONTROLLER HAS ABSOLUTE AUTHORITY OVER ALL PERSONNEL.

All instructions given by the Emergency Services and the Police must be followed without exception.
