

ORDER PAPER

MARTON COMMUNITY COMMITTEE MEETING

Date: Wednesday, 9 April 2025

Time: 6.00pm

Venue: 18 Humphrey Street
Marton

Chair: Mrs Carolyn Bates

Deputy Chair: Mr David Christison

Membership: Mrs Lyn Duncan
Mr Peter Farrell
Mrs Jennifer Greener
Mrs Belinda Harvey-Larsen
Ms Sally Moore
Mr John Whittaker
Cr Dave Wilson
Cr Greg Maughan (Alternate)
HWTM Andy Watson

Purpose of the Committee

- To provide a local link and point of contact for Council liaison with the community.
- To provide for the exchange of information, communication, and to assist with the Council's consultative processes.
- To exercise delegated authority for the annual allocation of \$1.00 per rateable property for "defined small local works" in line with the guidelines provided¹.
- Particularly, to help ensure that any minor remedial or renewal works are brought to Council's attention through the Request for Service procedure, by promoting its use and advising community members on how to use it.
- To be the first point of contact (prior to Council) for community groups. Where this is not possible, the Committee will be informed of the approach by the community group to the Council.
- To engage with wider/small communities of the ward represented.

Quorum

The quorum for the Marton Community Committee is 5.

Council's Standing Orders (adopted 31 October 2019) 11.2 provide: The quorum for Council committees and sub-committees is as for Council, i.e. half the number of members if the number of members (including vacancies) is even or a majority if the number of members is odd.

At least 1 Elected Member must be present at the meeting.

For any enquiries regarding this agenda, please contact:

Kezia Spence, Governance Advisor, 0800 422 522 (ext. 917), or via email

kezia.spence@rangitikei.govt.nz

¹ Appended to the Delegations Register

Notice is hereby given that a Marton Community Committee Meeting of the Rangitikei District Council will be held in the 18 Humphrey Street, Marton on Wednesday, 9 April 2025 at 6.00pm.

1 Welcome

Ms Bates opened the meeting and welcomed those in attendance at the meeting.

2 Apologies

That the apologies be received from His Worship the Mayor Andy Watson, Cr Maughan and Peter Farrell.

3 Public Forum

There was no public forum.

4 Conflict of Interest Declarations

There were no conflict of interests declared.

5 Confirmation of Order of Business

Moved to item 10.2 Age Concern Whanganui for Ms Malcolm after item 7 Follow-up Actions.

6 Confirmation of Minutes

Resolved minute number 25/MCC/001

That the minutes of Marton Community Committee Meeting held on 11 December 2024 **without amendment** be taken as read and verified as an accurate and correct record of the meeting, and that the electronic signature of the Chair of this Committee be added to the official minutes document as a formal record.

Mr D Christison/Mr J Whittaker. Carried

7 Follow-up Actions

7.1 Follow-up Action Items from Marton Community Committee Meetings

Item 1- Tutaenui Hall

Ms Bovey responded to questions that this is on the Tutaenui Hall committees list to do and is subject to funding. Therefore, this is no longer an item for council officers to follow up on. Ms Bovey noted she can check in later in the year to confirm this work is happening. The committee noted this item is now completed.

Resolved minute number 25/MCC/002

That the report 'Follow-up Action Items from Marton Community Committee Meetings' be received.

Mrs C Bates/Mr D Christison. Carried

8 Chair's Report

8.1 Chair's Report - February 2025

Mrs Bates noted that she has requested through IT staff at council for cyber security. There has been no progress at this stage. Cr Wilson suggested Michael Dittmer to provide a programme.

Ms Bates updated the committee on the Brain Injury liaison officer has changed to Donna Hyland and she has a children's background and is hoping to provide some sessions in childhood centres.

Resolved minute number 25/MCC/003

That the Chair's Report – February 2025 be received.

Mr J Whittaker/Ms S Moore. Carried

9 Reports for Information

9.1 Mayor's Report - 12 December 2024

Mrs Bates was impressed with the results of the Mayor's Taskforce for Jobs.

Resolved minute number 25/MCC/004

That the Mayor's Report – 12 December 2024 be accepted.

Mrs J Greener/Mrs L Duncan. Carried

9.2 Consultation Tracker - December

The report was taken as read.

Resolved minute number 25/MCC/005

That the report 'Consultation Tracker - December' be received.

Ms S Moore/Mrs J Greener. Carried

9.3 Funding Schemes Update - February 2025

The report was taken as read.

Resolved minute number 25/MCC/006

That the Funding Schemes Update – February 2025 be received.

Ms S Moore/Mrs J Greener. Carried

9.4 Small Projects Fund Update - February 2025

This item was skipped at 9.3 to wait for Toaiva Lauano - Tuani

Returned to at the end of the meeting however, Ms Lauano- Tuani was not in attendance and the amount was unknown for the request. Therefore, the committee was unable to make a decision on this item.

Resolved minute number 25/MCC/007

That the report 'Small Projects Fund Update – February 2025' be received.

Mrs L Duncan/Cr D Wilson. Carried

10 Discussion Items

10.1 Rangitikei District Council Consultation: Gambling Venue (Class 4) Policy and TAB Venue Policy

Cr Wilson updated the committee that there are no major changes from the past three years on this policy.

The committee noted the importance of the pub charity grants for community initiatives; however, gambling is a problem.

10.2 Age Concern Whanganui

Michelle Malcolm from Age Concern in Whanganui- the committee moved to this item after item 7 Follow-up Actions.

Ms Malcom spoke of the services Age Concern provide to the community, especially in the Rangitikei, there are approximately 390 volunteers who support this service in Whanganui and wider area. Ms Malcom spoke of the services that change depending on demand, such as services through the covid pandemic.

Ms Malcom spoke of funding for the services and noting this is limited, especially in the Rangitikei District due to the contracts.

Ms Malcom provided the newsletter and advocated that there is more information on their website.

10.3 Marton Community Committee Workshops

The committee will hold a workshop on the 26 March on the purpose of this committee and then discussion on the promotion of the committee after this.

10.4 Further business raised by the committee

Corner Buildings

There are not updates for the committee on this item.

Toilets Lower High Street

These were used by the public opened for the shearing. There was discussion by the committee on this item.

It was noted the issues with the signage for the toilets for those arriving at the bus stop in this area.

Fluoride in the Water

Cr Wilson responded to questions that there are no conversations at council about adding fluoride in the water.

Cooks Wall

Cr Wilson responded to questions that a contractor is doing the work for this, and council will pay for the wall.

Infrastructure Reports

The projects update report is a standing item to council which can read this.

Mrs Bates raised that when looking at Te Rōpū Ahi Kā order paper that there is information in their order paper but not in the Marton Community Committee. Cr Wilson responded this is included in the council order paper.

Mrs Bates requested that any updates on the Marton Water Strategy be included in the Marton Community Committee order paper. It was noted the benefit of a link to the projects update in the council reported to understand all this information.

Resolved minute number 25/MCC/008

The Marton Community Committee request council answer the reasons for the closure for the lower high street toilets and the costs associated with having these open.

Mr J Whittaker/Mrs C Bates. Carried

The meeting closed at 8.00pm.

The minutes of this meeting were confirmed at the Marton Community Committee held on 9 April 2025.

7 Follow-up Action Items from Previous Meetings

7.1 Follow-up Action Items from Marton Community Committee Meetings

Author: Kezia Spence, Governance Advisor

1. Reason for Report

- 1.1 On the list attached are items raised at previous Marton Community Committee meetings. Items indicate who is responsible for follow up, and a brief status comment.

2. Decision Making Process

- 2.1 Staff have assessed the requirements of the Local Government Act 2002 in relation to this item and have concluded that, as this report is for information only, the decision-making provisions do not apply.

1. Follow-up Actions Register [↓](#)

Recommendation

That the report 'Follow-up Action Items from Marton Community Committee Meetings' be received.

Current Follow-up Actions

Item	From Meeting Date	Details	Person Assigned	Status Comments	Status
1	12-Feb-25	The Marton Community Committee request Council answer the reasons for the closure for the lower high street toilets and the costs associated with having these open	Mel B	Ms Bovey provided an answer via email to the Marton CC on the 21 Feb 25 that Property Team have advised that we no longer own the toilets/land in Lower High Street.	Completed.
2	12-Feb-25	Marton Water Strategy be included in the Marton Community Committee order paper.	Kezia	This is included in the order paper as part of the project supdate - this will be a standing item	Completed.
3	14-Feb-24	Update on Calico Line footpath installation	Arno	There is nothing to update on this project.	In progress

8 Chair's Report

8.1 Chair's Report - April 2025

Author: Carolyn Bates, Chair

1. Reason for Report

- 1.1 A verbal report will be provided during the meeting.

Recommendation

That the Chair's Report – April 2025 be received.

ITEM 8.1

9 Reports for Decision

9.1 Road Naming - Hendersons Line Subdivision

Author: Tiffany Gower, Strategy Manager

Authoriser: Katrina Gray, Group Manager - Strategy, Community and Democracy

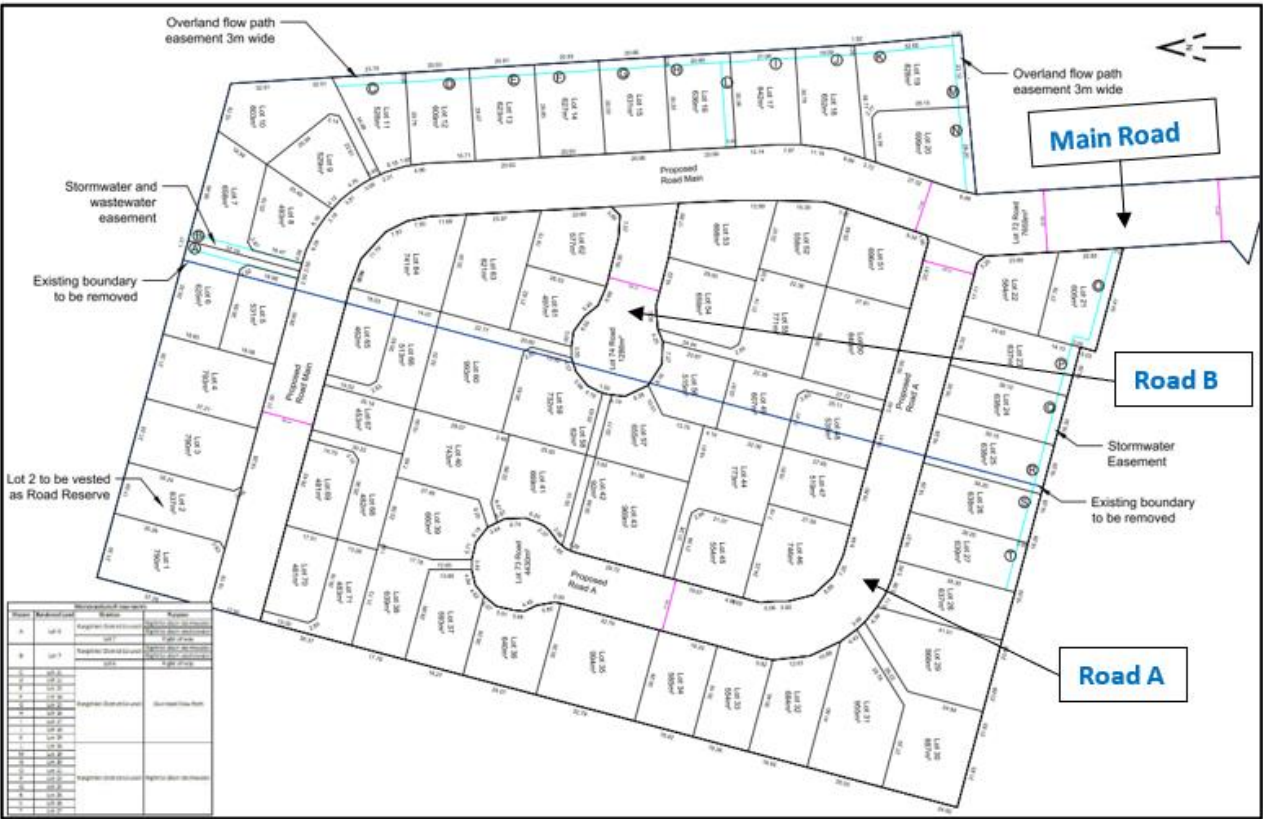

1. Reason for Report

1.1 For the Marton Community Committee to provide a recommendation to Council on the naming of three (3) new roads for a subdivision located along Hendersons Line, Marton.

2. Context

2.1 In 20 April 2022 Council granted subdivision consent for a 69 lot residential subdivision situated along Hendersons Line, Marton (resource consent number RM210083). The consent holders are now at a point where they would like to name the three (3) new roads that provide access for this development.

2.2 The below image shows the approved scheme plan for this subdivision with the 3 roads that require naming being the 'main road', 'road A', and 'road B'. The consent holder has proposed names for the Committee to consider and provide a recommendation to Council.

3. Discussion and Options Considered

3.1 Council has the following criteria to guide the naming of streets and roads.

ITEM 9.1

In naming streets or roads, the following criteria apply:

- *The name be consistent with the naming pattern of other street or road names in the locality.*
- *That the name avoid duplication or similarity with other street or road names in the District.*
- *That there is no obvious consistency in street naming patterns, consideration shall be given to the history or unique characteristics of the road or street locality.*
- *That the terms place, crescent, court, street, lane or road shall reflect the physical characteristics of the road or street.*
- *Developers of roads may be asked to submit names for roads or streets. The Council may consider any submission when selecting names for streets or roads.*

Explanatory note: The patterns for naming of streets and roads in the District have been varied, however, some consistency in the towns can be noted such as the name of streets in Taihape after birds; the “airforce block” in Bulls taking aircraft names; in Marton, the naming of streets after Mayors and in the Marton Junction, after notable Māori.

Street names have also been given after prominent citizens and land developers, and as a result of local choice or the choice of street residents

3.2 The consent holder/developers have put forward the following names for the roads:

- The ‘main road’ is proposed to be Barton Street. This road connects Hendersons Line to the already existing part of Barton Street (located at the end of Fergusson Street), therefore, it is appropriate that this new road takes the same name as it will become an extension of Barton Street. This will help with wayfinding in the future and avoid confusion if the road took a different name.
- ‘Road A’ is proposed to be Harveston Street. Harveston is the name that the developers have given this development. This comes from Hendersons Line being a road that takes people to the “wheat belt” of the District.
- ‘Road B’ is proposed to be Heggulun Street. Heggulun is an old family associated with Marton. The Heggulun family owned the land that the development is located on for some generations. The family got in contact with the developers when they learnt about the development and visited the site recently. The developers asked permission to use their name, and they were happy for them to.

3.3 Of note, the existing Barton Street has a segregation strip (a small strip of land between the end of the existing road and where it will connect to the new road). The developers are working through the legal process to address the segregation strip so that the new road can legally connect to the existing road.

Options

- 3.4 Option 1: That the Committee supports the names proposed by the developer and recommends them to the Council as the names for the 3 new roads identified.
- 3.5 Option 2: That the Committee is not supportive of one (1) or more of the proposed names and would like officers to go back to the developers and discuss alternative

names. If this is the option chosen by the Committee, please provide reasons for why the names are not considered to be appropriate and/or suggest alternatives.

3.6 Officers preference is option 1.

4. Financial Implications

4.1 There are no financial implications from this report.

5. Impact on Strategic Risks

5.1 There are no direct impacts on Council's strategic risks associated with this report.

6. Strategic Alignment

6.1 Road naming contributes to social and cultural wellbeing as roads have an important role in connecting our communities and their names can enhance belonging, connection to place, and recognition of the unique identity of a place. The explanations for the proposed road names provided by the developers indicate that they have tried to incorporate local context and the history of the area.

7. Mana Whenua Implications

7.1 There are no direct mana whenua implications associated with this report. Note: Officers encouraged the developers to consider Te Reo Māori options for the road names in conjunction with mana whenua. However, there is nothing in Council's road naming guidelines that requires this.

8. Climate Change Impacts and Consideration

8.1 There are no relevant climate change considerations.

9. Statutory Implications

9.1 Council has the statutory responsibility to issue a property number and road names within its district (section 319(1)(j) and section 319B(1) of the Local Government Act 1974).

10. Decision Making Process

10.1 Council has delegation for the naming of roads in Marton (and throughout the district). The Committee is asked to make a recommendation to Council on the naming of these roads.

Recommendation 1

That the report 'Road naming – Hendersons Line, Marton subdivision' be received.

Recommendation 2

That the Marton Community Committee recommends to Council the three new roads associated with resource consent RM210083, residential subdivision along Hendersons Line, be named as follows: 'main road' shall be Barton Street, 'Road A' shall be Harveston Street, and 'Road B' shall be Heggulun Street.

10 Reports for Information

10.1 Mayor's Report - February 2025

Author: Andy Watson, His Worship the Mayor

1. Reason for Report

Good Morning,

Our present Chief Executive Kevin Ross's resignation takes effect from 28 February. I take this opportunity to thank Kevin for the skill, knowledge and compassionate style he has brought to the position. Kevin, staff, councillors and myself have appreciated working with and for you. There have been a number of complex carry-over situations that you have had to deal with, most of which are now resolved. Kevin, enjoy your retirement again and I know that there are some issues that staff will call on you for assistance with from time to time.

The new year was touched with sadness for our district when Dame Tariana Turia passed away after a short illness at her beloved Whangaehu Marae, a marae that Tariana and her husband George helped rebuild. Our district and New Zealand lost a remarkable statesperson/politician who had the courage to follow her beliefs even if it meant crossing the floor in Wellington resulting in her setting up the Maori Party. This tangihanga was probably the largest gathering of remembrance that we will ever see in the Rangitikei with thousands of people attending each day across many political divides. My thanks also go to Ratana and their kitchens for the ability to provide food for this scale. Tragically it was only weeks later that we were back on the marae to receive Pakaitore Turia, Pahia's son and Dame Tariana's mokopuna – our thoughts are with the Turia whanau.

In between these two tragic events there was the annual gathering at Ratana to recognise the birthday of Tahupōtiki Wiremu (TW) Ratana founder of the Ratana Faith. This event always heralds the start of the political year with all political parties including the Prime Minister visiting. This year also saw the first official visit of the new Maori Kuini, Ngā Wai Hono i te Pō, to Ratana. With the Maori Queen's visit the stressed relationship between Iwi, Government and the large number of attendees was always going to be a challenge. As expected the Prime Minister immediately said that the Government did not support the Act Party's Treaty Principles Bill and quickly acknowledged support for the existing Treaty settlement process. He also acknowledged the \$10m that Government has granted to the building upgrades. Maoridom, in particular Ratana, Tainui and the Maori Queen speakers stated that the relationship between themselves and Government needs to improve and that the build is only part of that process.

On a more positive note the Rangitikei continues to be the event centre of the wider region. The Marton Country Music Festival this year saw over 700 motor homes over the 4 days, an increase of nearly 200 on the previous best to my knowledge. The music festival is high on a national perspective but augmented this year by the first public appearance of the Topp Twins in, I think, three years.

As always the Gumboot Day in Taihape, the district shearing sports, Turakina Highland Games, Kiwiburn and the Bulls Fest-a-Bull all attracted strong support. I would like in particular to congratulate Councillor Piki Te Ora Hiroa and Mokai Patea Services for hosting the Waitangi Big Day Out event on 6 February in Taihape. This day highlighted the support services available in Taihape and gave the chance for an interactive Q&A session with the Mayor and Councillors to the

community. I also appreciated that Deputy Mayor Dave Wilson and Councillor Simon Loudon travelled up to support our Northern Ward Councillors Gill Duncan, Piki Te Ora Hiroa and Jeff Wong at this event.

At the start of this council meeting Nyssa Nepe the young rangatahi I mentor through the TUIA programme gave a reflection of her experience during 2024 and I have attached her report. I am also introducing to council this year's TUIA rangatahi, Faenza Hiroti.

Transport and the deterioration of our roading network continues to keep me awake at night and there are several things I need to comment on here -

- With the closure of the forestry mills at Tangiwai nearly 1000 tonnes of logs a day were being carted over the Gentle Annie Road to the Port of Napier. We successfully brought all interested parties together - being NZTA, KiwiRail, road haulage contractors, forestry owners, the Ports of Napier and the respective Councils – to send a clear and simple message, that these logs needed to go via rail as the road could not sustain the damage over a period of time associated with this cartage. I want to thank all of the parties for reaching a resolution especially KiwiRail who significantly lowered their pricing with other parties also contributing. The deal is only for one year and hopefully in that time the mills are sold, people re-employed and the logs further processed in New Zealand.
- The benefit of this discussion has also been an increased willingness from NZTA to enter into discussions around further support for the maintenance of the Gentle Annie Road.
- Forestry will continue to use the road in spite of the success of the log train and we need to continue with this fight.

This Council meeting will see a decision paper on MTFJ (Mayors Taskforce for Jobs). This programme is one of the huge successes for our district. Our team headed by James Towers and Louise McCoard is the most successful in the country for finding employment for people. There are 37 councils that have the MTFJ programme, the top two councils lead by us account for 25% of the national job placements. The contract MTFJ has with MSD (Ministry of Social Development) is \$18m over 2 years, something that we need to lobby Government for its continuation.

As a Council we need to continue engaging with Government, especially where our assets are most at risk. The classic example of this is in roading. Everyone within the Local Government and NZTA sectors now accept that under current policies and funding from Government our roads will continue to deteriorate or fall into disrepair. I am one of a small group of Mayors that sit on a Transport Forum engaging directly with NZTA. Recently there has been a change of senior Government ministers with Minister Chris Bishop taking over Transport and the Hon. Winston Peters taking over Rail. Both appointments are helpful for us I believe. Through the Transport Forum group we can talk with them and the Board of NZTA around our roading concerns. We believe that it is essential that at least both leading political parties, Labour and National, can come to a cross-party supported position on transport priorities spanning many years rather than the repeated changes with the three year electoral cycle. Progress is, I think, being made here and if we can help as a forum facilitate this then the gains are enormous.

Late last year Zone 3 (all councils from Gisborne to Taranaki, New Plymouth to Horowhenua and all those in between) met in Napier. My previous reports provided the agendas and discussion summaries of that meeting. The next Zone meeting, which I co-Chair with the Wairoa Mayor, will be held in the South Taranaki in April and I attach the agenda as it stands now, subject to change. I encourage councillors to attend a Zone meeting at some time to understand the pressure we are all under and to hear the Government's positions explained. Similarly the Rural & Provincial councils across New Zealand will meet on the 27th and 28th of this month in Wellington. As our council

meeting is the day before, my report on this meeting will be in next month's Mayor's Report but I enclose the agenda for those interested.

Local Water Done Well (aka Three Waters)

LWDW continues to dominate council and staff time. We as council have decided that our preferred option is to form a Regional CCO (Council Controlled Organisation) with Ruapehu and Whanganui. The work ahead this year to look at this is huge and I refer to some of the actions required below –

- The three full councils will have a series of meetings, the next one to be held on 20 February to discuss the way forward.
- Staff and council will need to understand the setup and operation costs of the new CCO compared to how we currently deliver water, waste-water and stormwater (three waters services).
- We will then consult with our community on those costs and the benefits/disadvantages of working together.
- That consultation, which is happening soon, is similar to our Long Term Plan consultation processes and will involve meetings in our leading communities.
- If any community, or Iwi/hapu wish to have a visit as part of this consultation I will make it happen but it would be useful to advise council and/or myself at the earliest possible time.
- Any CCO set up across New Zealand will be owned by the councils by way of shareholding. That shareholding will need to be worked out and explained to communities.
- Any CCO will also have a governance board that appoints the operational arm and sets the strategy. This still needs to be set up.
- Our council will still be responsible for delivering the three waters until at least 2027/28 at which time the CCO, if put in place, comes into effect.
- Government still has the power to over-ride local consultation and council decisions to force CCOs into place.

There is clearly so much to do over the next couple of years.

I want to finish this report with a very good news story. On 11 December myself and a small group of staff and councillors travelled to the Springvale Bridge on the Gentle Annie Road to formally open a new dry vault toilet. Springvale is such a beautiful spot in our district, nearly halfway between Hastings/Napier and Taihape. Years ago the Plimmer and Williams families, who own stations in the area, put in and serviced at their own expense a long drop toilet to meet the needs of the travelling public. Their generous support over many years, and their ongoing commitment, along with support from the Rangitikei District Council, MBIE Tourism Infrastructure Fund, and the Upper Rangitikei River Catchment Group, provided an opportunity to enhance the visitor experience, as well as provide an amenity that protects the environment and ensures long-term sustainability of the location. I also wish to acknowledge local artist, Timoti Pekamu, whose artwork features on the facility.

ITEM 10.1

Mayor's Engagements

January 2025

3 - 7	Attended Dame Tariana Turia's tangi at Whangaehu Marae
6	Attended meeting with Elected Members re CE appointment

Recommendation

That the Mayor's Report – 26 February 2025 be accepted.

10.2 Mayor's Report - 27 March 2025**Author: Andy Watson, His Worship the Mayor****Local Water Done Well**

Government has replaced the Three Waters legislation with Local Water Done Well (LWDW). This is National's version which is very similar to Labour's.

I am concerned that Council will end up voting on our position to form a regional CCO (Council Controlled Organisation) with very little knowledge of it by the community. The turnout at recent public meetings and interest in our consultation has been just about non-existent. This is the most important decision that our Council has faced over the last 40 years. So, a quick summary –

A. What is Local Water Done Well?

- The provision of waste-water (sewerage)
- The provision of drinking water (potable water)
- Dealing with stormwater (water run-off)

Council currently provides all of these services and that may change.

B. Why is this an issue now?

- All Councils have not spent enough money (under-investment) to maintain these services over the last 50+ years.
- The pipes that service these waters are at the end of their life.
- Our Council has invested over the last few year, but significantly more money is required (\$100m+).

C. What is the option for a Regional CCO?

- We pass on all of our water assets (sewerage, drinking etc) to an independent business.
- We retain ownership of them by way of shares in the business but they operate them.
- We also pass over the debt (loans) that we have for these plants.

D. What is different in National's version to Labour's 3W position?

- Very little difference
- New legislation which allows the new business (entity) to borrow large amounts of money over a very long term (many years)
- National has left the decision options to the community or Council.

ITEM 10.2

- But if Government doesn't agree with our decision they will decide for us!

E. What are our Council options?

- Continue as we currently do with Council providing the service (business as usual with no regional CCO).
- Form a regional CCO with Ruapehu District Council, Whanganui District Council and ourselves. **This is our preferred option.**

F. Why?

- A long term regional CCO will reduce the cost to ratepayers. It has been calculated that in 10 years time it will reduce the average cost for a household by over \$1000 per year compared to the cost of Council continuing to provide the service.
- The new entity will be more efficient and the operational costs are shared by more people (a scale).
- The significant costs of loans will be lower and spread over many more years.

G. What are the risks?

- There will be a loss of Council/community voice. The CCO entity will make business decisions for us. They will decide where money in the three districts is spent.
- The entity will decide on the costs that ratepayers face (they will set their own costs).
- It is possible that some parts of our district will face higher charges than other parts.
- It is likely that water meters will be required so that you pay for what you use.
- Will there will be a setup cost for the new entity – yes, and initially there will not be, in my opinion, direct savings because of this.

H. What is the process?

- We have already had many meetings between the three Councils to look at the plan and options.
- Costs have been worked out by using Long Term Plan costs that each Council currently has.
- Community consultation is now happening.
- The Council decision following consultation will be sent to Wellington.
- Government then makes a decision to accept our position or change it.
- The CCO becomes operational in 2028/2029.

Notes

If we have the CCO you will still get –

- a rates bill from Council for all other Council services which will include a charge for water that Council uses for parks etc.
- a rates bill from the entity for waste-water, drinking water and stormwater
- an Horizons bill as usual.

Please ask if you want further information or clarification – I cannot stress enough the importance of these decisions.

Kainga Ora Housing

Recently Graeme Broderick, Regional Director of Kainga Ora, met with me to announce a series of changes regarding housing. Government has re-set the direction for housing which includes –

- A refresh of the Kainga Ora Board and Chief Executive
- A pause in the construction programme
- A change in attitude where they will be prepared to evict tenants for poor behaviour after a process, i.e. a fair but firm process.
- A renewal programme for housing, the target of 3000 homes per year as a build/replace/demolition process.
- A large reduction in staff as directed by the Minister of Finance.
- Bad debts will be dealt with by way of payment plans which, if adhered to, may involve some write-offs.

For the Rangitikei, we note –

1. We currently have 48 people in need on the housing register, down from 69 in March 2022.
2. We have had new units built in Wellington Road and Pukepapa Road in Marton.

All of Government and Rural & Provincial Sector Meeting

I have included the presentation notes from the LGNZ Sector Meetings in Wellington on 27-28 March as an appendix to my report and I will provide comment if possible as a tabled item for this meeting giving my interpretation of the changes that are coming our way and how they will affect our district.

As everyone knows Council needs to replace our main office building in Marton under the earthquake prone legislation. As part of that process we need to have a modern Civil Defence building (technically referred to as an IL Level 4 building) separate to Council's main facility. It is our

ITEM 10.2

intention to build a building that can be used by the community as well but is absolutely ready to act as a Civil Defence centre for Marton. Some time ago I was at a meeting in Wellington where I questioned the Hon. Mark Mitchell – Minister for Emergency Management and Recovery - around whether Government should support the need for these buildings. He expressed interest at that time in possible Governmental support. As part of the process in deciding what type of building would best fit, myself and some councillors and staff visited the new buildings that have been built in Gisborne (as a standalone Civil Defence building) and National Park by Ruapehu District Council. The Ruapehu building was seen to be a preferred option and could be used as a community function as well. Given Minister Mitchell's public interest in this space I have written to him requesting a discussion and assistance and in the appendix I enclose the letter of request and the Minister's reply. Unfortunately the Minister's reply does not indicate support at this time.

With the election of Councillor Paul Sharland for the Southern Ward it requires another slight change where I have appointed him as an alternate for the Bulls Community Committee position and I enclose the recommendation as such.

Marton Pool

I continue to chase the future of Marton Pool and the work that will be required. Absolutely my aim is, if at all possible, to have the pool operating for next summer. The timeframe for that process is tight. Council cannot look at just repairing the damage to the roof in isolation. As a consequence to that Council now has a report on the total facility including the building strength and what is required structurally. The report also includes compliance with modern electrical and safety standards and potential options around heating replacements etc. The report is exhaustive. We are now waiting on information around each different aspect of that with the initial focus on the cost of repair to the roof and structures. I am hoping to be able to announce to the community what those options are and how they will be funded. I am also hopeful that we may be able to receive significant outside funding other than just relying on ratepayer source.

Marton Rail Hub

Recently there has been an article in Stuff News regarding the funding of the Marton Rail Hub by Kanoa which is the Government's Regional Economic Development and Investment arm. Originally we were awarded under Minister Jones' PGF Fund \$9.1m as support to the Rail Hub. We applied to have 217ha of land just outside Marton bordering State Highway 1 and Makirikiri Road to be zoned industrial. Council received approval for 40ha of industrial land. The next stage was that we were taken through an Environment Court process that lasted around 5 years. That process resulted in 65ha of land being approved as an industrial zone. It is now up to commercial interests as to whether that land is purchased and a rail hub established. The delay in the Environment Court process and the purchase of the land has meant the balance of the \$9.1m awarded under PGF that has not been spent has been withdrawn by Kanoa. There is still significant interest by commercial partners and industry who want to establish new business to the Rangitikei and operate a new railhead. Kanoa still sees this as a significant potential development for our region. However, funding will need to be through a different process. The interest is high and I am hopeful that the development proceeds in a reasonably short space of time. What we have is 65ha of industrial land bordered by State Highways 1 and 3 and adjacent to the principal rail junction in the lower North Island. This opportunity will be taken up by some businesses at some time and is a significant step forward for this district.

Horizons Ballance 2025 Farm Environment Awards & Ford Ranger New Zealand Rural Games

Recently I have attended the Ford Ranger New Zealand Rural Games held in the Square in Palmerston North on 8 March and the celebration at the New Zealand Rural Sports Awards on the night preceding the games. The Rural Games headed by Steve Hollander have built from strength to strength over the past few years and this year the games celebrated their 10th anniversary. We had a number of competitors from the Rangitikei in sports such as fencing and the gumboot throwing competition which is iconic to Taihape. Similarly, I attended the Horizons Ballance 2025 Farm Environment Awards on 13 March where the Regional Supreme Award was won by the Cousins family from Hiamoe Farm, operating just outside of our district in Whanganui. This year's event celebrated 20 years since the awards began in the Horizons region.

Rural Transport Committee

I represent the Rangitikei on the Regional Transport Committee at Horizons. There are a few points that the community may wish to be aware of –

- NZTA has taken over the speed camera function from the New Zealand Police. There will be 51 new cameras and enforcement will be a partnership between the Police and NZTA and these cameras will be in vehicles and/or trailers.
- There will also be the use of average speed cameras – this is where a camera uses photo recognition of number plates to record average speeds across the district.
- Unfortunately within our district we have had a number of fatalities in recent times. Speed is often a factor.
- NZTA has asked for a transition to a risk based approach of temporary traffic management. This refers to very high costs of up to 35% of work being done on roads attributed to the traffic management rather than the construction. This is something that we need to put onus on our contractors when they are doing road repairs. Consideration should be given to whether it is cheaper and more effective and faster to close roads rather than have traffic management or absolutely to consider the risk to the people and the need for significant traffic management processes.
- A very good example of road closures was nationally on the Desert Road between Waiouru and Turangi that had to be closed for a new bridge replacement. Extensive work on other roading aspects was also carried out during that closure. The closure enabled effective work to be done at far faster rates than would have happened if the road had have been operating. The road is now open and recently I have driven over it and huge areas have been resealed etc.

Infrastructure Symposium

I recently attended a one day summit meeting in Auckland on infrastructure. It was expensive as a one day programme with both travel and attendance charges however it was incredibly worthwhile. The presentations regarding climate change, sea level rises, potential closures of roads nationally in the future because of those things were very significant. We as a country need to absolutely look at these effects with a 10-20-30 year lens. The presentations by Minister Bishop and the Hon. Chris Faafoi ahead of the insurance commission were also really interesting. I will look to provide a tabled report at Council with regards to the symposium.

Recommendation

That the Mayor's Report – 27 March 2025 be received.

FROM THE
OFFICE OF THE MAYOR

12 February 2025

3-EP-3-8

Hon Mark Mitchell MP
Emergency Management and Recovery

mark.mitchell@parliament.govt.nz

Good Morning Minister

Last year at a Local Government Meeting you spoke regarding your role in Civil Defence. During question time I suggested that assistance with Civil Defence specialised IL4 buildings for Councils permanently set up ahead of major events would be a fantastic initiative and partnership between Central Government and Councils. At that time you indicated a general support for this concept which myself and other Councils saw as a positive step.

The Rangitikei District Council is in the process of building a new council centre which will most likely be scaled down in size to meet with cost and Government expectations. However, we have decided that we have a definite need for a separate building on the same site dedicated to Civil Defence. I have been Mayor of the Rangitikei District Council for 4 terms and Deputy Mayor for 2 terms prior to that, a total of 21 years in Local Government. During this time the Rangitikei has declared Civil Defence emergencies, largely for flooding, on numerous occasions. When these events occur both State Highway 1 and 3 are closed and it is difficult to get resources and equipment in and the need for a dedicated IL4 centre in Marton is high.

I have taken the time to travel to view both the National Park Civil Defence centre that I believe you opened and the purpose-built Civil Defence building in Gisborne. I believe the building at National Park would absolutely meet our District's needs.

I would welcome a conversation with you in Wellington around how we could potentially work together and note that I am in Wellington at a series of Local Government meetings on 27-28 February, but am happy to travel to see you at any time you may be available.

Yours sincerely

Mayor Andy Watson - Rangitikei

ALL-OF-LOCAL-GOVERNMENT MEETING

THANK YOU

Thanks for being part of LGNZ's All-of-local-government meeting and individual sector meetings: you'll find slides, notes and more below.

Our next All-of-local-government meeting is on 1 May, followed by sector meetings on 2 May. Confirmed speakers already include Minister Chris Bishop and former Minister Steven Joyce – we'll be releasing the full draft programme and inviting registrations later in March.

SPEAKER SLIDES

All-of-local-government

- Mike Wakefield, Partner, Simpson Grierson – [Overview of the Government's reform programme](#)
- Laura Cannon, Acting Assistant Auditor General and Andre McConnell, Deputy Auditor-General, Office of the Auditor General – [Improving how councils demonstrate value](#)
- Philippa Fourie, Manager Local Government & External Affairs, Fonterra and Mayor Grant Smith, Palmerston North City Council – [The power of partnerships](#)
- Clinton Jury, Chief Executive Officer, Local Government South Australia – [Lessons from across the ditch](#)
- Sarah Baddeley, Martin Jenkins, MC and Harriet Shelton, Director Advocacy & Strategic Partnerships, LGNZ – [Practical ways to demonstrate value](#)

Rural & Provincial

- Allan Prangnell, CEO, Taumata Arowai – [New wastewater standards](#)
 - Michael Lovett, Deputy Secretary for Policy and Te Tiriti, DIA – [Local Water Done Well](#)
 - Dr Grant Davidson, Chief Executive, Hauora Taiwhenua Rural Health Network, Bill Eschenbach, CEO, Waitaha Primary Health and Mark Eager, CEO, Mobile Health – [Rural health](#)
 - Scott Necklen, Deputy Chief Executive, LGNZ, Andrew McKillop, Programme Director, Road Efficiency Group Te Ringa Maimoa and Dawn Inglis, General Manager, Waipā District Council – [Transport kōrero](#)
 - Katrina Casey, Chief Executive, Cyclone Recovery Unit, DPMC – [Cyclone recovery](#)
 - Karen Mitchell, Principal, Deal Advisory, KPMG – [Funding infrastructure](#)
-

MEDIA COVERAGE

Last week's LGNZ All-of-local-government meeting drew the attention of media outlets from across the country, on a range of topics from rates capping and four-year terms to a new stalking bill and housing growth.

Local Government Minister Simon Watt's speech and LGNZ's stance on [rates capping](#) took centre stage on Thursday, with [Newsroom](#) leading with a well-written piece alongside stories on [NBR](#), [BusinessDesk](#), [RNZ](#), [The Press](#) and [The Post](#).

[Four-year terms](#) for local government were also a hot topic, with LGNZ President Sam Broughton appearing on [Mike Hosking breakfast](#) on [Newstalk ZB](#) to discuss the issue, with his comments also included in [The Post](#) and [Waikato Times](#) – the topic also causing significant debate on both sides in various opinion columns.

LGNZ Chief Executive Susan Freeman-Greene and Invercargill councillor Alex Crackett also spoke with [Stuff/ThreeNews](#) and [Newstalk ZB](#) about the Government's proposed [stalking legislation](#).

Housing Minister Chris Bishop's announcement at LGNZ's Metro and Rural & Provincial sector meetings on Friday caused a media scrum, with [1News](#) and [ThreeNews](#) running stories and [RNZ](#) livestreaming the Minister's speech.

Analysis articles also ran on [Stuff](#), [NZ Herald](#) and [Gisborne Herald](#), with Stuff's Luke Malpass penning an insightful piece appearing in [The Press](#), [The Post](#) and the [Waikato Times](#).

USING THE SOUTH AUSTRALIAN EXPERIENCE TO ADVOCATE AGAINST RATES CAPPING

As part of our broader advocacy against rates capping, we've set up meetings between Local Government South Australia CE Clinton Jury and Minister Watts' office. Minister Watts has also instructed his officials to connect with Clinton to get more information about the South Australian experience.

**Ngā manaakitanga,
The team at LGNZ**

LGNZ four-monthly report for member councils

// November 2024 – February 2025

Ko Tātou LGNZ.

This report summarises LGNZ’s work on behalf of member councils and is produced three times a year. It’s structured around LGNZ’s purpose: to serve local government by **championing**, **connecting** and **supporting** members.

Please consider putting this report on the agenda for your next council meeting so that all councillors can review it and provide feedback. Sam, Susan or other National Council members are very happy to join council meetings online to discuss the report or any aspect of it – just let us know.

This report complements our regular communication channels, including *Keeping it Local* (our fortnightly e-newsletter), providing a more in-depth look at what we do.

Introduction

This four-monthly report covers the summer holiday period when you hopefully had a well-deserved break. LGNZ continued to work hard on your behalf, delivering two All-of-local government events, meeting with Ministers, making submissions and producing resources for members.

January's Cabinet reshuffle meant a new Minister for Local Government, Simon Watts. LGNZ had dinner with the Minister on his first official day in the job, hosted him at February's All-of-local-government event and had our first formal meeting of the year on 6 March. As the Minister said at our February event, we have a positive relationship and want to work together. He acknowledged local government was fatigued by waves of reform and that a lot of the cost and burden that falls on local government is because of central government legislation (as LGNZ's research last year demonstrated). We're looking forward to working constructively with the Minister.

The political year unofficially starts at Waitangi, which offers many opportunities to mix formally and informally with Ministers, MPs and Iwi leaders. This year LGNZ stepped up our involvement and had a strong presence, including a number of National Council members, who were part of an official pōwhiri and delivered a prayer for the nation at the Dawn Service.

In the advocacy and policy space, in November we launched a set of [funding and financing tools](#) that could make a difference for local government. These tools, which include things like sharing GST on new builds, congestion charging and value capture from growth, gained strong media coverage. We also highlighted to media the potential negative implications of rates capping, with Australian guest speakers at both our November and February All-of-local-government events underlining the negative fiscal impacts for Australian councils and communities.

Other highlights of this period included:

- A range of quality submissions shared with members, including on resource management and water services reform.
- The launch of our Electoral Reform Issues paper, with the draft position paper launching 13 March. As well as four-year terms this covers the inevitable decline of post and how to respond.
- Members can now access for free more than \$1.2 million worth of professional development assets via our Ākona professional development platform (this is what it would cost councils to commercially develop the 15 Ako hours and 22 courses available).
- We distributed a free Vote 25 toolkit to all member councils just before Christmas – which you can use and adapt to promote voter registration, standing and voting.

We always welcome your comments and feedback.

Ngā mihi
Sam and Susan

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 4

Champion

Government relations

In January a reshuffled Cabinet meant a new Minister for Local Government along with other portfolio shifts relevant to local government, including a new Transport Minister. We have seized on the reshuffle and our already-strong relationship with incoming Local Government Minister Simon Watts to reset the relationship between central and local government. Sam and Susan had dinner with Minister Watts on his first official day in the job, we've locked in regular ongoing meetings, and the Minister spoke at our All-of-local-government meeting on 27 February. As well as staying as long as he could to answer questions, the Minister joined Mayors, Chairs and Chief Executives for morning tea ahead of his session.

As well as sending the Minister [an immediate letter](#) on key issues, we have developed a briefing for the Minister that sets out the state of play of local government issues, including where there are opportunities to work together in support of New Zealand's economic development. [Read the Briefing to the Incoming Minister.](#)

We have confirmed quarterly meetings with the Prime Minister throughout 2025. We also meet regularly with Infrastructure and Resource Management Reform Minister Chris Bishop, who now holds the Transport portfolio as well, with Regional Development Minister Shane Jones, and of course Minister Watts. During this four-month period, we met with Minister for Building and Construction Chris Penk and got a good insight into what he would like to achieve in the portfolio. He is keen to make changes work on the ground and, as he put it, "make life easier for councils not harder". We are in conversation with MBIE as to how options for the building consents regime might be received by councils and how they might work in practice.

We secured a strong line up of Ministers and representation from the Opposition at both the November and February All-of-local-government meetings and individual sector meetings.

Waitangi Day kicks off the political year and this year LGNZ had a strong delegation that included a number of National Council members. We held formal and informal meetings with local MPs and iwi leaders, and had the opportunity for conversations with a range of Ministers we would not normally meet with, like Education Minister Erica Stanford. Sam, Campbell and Susan attended the Waitangi Trust's dinner alongside with political leaders, including Minister Watts and the Leader of the Opposition. We had a particularly useful meeting with Northland MP Grant McCallum, who was sympathetic to our safety concerns relating for Māori elected members given the tenor of debate around Māori Wards referenda. He was action-focused and was keen to support neutral messaging that promoted safe and informed local elections. He was also interested in looking into working with us to brief National MPs on other local government issues such as funding and financing.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 5

Media

Our media engagement means balancing standing up for councils with being seen as a constructive partner of the Government. LGNZ has gained proactive media coverage of our perspective on rates capping, and our launch of funding and financing tools, and the closure of regional newspapers. Our advocacy positions on all three topics tied into our wider strategy to make local government feel more relevant and improve ratepayers' understanding of issues faced by councils.

Over the past 12 months, the media landscape has shifted significantly with the closure of major platforms, key newsrooms and culling of experienced journalists. These shifts made it harder to place proactive stories but we have intensified our efforts and continue to gain traction on major advocacy issues important to councils and our communities.

An example of these efforts coming to fruition was the coverage of LGNZ's All-of-local-government meeting, which drew the attention of media outlets from across the country on a range of topics, from rates capping and four-year terms to a new stalking bill and housing growth.

We got coverage on our position on [rates capping](#), including [Newsroom](#) leading with a well-written piece alongside stories on [NBR](#), [BusinessDesk](#), [RNZ](#), [The Press](#) and [The Post](#). [Four-year terms](#) for local government was also a hot topic, with Sam Broughton appearing on the [Mike Hosking breakfast](#) on [Newstalk ZB](#) to discuss the issue, with his comments included in [The Post](#).

LGNZ's CE Susan Freeman-Greene and Invercargill Councillor Alex Crackett also spoke with [Stuff/ThreeNews](#) and [RNZ](#) about the Government's proposed [stalking legislation](#) and the need to increase safety for elected members.

On Friday, Minister Bishop's announcement around new and improved funding and financing tools to reduce the disincentives for housing growth for councils made headlines. Analysis articles ran on [Stuff](#), [NZ Herald](#) and the [Gisborne Herald](#), with Stuff's Luke Malpass penning an insightful piece on the financial conundrum facing councils that appeared in [The Press](#), [The Post](#) and the [Waikato Times](#).

Some other specific media highlights in the past four months include:

- LGNZ's rollout of [a funding and finance toolkit](#) for councils got plenty of traction.
- We urged caution around central government's proposed [rates capping](#) introduction in New Zealand.
- We advocated to the Government [to share IVL funding](#) with councils to reduce pressure on ratepayers.
- We [welcomed the new Minister of Local Government](#) and presented the reshuffle as an opportunity to collaborate more.
- Sam penned an [op-ed](#) for Stuff, talking about the benefits of a true partnership between local and central government.
- LGNZ spoke out about the proposed Government changes to the [water and waste levies](#).

- We [welcomed the move](#) towards benchmarking and more transparency, but pushed the Government to ensure any report card provides a 'full and accurate picture'

Local government funding and financing

In late November we launched a [set of 25 tools](#) to help councils better fund infrastructure and services – from sharing GST on new builds to value capture to improving councils' ability to recover costs.

It's a pragmatic list with three distinct tiers:

1. Tools that are on the Government's agenda
2. Tools the Government has shown an interest in
3. Tools councils want but the Government isn't interested in, so need longer-term advocacy.

While rates will always be local government's primary funding tool, these tools could make a real difference to the challenges councils face. We are starting to see the fruits of this work with the Government's announcement at our February All-of-local-government meeting on new tools that will see development contributions replaced with a development levy system, allowing councils to charge developers a share of long-term infrastructure costs – more on this below.

As well as the [set of tools](#), we developed some resources to support councils' conversations with communities and central government:

- [A set of key messages](#) explaining why we need new tools
- [Slides](#) with key messages and data
- [A draft op ed](#) that you can repurpose
- [A draft letter to your MP](#)

Treasury has released advice to the Minister of Finance on funding tools available to councils. The Minister is seeking to reduce funding calls on the Crown. Treasury considers that council funding tools are generally fit for purpose. Their view is that the barriers to the full use of these tools relate to political economy, such as a general resistance to increasing rates. This is a valid point, but LGNZ believes these tools need improvement to allocate costs better, address affordability, improve efficiency, and align government objectives with local incentives.

The Government's stance against rates increases and its consideration of rates caps risks deepening public resistance to existing funding tools and increasing pressure on Crown funding. LGNZ will continue to engage with Ministers on this issue and work to enhance public discourse on the relationship between the costs of services and infrastructure and rate rises.

Ratepayer Assistance Scheme (RAS)

The new Local Government Minister has expressed interest in progressing the RAS. The RAS would allow ratepayers to cheaply borrow for specific improvements or ratepayer charges and in support of local and central government priorities. By leveraging the high credit quality of local government

rates, it accesses efficient capital market financing, passing savings to ratepayers. The RAS lends directly to ratepayers, keeping councils financially whole.

We are looking to capitalise on the Minister's interest and secure the necessary financial commitment and legislative changes. Minister Watts is positive about the scheme and has identified potential alignment with his energy portfolio if the RAS could foster investment in rooftop solar generation. We are working with Rewiring Aotearoa, an electrification advocacy group, to develop this element of the scheme.

Infrastructure funding and financing

In November, the Government released an [infrastructure funding and financing framework](#). This framework outlines the principles and processes underpinning the Crown's funding and financing decisions. It will have implications across water, energy, housing, climate adaptation, and transport. The framework makes it clear that the Government intends to only fund or finance projects as a last resort (and in minimal viable quantities). The Government also expects user pays and private financing to play a greater role in infrastructure funding and financing. Local government is not mentioned in this framework.

LGNZ will engage with new government agency *Infrastructure Funding and Financing Ltd (NIFFCo)* to ensure this framework is operationalised with councils in mind. Operationalising the framework will be challenging, given the substantial investment required for future infrastructure and the limitations of user-pays models in some sectors, as highlighted by the Infrastructure Commission.

We are also engaging with DIA and MHUD on their current work on changes to the development contributions system.

The Minister for Infrastructure announced changes to New Zealand's infrastructure funding and financing settings at February's All of Local Government meeting. The Government will replace development contributions with a development levy system, allowing councils to charge developers a share of long-term infrastructure costs. There will be regulatory oversight of development levies to ensure charges are fair and appropriate. Councils will also have more flexibility to set targeted rates that apply to new developments. Finally, the Infrastructure Funding and Financing (IFF) Act will be improved for developer-led projects and expanded to support major transport projects like those led by NZTA.

LGNZ has welcomed these changes, which were in our funding and financing toolkit. We will await further detail and work to ensure these reforms work effectively on the ground for councils.

Regional deals

Instead of the initially announced approach of inviting five regions to participate, all councils were eligible to express interest in a Regional Deal by 18 December 2024.

The Minister was clear that councils should work together across a region when submitting an expression of interest. This meant providing a light-touch proposal with an outline of the drivers of economic growth in a region, what the region will do to unlock growth, and what the region needs

from central government to assist. These expressions of interest will be assessed, and the Infrastructure and Investment Ministerial Group will decide which regional deals proceed to the next steps, which involve a MoU process and final negotiation.

Our understanding is that new Minister may be interested in seeing more than one deal agreed by the end of 2025 (we will certainly be encouraging this), with more agreed by the end of 2026.

Rates capping

Rates capping was a significant topic at both the November and February All-of-local-government meetings. This included presentations on the operationalisation and impacts of rates capping from local government representatives from New South Wales and Victoria (in November); and on transparency as an alternative from South Australia (in February).

In Australia, while rates capping has been effective in terms of constraining rates increases, it has failed to deliver an optimal mix of local services and rates. It has degraded council delivery and left councils increasingly financially unstable. In every overseas jurisdiction that has implemented rates capping, councils are advising us to oppose it as strongly as we can because of its negative impacts on councils' ability to deliver for communities.

We raised concerns about rates capping in meetings with numerous ministers, highlighting this policy's risks for communities and advocating for alternative measures. We are suggesting performance reporting and benchmarking should be prioritised instead – and that these would better achieve the Government's aims.

Water services reform

The Local Government Water Services Bill was introduced in December, with submissions closing in late February. This piece of legislation will establish enduring settings for the new water services system and is expected to be enacted in mid-2025. The bill sets out arrangements for the new water services delivery system, a new economic regulation and consumer protection regime for water services, and changes to the water quality regulatory framework and the water services regulator (Taumata Arowai). To help members prepare their submissions, in December LGNZ shared an [explainer on the stage three legislation](#) with members, based on [proactively released decisions](#) on the future system. In January, we circulated a draft submission on the Local Government (Water Services) Bill for member input, and we expect to present our oral submission in March.

The Water Services Authority – Taumata Arowai and the Ministry of Business, Innovation and Employment (MBIE) carried out a short consultation on levies to fund water services regulation, with submissions closing in late January. These levies will be collected from councils or their water organisations, and will fund or part fund the water services regulatory functions of Taumata Arowai and the Commerce Commission. These agencies are already empowered by legislation to charge levies in this way. Taumata Arowai proposes to recover \$20.658 million per annum for the next three years from local government through this levy, around 84% of its operating costs. The Commerce

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 9

Commission is seeking to recover \$6.5m per annum for the next two years from local government (or their water organisations) from their levy. They both propose to allocate these on a population basis, resulting in a total for both levies of \$5.44 per person per year.

Councils will soon start consulting on aspects of their Water Service Delivery Plans (WSDPs), which must be finalised by 3 September 2025. As councils consult their communities, for some councils it will become obvious how difficult it is for water services to be financially sustainable, especially if charges to consumers are kept low. We will support member councils by providing information, connecting members to support from DIA, and advocating for DIA to increase this support. The Minister was also clear when speaking at LGNZ's All-of-local-government event on 27 February that councils should reach out for help now rather than wait till September.

Resource management reform

We are awaiting Cabinet decisions on the "blueprint" for new legislation to replace the Resource Management Act (RMA), which we understand was presented to the Minister Responsible for RM Reform last month.

In the meantime, the Resource Management (Freshwater and Other Matters) Amendment Act, and the Fast Track Approvals Act were both passed by Parliament.

In February, we submitted on the Resource Management (Consenting and Other System Changes) Amendment Bill. This legislation progresses targeted amendments to the Resource Management Act to improve its performance while work on replacing the RMA continues. We are still awaiting the accompanying changes to National Direction, which LGNZ will also submit on.

Some councils have approached LGNZ seeking support for removing specific projects from the Fast Track process. For example, Waimate District Council has written to Ministers raising concerns about the inclusion of the proposed Waste to Energy Plant at Glenavy, primarily on the basis of environmental, health and economic impacts. While LGNZ can't lobby central government about specific projects for individual councils, this serves as another illustration of the tension between central and local government decision making. The Fast Track Approvals Bill aims to speed up consenting for major infrastructure, but the inevitable trade-off is less input from local communities on significant proposals that affect their area. We will continue to reflect this broader concern in our advocacy work.

We are currently working on a plan for how LGNZ will respond to the significant volume of consultations expected in the RM space over the next 12-18 months.

Transport

We have surveyed Transport Forum members to get an idea of the cost of implementing the Government's new policy of variable speed limits in school areas. While councils are at varying stages in terms of quantifying the impact of this policy, early indications are that this is having a

significant fiscal impact on councils that are already facing significant fiscal pressure as a result of funding decisions made in the NLTP 24-27.

Transport Forum meeting dates have been locked in for 2025, and following the letter from Sam and Neil to Simon Bridges, NZTA board members Paul Dougherty and Warwick Isaacs attended the Transport Forum meeting in February.

In November, the New Zealand Transport Agency Waka Kotahi released a discussion document on increasing the private share (i.e. the portion of fares not subsidised by central or local government) of public transport operating expenditure, and wrote to regional councils suggesting specific targets for this share. This had been signalled in both the Government Policy Statement on Land Transport and the National Land Transport Programme, both of which were released earlier in 2024. The Regional Sector and LGNZ have raised concerns about the impact on passenger fares in the media and with Ministers.

The new Transport Minister also holds the Housing, Infrastructure, and RM Reform portfolios, presenting significant opportunities for alignment. We have secured a meeting with Minister Bishop in March and also have briefed him in writing on the LGNZ Transport Forum, which met on 10 February and discussed how best to work with the new Minister.

The Government's 2025 Q1 action plan commits to passing the first reading of the Land Transport Management (Time of Use Charging) Bill. This bill, which was introduced last year, would enable time of use charging (aka congestion charging). This is one of our tier one funding and financing tools and LGNZ will be submitting on this legislation: the model adopted needs to give councils as much flexibility as possible.

Climate change

In November, the Office of the Auditor General has released a report [How well four councils are responding to a changing climate](#). The report highlights that climate change poses significant challenges for councils, requiring long-term strategies, governance clarity, and collaboration. While the four councils audited have taken steps to prioritise climate action, gaps remain in embedding these priorities into planning and resourcing. Recommendations include enhancing collaboration, setting clear climate objectives, strengthening performance measures, ensuring governance clarity, and improving public reporting. The Auditor-General encouraged all councils to consider these recommendations.

On 29 January, the Government published its [response](#) to the Finance and Expenditure Committee's inquiry into climate adaptation (which outlined high-level objectives and principles to guide development of New Zealand's climate change adaptation policy framework). The response signalled the Government intends to adopt a decentralised approach to climate adaptation, with decision-making and resource allocation occurring at the most-local level possible. This suggests residents and councils will generally bear the cost of adaptation. LGNZ will keep advocating for councils to be provided with adequate funding and policy tools to meet adaptation obligations. The Government has said it will consider the committee's recommendations as it finalises the adaptation framework and associated legislation, which is expected to be introduced this year.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 11

Electoral Reform Working Group

Thank you for all your feedback on the Working Group's issues paper, which has been taken into account by the group in developing a draft position.

Mayor Nick Smith will be launching the Electoral Reform Working Group's draft position paper in March, including presenting to all zone meetings to get your feedback. As well as looking at a four-year parliamentary term, the group has also been looking at the unsustainability of postal voting and considering alternatives.

Other policy issues

Earthquake prone buildings

The steering group set up by MBIE to inform its comprehensive review of the seismic strengthening system has had its first meeting, with Nigel Bowen, Helen Craig, and Liam Hodgetts (all put forward by LGNZ) providing a local government voice at the table.

LGNZ has also set up our own informal Seismic Strengthening Group, chaired by Manawātū deputy mayor Michael Ford, which met for the first time in late November. This was a positive meeting that underscored what members want from the Government's comprehensive review of the seismic strengthening regime. This group will meet on an as-needed basis to help guide LGNZ's response to the Government's review, and to support wider advocacy for the remit from Manawātū District Council passed in 2023.

Stalking

We produced [a submission](#) on the Crimes Legislation (Stalking and Harassment) Amendment Bill, which introduces a new stalking and harassment offence and other measures to reduce the harm that victims experience. In our 2022 survey of elected members, 43% had experienced harassment, prejudice, threatening or derogatory behaviours in their role. Aggressive and abusive behaviours can constitute stalking – or be a precursor to it – and we want to see elected members better protected.

Update on 2024 remits

Remit	Progress update
Appropriate funding models for central government initiatives That LGNZ proactively promote and lobby for the development of a more equitable and appropriate funding model for central government initiatives.	This remit is being progressed as part of the wider funding and financing work programme (and is a core objective of this work).
GST revenue sharing with local Government That LGNZ be proactive in lobbying central government on sharing GST revenue with local	This remit is being progressed as part of the wider funding and financing work programme. We understand the Government is looking at

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 12

government, derived from local government rates and service fees related flood protection mitigation, roading, and three waters, for investment in these areas.	alternatives to this policy (such as more enabling changes) and will consider advice on this later this year.
Local Government Māori Wards and Constituencies should not be subject to a referendum That LGNZ lobbies central government to ensure that Māori wards and constituencies are treated the same as all other wards in that they should not be subject to a referendum. We oppose the idea that Māori wards should be singled out and forced to suffer a public referendum.	Now that legislation has been passed, we know that 42 councils will be holding a referendum on Māori wards. See the separate National Council paper on Māori wards, which discusses how LGNZ will support Te Maruata and the wider membership around the referendums and elections broadly.
Proactive lever to mitigate the deterioration of unoccupied buildings That LGNZ advocate to Government: <ul style="list-style-type: none"> • For legislative change enabling local authorities to compel building owners to remediate unoccupied derelict buildings and sites that have deteriorated to a state where they negatively impact the amenity of the surrounding area. • To incentivise repurposing vacant buildings to meet region-specific needs, for example, accommodation conversion. 	Late last year we had an initial discussion with Gisborne District Council to determine the work programme for progressing this remit, which was also discussed at the first meeting of the LGNZ Seismic Strengthening Group. Information from GDC is currently being used to develop a work programme.
Representation Reviews That LGNZ advocate for changes that support the provision of timely and accurate regional and sub-regional population data to councils for use in council representation reviews.	Statistics NZ is reviewing the methodology for the 2028 census. We are monitoring this process in case it provides an opportunity to progress this remit. A move to a four-year term, which we are actively lobbying for, would require a change in the timings of representation reviews so this remit is also informing the thinking of the Electoral Reform Working Group.
Community Services Card That LGNZ advocate to Central Government to amend the Health Entitlement Cards Regulations 1993 so that the cardholder can use the Community Services Card as evidence for the purposes of accessing Council services which would otherwise rely on a form of means testing.	We wrote to relevant Ministers asking that councils be allowed to make use of the Community Services Card when offering discounts to council facilities. We have yet to receive a response. We also put out a media release, which got good coverage, and engaged via social media.
Graduated Licensing System That LGNZ advocate for changes to the fee structure for driver licensing, better preparing young people for driver licence testing, and greater testing	MTFJ has agreed to progress this remit because it relates to its work with the Driving Change Network.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 13

ITEM 10.2 ATTACHMENT 3

capacity in key locations throughout New Zealand, in order to relieve pressure on the driver licensing system and ensure testing can be conducted in a quick and efficient manner.	
--	--

Connect

2025 calendar

We released a [final version of the 2025 calendar](#) in early December (though this remains subject to change if the need arises).

Vote25

In December, we shared our [free Vote25 toolkit](#) with member councils. This includes a set of creative assets that councils can customise, such as posters and social media tiles. The campaign covers all three phases: register to vote; stand for election; and vote.

All-of-local-government meetings

The November meeting, with a strong programme that focused on local government reform, drew more than 170 members. It was an opportunity to lay the foundations for stronger advocacy on key parts of reform in local government, such as rates capping. At that event we also launched the funding and financing toolkit discussed above, which gained strong media coverage.

February's All-of-local-government meeting focused on accountability and demonstrating value, with more than 180 members attending. Government speakers included Local Government and Climate Change Minister Simon Watts; Infrastructure, Transport, RMA Reform and Housing Minister Chris Bishop; and RMA Reform and Infrastructure Parliamentary Under-Secretary Simon Court. This was Minister Watt's first chance to address a large local government gathering in this role, and he set out his intention to work in partnership with local government while delivering on the reform agenda. Our guest speaker from South Australia's local government association shared how they managed to convince their government to not implement rates capping by implementing greater transparency; an advocacy approach that LGNZ is also taking.

The theme of the 1 May meeting is delivering infrastructure for growth. Confirmed speakers so far include Minister Chris Bishop and former Minister Steven Joyce – we'll be releasing the programme and inviting registrations in March. As usual, individual Regional, Metro and Rural & Provincial Sector meetings will happen on the following day.

Metro Sector

The Metro Sector meetings on 22 November and 28 February confirmed the group's focus areas for the remainder of the current electoral term, as follows:

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 15

1. Enabling and supporting economic development and growth by showcasing the role of cities as engines of the national economy and driving regional collaboration.
2. Lift LGNZ governance and accountability in order to improve LGNZ's impact.
3. Improve alignment of central and local government investment cycles to reduce inefficiencies and encourage more bipartisan agreement on key infrastructure decisions.

Regional Sector and Te Uru Kahika

The final meeting of the Regional Sector for the year included engagement with Hon Mark Mitchell, the Minister for Emergency Management, a discussion with Hon Simon Upton, Parliamentary Commissioner for the Environment on water and land use roles, and discussions on Taumata Arowai's stormwater performance standards and phase 3 of resource management system reforms.

LGNZ has met new Te Uru Kahika Executive Director Iain Maxwell to welcome him on board and build on the positive relationship we enjoyed with his predecessor Liz Lambert. We work closely to coordinate Regional Sector meetings and collaborate on policy work.

February's Regional Sector meeting included new Transport Minister Chris Bishop, Taumata Arowai on wastewater performance standards, and the Department of Prime Minister and Cabinet on significant natural hazard events and recovery settings. This meeting also welcomed new Taranaki Regional Council Chair Craig Williamson, with Cr Charlotte Littlewood recently standing down from the Chair position.

Rural & Provincial

February's R&P meeting canvassed a number of areas impacting rural and provincial councils, with Local Water Done Well a key topic on people's minds, as well as new wastewater standards. The Department of Internal Affairs and Taumata Arowai spoke at the first R&P event of the year and took questions. Rural health was also a big topic so we had speakers address growing concerns over access to health in our rural communities and provided some examples of the hands-on role some councils are playing to bridge the gap. The Roadway Efficiency Group also delivered a presentation.

Minister Chris Bishop used our February event as a platform to announce some major changes to local government funding and financing as part of his Going for Housing Growth programme. The event wrapped up with a session with KPMG's infrastructure financing expert Karen Mitchell on infrastructure funding and financing options such as using debt and PPPs.

SuperLocal25

Planning for SuperLocal25, which is from 16-17 July at the Te Pae Convention Centre, is well underway: the conference's theme will be Brilliant Basics and Beyond. We are currently finalising the programme and will open registrations in April.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 16

Based on feedback from SuperLocal24, we have compressed the programme so that the event starts much earlier on the first day (the AGM will be at 8.30am on the Wednesday) and wraps up with the awards dinner on the Thursday night. This leaves Friday for visits to the wider region or travel home. Te Maruata and Young Elected Member hui will be held on Tuesday, before the conference, and there will be a breakfast for Women in Local Government at 7am on the Wednesday morning before the AGM.

Te Ao Māori

Iwi engagement

Waitangi presented new opportunities for engagement, thanks to LGNZ's representation by National Council. The Iwi Chairs Forum held one of their conferences ahead of the Waitangi commemorations at Waitangi, which allowed us to continue building that relationship as well as with Northland Iwi, hapū and whanau. It was the first year we were formally included in a pōwhiri at Waitangi, alongside the legislature, diplomats and the Waitangi Tribunal.

Te Maruata

Te Maruata met early in November to reflect on 2024 and look forward to 2025. The Treaty Principles Bill and broader election-related issues, including how to support members, were also a hot topic. Te Maruata also provided support to LGNZ's participation at Waitangi.

Te Maruata Rōpū whakahaere will hold its first official meeting of the year at the beginning of March. The focus will be on fleshing out plans for Elections 2025, preparations for Te huinga o ngā roma – the in-person whānui hui in April – and plans for the Te Maruata hui at SuperLocal25.

Te huinga o ngā roma will be held from 3-4 April in Taupo. Te huinga o ngā roma acknowledges the tributaries of Lake Taupō and the role of water in the revitalisation and connection of people and place, which will ground the event. There will be a range of inspiring speakers, workshops and discussions to equip, support and inspire members.

Young Elected Members Network

The annual YEM Hui took place in Christchurch from 16-18 October. It was held there despite Christchurch City Council's decision to withdraw from LGNZ, because the YEM Committee had decided earlier this year to shift away from having a host council, with the Committee taking on full responsibility for hosting. We worked closely with Cr Deon Swiggs (Environment Canterbury and member of the YEM Committee) on planning for the event. Former Christchurch Mayor Lianne Dalziel delivered the keynote address, with the theme of the hui being "mā mua kite a muri, mā muri ka ora a mua" – driving change through community leadership. The programme was about councils empowering community leaders to make real change and equipping YEM with the key skills needed to make good decisions around council tables. We also had former YEM Lan Pham from the Greens and Cameron Luxton from the ACT Party give their perspectives on how to deliver for communities.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 17

Tikanga sessions were organised to support members to prepare for the whakatau at the commencement of their hui.

Planning is now underway to work through how the YEM network want to address voter turnout and get more young people to stand in the next local election.

The YEM Committee met at the end of February to develop a plan for the elections – this includes how to get more young people to stand and vote, as well as induction material specific to supporting YEMs. We will also be holding a three-hour YEM hui before SuperLocal25.

Community Boards

The Community Board Executive Committee met in early November and again in February. The committee welcomed a new member, Ross Munro from Pleasant Point community board (who replaces Simon Britten who stepped down due to Christchurch City withdrawing from LGNZ).

The meeting reflected on discussions with the Remuneration Authority on the formula for setting community board remuneration and an option for recognising and compensating boards which have additional responsibilities.

CBEC is keen to strengthen alignment with both YEM and Te Maruata, and also discussed using Ākona for community board members and community board induction, and the impact of representation reviews and on community boards

CBEC is continuing to work on its Relationship Agreement guide for councils and community boards, with a draft available soon for consultation. CBEC is also working on a community board workshop session for SuperLocal25; providing support to boards going through representation reviews; and liaising with the Remuneration Authority ahead of its review of elected members' remuneration.

Women in Local Government

Last year we brought women elected members together online and in person at SuperLocal24 (at a pre-conference lunch with keynote speaker Nicola Willis). We've had a lot of feedback that this work is valuable and should continue. As a result, we've developed a plan for this work that includes creating opportunities to connect; advocacy for system change that improves all elected members' safety (like submitting in support of the stalking legislation currently before Parliament); and championing this work.

Member visits

Susan and Sam are on track to have visited all councils since Sam became President, with the last visits scheduled in early 2025. For the remainder of the triennium, we will have a structured programme of calling Mayors and CEs (by Susan and Scott) as well as ad hoc visits/calls as needed.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 18

Support

Ākona

We are seeing an increase in users as members realise how comprehensive it is, and that they can use it to suit their needs. Ākona has about 500 active users, with 42 users choosing to engage with the platform over the summer break. Over 200 users have made use of the skills analysis tool and 483 members have enjoyed the top five e-modules.

Between November and February, we held six Ako hours attracting a total of 184 registrations – and many individual registrations were for groups attending together.

The value of Ākona to councils continues to grow. An interactive professional development platform with 15 Ako hours and 22 courses would cost about \$1.2 million if you paid for it commercially.

The Induction 2025 pre-elected package of learning is on track for release at the end of March. This package teaches people about what it means to be an elected member, including what councils actually do, and will include a series of animated videos, along with interactive e-modules. You'll be able to share this pre-elected package with anyone interested in standing for council (they don't have to be members).

The Mayor Induction Hui and EM Induction hui around the country have been booked and details released to councils, which have welcomed the early communication. We'll also be holding a Chair Induction Hui after regional councils have elected their chairs.

The Ako Hour Academy, which will provide post-induction learning for all elected members, is being built collaboratively with members, in our governance bi-monthly hui. The response has been very positive, with everyone we have spoken to committing to weaving Ākona into local induction activities. Our Learning and Development Manager is meeting with each council in turn to discuss what materials they could upload into the new Ākona platform so it's a one-stop shop for all elected member learning.

Te Korowai – CouncilMARK

Te Korowai has progressed from three successful trials to a soft launch.

We are now seeking registrations of interest for participation in Te Korowai in 2025. There are multiple ways to engage with the programme:

- **Full programme cycle:** This includes an independent assessment by external assessors, an evaluation by the independent evaluation panel, and a development workshop following the evaluation report.
- **Integrity survey:** This serves as a stepping stone for councils wanting to assess their ability to function with integrity. Similar to an engagement survey, it involves an organisation-wide

rollout — including elected members — followed by an in-person workshop to discuss the findings.

Roading Efficiency Group

LGNZ is a founding partner of the Road Efficiency Group Te Ringa Maimoa (REG) sector partnership, which is entering its 12th year. We welcome the continued collaboration with RCAs and support REG in rolling out a number of exciting initiatives:

- A new governance dashboard in the Transport Insights web portal that provides elected members with valuable insight into the performance and benchmarking of their road network and RCA – www.transportinsights.nz
- An extensive learning and development programme to continue to raise capability.
- Delivering the Consistent Condition Data Collection project, which captures surface condition data for all sealed roads for local authorities.

Learn more at www.nzta.govt.nz/reg

Governance support

The 2025-2028 edition of the LGNZ standing orders template was [published in late December](#). This version has been updated to include recent legislation and additional principles. It's also been redrafted in plain English. As we have done previously, three templates have been developed, one for city and district councils, one for regional councils and one for community boards.

The 2025-2028 Guide to Standing Orders will be published in March. It has been updated and expanded with additional guidance, including:

- Advice on implementing the Ombudsman's Guidance on public access to workshops;
- More information on delegations and setting agendas;
- Guidance on issues that emerged in the last term, such as using co-chairs and vacating the chair;
- Protocols for webcasting and people joining meetings remotely; and
- Templates for parental leave and childcare policies.

LGNZ continues to provide support to a number of councils experiencing tension between elected members and/or between elected members and CEs.

LGNZ four-monthly report for member councils: November 2024 – February 2025 // 20

Hon Mark Mitchell

Minister of Corrections
Minister for Emergency Management and Recovery
Minister for Ethnic Communities
Minister of Police
Minister for Sport and Recreation

REF: EM COR 2024-25-067

March 6 2025

Mayor Andy Watson
Rangitikei District Council
Karen.Cowper@rangitikei.govt.nz

Dear Andy,

Thank you for your letter dated 12 February 2025 regarding potential funding for a new IL4 building in Marton. I can assure you that the Government is committed to strengthening New Zealand's emergency management system. You will also know that the Government is operating in a tight fiscal environment and is balancing competing demands (e.g. health, education, law and order) on the funding it administers on behalf of New Zealanders.

Currently there are no dedicated central funds accessible to Civil Defence Emergency Management Groups for Emergency Operations Centres (EOCs) or Emergency Coordination Centres (ECCs).

You will be aware that the Government released its response to the Government Inquiry into the North Island Weather Events (the Inquiry) in October last year. We are in the middle of developing new emergency management legislation and an investment roadmap to support this.

In response to recommendation 7 of the Inquiry we are committed to a series of priority actions to improve the emergency management system, including enabling system interoperability and fit-for-purpose ECCs in each region.

A key area for the Government is enabling the different parts of the system to work better together at the national level. This includes establishing a new National Emergency Management Facility (NEMF) in Wellington, and work on a backup in Auckland. We know that the NEMF must be able to link to regional ECCs, which must also be fit for purpose.

My specific focus is on making sure the Government delivers through building leadership, community capability and capacity, and clearer accountability. We are still working through options and are yet to consider or make decisions on the investment and implementation roadmap.

Thank you for taking the time to write.

Yours sincerely,

Hon. Mark Mitchell
Minister for Emergency Management and Recovery

MAYORS REPORT TO COUNCIL 27 MARCH 2025 - ADDITIONAL TABLED REPORT

Good Morning

I apologise that this is tabled rather than being part of the Order Paper.

Council has been exceptionally busy over the last month with many national level meetings for Mayors and Councillors and we continue to grapple with the relationship building around Local Water Done Well. In my earlier report I had said that the turnout for LWDW public meetings was incredibly low and at the time of writing that was the case. The meetings in Bulls and Taihape attracted less than 10 people combined. I thank that handful of people. However the meeting in Marton subsequent to me writing my report was the exception, turnout was huge possibly also boosted by the street collection of rubbish issues.

Recently Council has made the decision to partially fund the pick-up of rubbish i.e. wheelibins and bags across the district following a local company ceasing trading. The Deputy Mayor and I met with senior staff essentially saying we were not prepared for this rubbish to be left to be scattered around our streets or potentially dumped wherever. That did come at a cost and it was a short term fix. Wheelibins and bag collection are a private matter between the property and private contractors and I urge everyone to either take up current contractors' offers that are available now or to use the Transfer Stations directly. Information on this is available on our websites. My thoughts also go to the owners and staff of the company that is in liquidation. They have provided a service for a large number of years, are huge contributors to our district and I feel for them.

Equally for Marton residents, Council has provided a water tanker at the Memorial Hall over the last few weeks to assist with the seasonal odour/taste issues. That has come to an end but the filter station on site will continue to still be available. This will be the last summer when these issues exist, with the transition to bore water happening this winter. This decades old issue of poor tasting water in Marton will soon be behind us.

There are a number of other issues I wish to further comment on.

1. On 18 March I attended an Infrastructure Resilience Symposium in Auckland chaired by Angela Young from Tonkin + Taylor. I will try and make available the presentations but I add these comments now.
 - i) The conference opening comments were from Nick Leggett CE Infrastructure New Zealand and also Chair of Wellington Water. He said this conference is about the need for a national resilience structure to support New Zealand. He stated that "as defined by Lloyds of London we are second to Bangladesh in countries susceptible to national disasters". Think here of Gabrielle, Christchurch etc.
 - ii) The next speaker was Reid Basher a specialist in National Disaster Risk Management. He qualified the scale of the issue in regards to costs for recent events -
 - Canterbury earthquake - \$40b estimate
 - Leaky homes - \$47b estimate
 - Covid - \$58b estimate
 - Gabrielle - \$10b estimate

ITEM 10.2 ATTACHMENT 6

- New Zealand's debt now sits at \$192b whereas in 2015 it was \$60b.
 - He also noted that you can have significant events such as a 7.8 earthquake shake in Fiordland that caused very little collateral damage – imagine the effect when this happens off the East Coast of the North Island.
 - He then moved onto how you would reduce these disaster risks which are by way of –
 - a) Knowledge/data
 - b) Best practices in construction etc
 - c) Policy/Bylaws, i.e. politics – this is about not building in high risk (flood prone) areas and learning the lessons from the past.
 - He commented that at the time of the event there is always significant interest but post-disaster lessons are forgotten and the invisibility of risks sits there for decades.
 - We as a sector are scared of policy positions because they then threat property values.
 - He finished by saying that New Zealand has 33 national risks identified.
- iii) Chris Bishop Minister of Infrastructure - his comments were –
- There is a need for a transparent model in New Zealand for who pays for risk management.
 - Risk management is about safeguarding our economy.
 - We have two options – invest to protect; or to insure.
 - 4% of our national GDP is tied to natural hazards.
 - We need to deal with these issues and to highlight to overseas investors that New Zealand is a good place to invest.
 - Our asset management risk processes are poor, partly because of our ageing infrastructure.
 - He gave the example of a \$40m pipe in Wellington buried but not connected and not listed on any asset management plan.
 - His message was clear – work out what we own and how we should look after it and replace it.
 - We have an adhoc response to disaster crises i.e. bespoke political solutions. It leaves councils/districts thinking why should we invest to mitigate if Government will just turn up. This is, I think, partially unfair – think of our roading partnerships with Government and our Local Government share of GDP and our ability to fund.
 - He also criticised Government “We have too many Government people across risk management/civil defence, there is a spaghetti junction of linkages that needs to be sorted”.
 - Government is looking to co-invest with councils using Shayne Jones’ fund to protect communities and for relatively small sums of money the payback is huge. (Think of stopbank funding here for Horizons in our region).
 - Minister Bishop talked enthusiastically about PPP (Private Public Partnerships) where there is the ability to lock in processes and costs over a long time. Where buildings etc are maintained by companies who have an interest in them. These build/design/maintain contracts are becoming more widely used in New Zealand.

- He ended with a couple of one-off notes “the RMA should be suspended in times of national disaster” and “that water decisions (LWDW) have been made in New Zealand by politicians rather than by good decision makers, i.e. people with professional expertise”.
- iv) Simon Watts – Minister of Climate Change/Local Government/Minister of Energy
- Speech was on party lines i.e. New Zealand is open to investment and we need to encourage GDP growth.
 - Simon built further on the cost of natural disasters to New Zealand.
 - He is looking to build a national policy on climate change resilience in conjunction with the opposition parties.
 - Adopting to climate change is a long term challenge and there is a desperate need for data.
 - He touched on city/regional deals as a partnership between local/central Government which are 10 year deal structures.
 - He talked about the success of Auckland Water dispelling the myths that are out there in the country.
- v) Panel Discussion – Stuart Smith MP Kaikōura / Simon Court working on RMA reform as a Minister / Kieran McAnulty Opposition Minister of Infrastructure / Chloe Swarbrick Green Party Co-leader
- Cyclone Gabrielle involved many neighbouring districts and in the past the Civil Defence model relied on support from your neighbours. I recognised this as a very good point.
 - Unfortunately this session became tit-for-tat between the relevant political parties i.e. Greens/Labour -vs- Government which was a real pity because it had the potential to be a very very good session.
 - The blame was levelled on Local Government for rate increases -vs- the ability for Local Government to be able to fund itself.
 - A disappointing session but one where Chloe spoke very well compared to the others.
- vi) Jo Hendy – CE Climate Change Commission
- Highlighted the effects of climate change and talked about businesses closing when power goes down (mill closures etc).
 - People will look to migrate to New Zealand under international climate change effects.
 - Food will become more expensive.
 - Climatic events leverage off previous events i.e. a severe drought makes you far more susceptible to floods.
 - Cited the advantages of councils restoring wetlands/solar farms noting that for every dollar spent now it saves \$10 later.
- vii) Aotearoa Futures – Social Cultural Adaption for Resilience – speakers Dr Alanga Rā, Director for Social Investment WSP and Dr Rowan Dixon WSP
- Mana Whenua is often better placed to lead discussions on Climate Change, they are more aligned to the value for the dollar, they are more versatile and react faster in times of disaster.

- Governments will come and go but Iwi will always be there.
 - The Maori population percentage will continue to rise in New Zealand and they have a patient mindset to investment.
- viii) Panel discussion regarding Roading Transport - Vanessa Brown NZTA as lead -
- A limited supply of Government funding and Local Government funding is under pressure.
 - The conversations here were about roads that should not be replaced noting that people elect to live in remote areas and then expect connection.
- ix) The symposium continued with presentations on telecommunication resilience and energy security
- A takeout was that technology is the fourth strand of infrastructure i.e. very similar to the need for having roads.
 - The energy security looked at 90% of New Zealand electricity being from renewable sources, demand is dramatically increasing with electric cars and companies wanting to convert boilers to electricity for national political reasons. The winter storage lakes levels in 2024 were publicly realised to be very low, in 2025 they are potentially worse.
- x) This was a session on who pays for climate change lead by Jonathan Boston from the Wellington School of Business
- The biggest single issue is sea level rise
 - National disasters in 2024 cost an estimated \$320b USD worldwide
 - Talked about the sea level rises in New Zealand - by 2100 it will probably be about 70cm.
 - An example cited was the potential need for the relocation of Westport a town of 4000 residents which would come at a current cost of \$2b.
 - It is seen that the assistance for business owners is less than that of residents.
 - Rental units and second homes should not get as much assistance?? / effectively this is means testing.
 - Those that need relocation see themselves as victims not beneficiaries.
- xi) Final speaker Chris Faafoi CE of Insurance Council
- There is a 75% chance of a magnitude 8 earthquake occurring over the next 50 years.
 - Collectively the Insurance Council covers \$2 trillion of New Zealand assets.
 - There are 8400 FTEs working in the industry.
 - Last year the industry paid out 78% of its income.
 - Insurance in the future will not be available on flood plains.
 - Banks will not lend without insurance so why would council zone flood plains for urban.

10.3 Consultation Tracker - March

Author: Kezia Spence, Governance Advisor

1. Reason for Report

- 1.1 This is included for the committee's information. The attached schedule will be update regularly.
- 1.2 This dashboard highlights the topic, staff lead and expected consultation period. There is a lot planned across the local government sector and for our Council over the next 12 months, so it is of benefit to provide this to not only Council but also our Community Committees on a monthly basis.

2. RDC Website

- 2.1 Council's website lists all open and recently closed consultations (see the below weblink). This is also where individuals can make submissions.
<https://www.rangitikei.govt.nz/council/consultation/current-consultations>

10.4 Funding Schemes Update - March 2025

Author: Kezia Spence, Governance Advisor

1. Overview

- 1.1 Council currently administers four funding schemes for the Rangitikei District, these are:
 - a. Community Initiatives Fund
 - b. Events Sponsorship Scheme
 - c. Creative Communities Scheme
 - d. Sport NZ Rural Travel Fund

2. Community Initiatives Fund

- 2.1 This is a Council fund intended to support community-based projects in the Rangitikei District that develop community cohesion and community resilience.
- 2.2 Council allocated \$30,000 to this fund annually, to be distributed across two separate funding rounds.
- 2.3 Round one for 2024/25 opened 01 July 24 and closed 31 August 24. Decisions were made at the September Finance and Performance meeting with funds totalling \$12,337.
- 2.4 Successful applicants were:
 - 2.4.1 Bulls and Community Development Trust
 - 2.4.2 Marton and Districts Budget Service
 - 2.4.3 Parkinson's NZ
 - 2.4.4 House of Science NZ Charitable Trust
 - 2.4.5 Te Kai Whaka Ora- Marton Youth Trust
 - 2.4.6 Forest and Bird Society- Rangitikei Branch
 - 2.4.7 Marton and Surrounds ICT Hub Charitable Trust
 - 2.4.8 Marton and District Historical Society
- 2.5 Round two for 2024/25 opened on the 01 February 25 and closes 31 March 25. Decisions will be made at the Community Grants Committee meeting on the 15 April 25.

3. Events Support Scheme

- 3.1 This is a Council fund intended to support events in the district that help to develop community cohesion and reinforce economic growth.
- 3.2 Council has allocated \$25,000 to this fund annually, to be distributed across two separate funding rounds.
- 3.3 Round one for 2024/25 opened 01 July 24 and closed 31 August 24. Decisions were made at the September Finance and Performance meeting totalling \$15,460.
- 3.4 Successful applicants were:
 - 3.4.1 Turakina Caledonian Society

3.4.2 Hunterville Huntaway festival

3.4.3 BCDT, Christmas Parade

3.4.4 Manawatu Wanganui Golf Ass Inc

3.4.5 Taihape Area Dressage Group

3.4.6 3 Stand 8-Hour Strong Wool Shearing Record Attempt- Hunterville

3.4.7 Marton Country Music Festival

3.4.8 BCDT, Bulls 147th Annual Rose Show and Fest a Bull

3.4.9 St Joseph's School PTA

3.5 Round two for 2024/25 opened on the 01 February 25 and closes 31 March 25. Decisions will be made at the Community Grants Committee meeting on the 15 April 25.

4. Creative Communities Scheme

4.1 This fund is supplied by Creative NZ and administered by Council. Applications are encouraged from community groups and individuals whose projects:

- Demonstrate growth over time
- Develop and support local artistic communities
- Encourage a transfer of artistic skills
- Support diversity and inclusion
- Projects with a youth focus are also encouraged

4.2 Creative NZ typically allocates \$24,090 (+ GST) to the Rangitikei District Council on an annual basis, and this is distributed across two separate funding rounds.

4.3 Round two for 2024/25 opened on the 10 December 24 and will close on the 10 April 25. Decision will be made on the 28 May 25.

5. Sport NZ Rural Travel Fund

5.1 This fund is supplied by Sport NZ and administered by Council. The fund is targeted at young people aged between 5 and 19 years and is open to rural sport club teams and rural school club teams with eligible members who require subsidies to assist with transport expenses to local sporting competitions.

5.2 Sport NZ allocated \$9,500 (+ GST) to the Rangitikei District Council on an annual basis. There is one funding round per year.

5.3 Applications are now open for this fund and close 31 March 25. The decision will be made on the 15 April 25.

6. Further Information

6.1 More details about these funding opportunities can be found on the Council website (link below) and this is also where applications can be submitted:

<https://www.rangitikei.govt.nz/district/community/grants-funding>

Recommendation

That the Funding Schemes Update – March 2025 be received.

ITEM 10.4

10.5 Small Projects Fund Update - April 2025**Author: Kezia Spence, Governance Advisor****1. Allocation**

- 1.1 The yearly allocation of the 2024/25 Small Projects Fund for the Marton Community Committee is \$4,167.19, this includes the carry-forward of \$667.19.

2. Breakdown of Allocation

- 2.1 Sport Whanganui has been paid totally \$842.87.
- 2.2 The remaining funds available to the committee are **\$3,324.32**

3. Applications

- 3.1 Application received from the
- 3.1.1 Marton Food Pantry
- 3.1.2 Marton Boxing
- 3.1.3 New Craft Group
- 3.2 Staff will be in attendance to support writing of the resolutions.

Attachments:

1. **Application- Marton Food Pantry** [↓](#)
2. **Application - Marton Boxing** [↓](#)
3. **Application - Craft Group** [↓](#)

Recommendation

That the report 'Small Projects Fund Update –April 2025' be received.

Application to Marton Community Committee Small Projects / Grants FundSubmissions deadlines: 28th of Jan / Mar / May / Jul / Sep / Nov for consideration at the next Committee Meeting.

Applicant	Sue Wells
Organisation (if applicable)	Marton Food Pantry
Contact Address	51 Harris St, Marton 4710
Telephone	0212014483
Email	bswells83@gmail.com
Amount Requested	\$ 600.00
Project Title	Brief title eg Paint road side wall of Community Hall / Promote a "Have a go day" / Set Up "...." Activity. Purchase aprons for volunteers to wear
Detail	Please provide an overview / explanation of what you hope to achieve with this request. Purchase aprons for our operations, with current logo and to fit more sizes. Current aprons are 6 years old, and worn, and have our old logo. These help to identify volunteers to our clients, and to protect their clothes from damage by food and drink. We also currently have insufficient numbers of aprons.
Beneficiaries	Who / how many people do you anticipate could benefit from this support? 20
Supporting Documentation	Are quotes or estimates attached? If quote(s) or estimate(s) are not available or relevant, an indication of costs would be useful – eg screen shots from websites or links to them. Estimates are \$170.20 for screen-printing, and aprons cost \$3-400(for 20).
Alternative Funding	What efforts have been (or will be) made to source funding? What level of success has been achieved? If the total amount requested is not approved, how will you make up the shortfall? We are not applying to any other organisations to fund these. If not approved, we will need to defer this project.
Bank Details	Please attach confirmation of your bank account, eg provide a deposit slip or an screenshot / image showing your bank account name and number (no transactions need to be provided).

The purpose of the fund is to assist entities with the purchase of small items or additional services which are not included in Council's operating budgets and which will benefit the local community. Examples would be signage, park furniture, plants, paint, a leaflet or other publication or an event, including implementing community-led initiatives.

Applications are normally expected to be for the benefit of the whole Community (not for individuals or small groups eg only club members). More than one application can be submitted in any financial year.

Applications cannot be for:

- Provision of training or conference attendance.
- Additional payment(s) for goods or services subject to a contract with Rangitikei Council.
- Amounts which exceed the Committee's annual allocation.

If you have any queries regarding your application please contact a committee member (or call 021-342-524).

Send request to: Marton Community Committee: martoncc.cab@gmail.com or deliver c/o 7 Dalrymple Place, Marton.

Application to Marton Community Committee Small Projects / Grants FundSubmissions deadlines: 28th of Jan / Mar / May / Jul / Sep / Nov for consideration at the next Committee Meeting.

Applicant	LewisLye
Organisation (if applicable)	Marton Boxing
Contact Address	57 High Street Marton
Telephone	0277158584
Email	martonboxing@gmail.com
Amount Requested	\$4500.00
Project Title	Brief title eg Paint road side wall of Community Hall / Promote a "Have a go day" / Set Up "...." Activity. Paint the remainder exterior of the Marton Boxing building, and add flood lights.
Detail	Please provide an overview / explanation of what you hope to achieve with this request. This building was left in a derilict state after covid. We moved into it and have renovated it, bit by bit as we are able to. We would like to spruce up the rest of the outside of the building to match the inside, to give our users and community a sense of pride in the area, especially with the upgrade and installation of the awesome new flying fox at James Wilson Park. We would also like to install flood lights outside to light the way into the building at night. During winter, it is pitch black dark by 6pm, our kids classes finish up around 630pm, its super dark outside. We'd like to purchase lighting to increase safety and security of this area of the park.
Beneficiaries	Who / how many people do you anticipate could benefit from this support? Every user of the gym - Approx 60 General community, dogwalkers, cyclists, users of the park
Supporting Documentation	Are quotes or estimates attached? If quote(s) or estimate(s) are not available or relevant, an indication of costs would be useful – eg screen shots from websites or links to them. <small>We recently had one of the smaller walls done at \$1000 by a popular local artist. That was for paint and time spent. He is interested in supporting us further. We have 3 walls to go. The link to his work is https://www.facebook.com/kingglassnz See our attached document for lighting options. We need a minimum of 4 lights</small>
Alternative Funding	What efforts have been (or will be) made to source funding? What level of success has been achieved? If the total amount requested is not approved, how will you make up the shortfall? We are applying all over for funding for various different things! So we will continue to fundraise (Sausage sizzles, muck outs, woodchopping to name a few) and apply to different funders
Bank Details	Please attach confirmation of your bank account, eg provide a deposit slip or an screenshot / image showing your bank account name and number (no transactions need to be provided).

The purpose of the fund is to assist entities with the purchase of small items or additional services which are not included in Council's operating budgets and which will benefit the local community. Examples would be signage, park furniture, plants, paint, a leaflet or other publication or an event, including implementing community-led initiatives.

Applications are normally expected to be for the benefit of the whole Community (not for individuals or small groups eg only club members). More than one application can be submitted in any financial year.

Applications cannot be for:

- Provision of training or conference attendance.
- Additional payment(s) for goods or services subject to a contract with Rangitikei Council.
- Amounts which exceed the Committee's annual allocation.

If you have any queries regarding your application please contact a committee member (or call 021-342-524).

Send request to: Marton Community Committee: martoncc.cab@gmail.com or deliver c/o 7 Dalrymple Place, Marton.

Application to Marton Community Committee Small Projects / Grants Fund
 Submissions deadlines: 28th of Jan / Mar / May / Jul / Sep / Nov for consideration at the next Committee Meeting.

Applicant	Chloe Gaskin
Organisation (if applicable)	Marton Crafters
Contact Address	1 Kensington Road, Marton 4710
Telephone	021 2399076
Email	tumblealot@googlemail.com
Amount Requested	\$ 200.00
Project Title	Brief title eg Paint road side wall of Community Hall / Promote a "Have a go day" / Set Up "...." Activity. Advertising a new craft group and getting provisions for our first meeting.
Detail	Please provide an overview / explanation of what you hope to achieve with this request. I hope to be able to place an advert in the local paper to let the community know that this group has been created. The group will meet once a month and will bring like minded people together and strengthen community ties. I could also advertise on facebook as that is the main platform I'm using for the group. I will need to get tea/coffee provisions for the meetings also.
Beneficiaries	Who / how many people do you anticipate could benefit from this support? So far I have 30 people in the group but it is growing. Anyone who is creative in the Marton/Bulls/Surrounding area is welcome to attend. I hope this group will help many people by promoting PTO.
Supporting Documentation	Are quotes or estimates attached? If quote(s) or estimate(s) are not available or relevant, an indication of costs would be useful – eg screen shots from websites or links to them. I am in the process of waiting for quotes from relevant businesses.
Alternative Funding	What efforts have been (or will be) made to source funding? What level of success has been achieved? If the total amount requested is not approved, how will you make up the shortfall? I'm not sure what other sources I can look to for funding.
Bank Details	Please attach confirmation of your bank account, eg provide a deposit slip or an screenshot / image showing your bank account name and number (no transactions need to be provided).

The purpose of the fund is to assist entities with the purchase of small items or additional services which are not included in Council's operating budgets and which will benefit the local community. Examples would be signage, park furniture, plants, paint, a leaflet or other publication or an event, including implementing community-led initiatives.

Applications are normally expected to be for the benefit of the whole Community (not for individuals or small groups eg only club members). More than one application can be submitted in any financial year.

Applications cannot be for:

- Provision of training or conference attendance.
- Additional payment(s) for goods or services subject to a contract with Rangitikei Council.
- Amounts which exceed the Committee's annual allocation.

If you have any queries regarding your application please contact a committee member (or call 021-342-524).

Send request to: Marton Community Committee: martoncc.cab@gmail.com or deliver c/o 7 Dalrymple Place, Marton.

ITEM 10.5 ATTACHMENT 3

Beneficiaries ~~are~~: Self care, encouraging positive mental health and ~~providing~~ providing a friendly environment to meet new people, all the while enjoying and progressing with your craft.

10.6 Project Updates Report - March 2025**Author: Arno Benadie, Chief Operating Officer****Authoriser: Carol Gordon, Chief Executive****1. Reason for Report**

- 1.1 This is a monthly report on progress on significant projects currently being delivered by Council's Project Office.

2. Key Highlights from Current Projects**Wastewater Projects****2.1 Marton to Bulls Wastewater Centralisation (Project Manager – Steve Carne)**

- 2.2 Investigative work on the five shortlisted options previously identified involving disposal scenarios related to land only (1 No.), land-river combination (3 No.) and deep bore groundwater recharge options. (1 No.) is well advanced with a programmed completion of these investigations in late April 2025.
- 2.3 The late February publication of new Draft National Wastewater Discharge Standards by water industry quality regulator Taumata Arowai now means we can incorporate its contents into project considerations. Initial review indicates waterway discharges will require a far lower treatment standard than the current Horizons One Plan requirements. Further clarity has been obtained on requirements for land discharge although the draft Standards are silent on groundwater discharges.
- 2.4 Consideration of rationalisation of the short-listed options is currently being given, with a river discharge option likely to be investigated as a result of the Standards.
- 2.5 It is proposed Steve Carne facilitate a discussion at the next Assets / Infrastructure Committee workshop on 10 April to outline implications of the standards on RDC's wastewater networks and treatment plants district wide.
- 2.6 Prioritised investigative works carried out by the team thus far have concluded that the RDC purchased land will not be able to dispose of more than 65% of current design flows. A land disposal solution will require more land, adding to its costs. This is currently being assessed by the project team.
- 2.7 Other current works are investigating the feasibility of retaining some treatment capability of the existing ponds at Marton and Bulls by way of their refurbishment and better understanding the feasibility of the groundwater discharge option.
- 2.8 Our contracted planners, Good Earth Matters (GEM), is continuing work on preparing for the consent application to follow the site investigations. The new consent application will be dependent on the findings of these investigations.
- 2.9 Dialogue with ANZCO Bulls is ongoing to determine the feasibility and appropriateness of incorporating their discharge into the Bulls plant inlet. ANZCO Bulls would become a trade waste customer of RDC under this scenario. Iwi have indicated that a single discharge at this point would be viewed more favourably by them as part of the consenting process.

ITEM 10.6

- 2.10 Value engineering inputs on the shortlisted options have considered demand management scenarios involving inflow/infiltration reduction and reduction of water consumption.
- 2.11 Identification of a preferred option is programmed for mid-May 2025.
- 2.12 A community awareness and engagement campaign is currently being formulated which will have preparatory information released in the 2025 calendar year but needs to be coordinated with other campaigns around Local Water Done Well reforms.
- 2.13 Agreement from the 2 relevant Iwi has been gained for the pipe bridges on the Marton-Bulls pipeline. This will permit finalisation of the consent and then construction of these pipe bridges by RDC.

Water Projects**3. Marton Water Strategy (Project Manager – Steve Carne)**

- 3.1 A draft contract and warranty conditions has been tabled to contractor GFS. The finalised warranty condition will be presented to Council for consideration. Contract negotiations are underway.
- 3.2 The trial pilot plant is shortly going to be relocated to the reservoir Bore site. Further testing of pre-treatment and the proposed waste stream recycling regime will be a key part of this phase of the pilot testing.
- 3.3 Queries and clarifications submitted by Council officers and agents are providing further detail on GFS' offer and reduce RDC risk exposure due to insufficient detail around various items. Responses to these clarifications and queries have been obtained and are being considered.
- 3.4 A design consultancy with WSP has almost completed design of the inlet work. This is inclusive of a permanent pump for the new Reservoir Bore.
- 3.5 Details of the waste stream from the proposed plant are being evolved and are likely to involve recycling this stream through partial use of the existing clarifiers and filters infrastructure. The intent of this recycling is to reduce the overall waste discharge down to a level that is near that of the existing discharge and in doing so, reduce the amount of water taken from the bores. Additional works associated with this solution may be the subject of negotiations with the GFS contract.
- 3.6 Details of the proposed warranty and guarantee of plant performance are being finalised with the contractor.
- 3.7 Consent application approval for the water take has been received in preliminary form.
- 3.8 Staff are working towards a communication strategy.

Community Facilities**4. Marton Offices and Library (Project Manager - Eswar Ganapathi)**

- 4.1 Council has authorised staff to proceed with the Emergency Operations Centre (EOC) as a separate project independent of the Marton Offices and Community Hub.

- 4.2 Staff have engaged Planning Engineers and Independent Urban Design Review consultant for the EOC project. Both these teams will work towards a holistic approach for the project but keep the reporting independent for the two developments.
- 4.3 An initial site inspection and discussion with RDC took place on Thursday 20 March 2025.
- 4.4 Staff had discussions with Team Architects regarding their impending appointment for the EOC project.
- 4.5 From the tender responses for the Marton Offices and Community Hub project, staff have identified a Geotechnical Specialist and a Soil Contamination survey specialist to conduct detailed investigations for Soil Contamination and to identify buried tanks. These surveys will be directly managed by RDC, and the findings shall be forwarded to the final selected Design and Build Contractor.
- 4.6 Staff provided a project progress update via email to Len Hetet from Baked Design.
- 4.7 The tender process for the Marton Offices and Community Hub concluded on 17 March 2025 with staff are in the process of selecting the preferred Design and Build contractor. A separate report will be brought to Council seeking approval to enter into a contract with the preferred contractor.

5. Marton Swim Centre Structural Remediation

- 5.1 RDC engaged experts to complete a comprehensive asset condition assessment of the entire Marton pool facility.
- 5.2 This condition assessment includes all the buildings, the pool, the pool pipework and all associated filter and heating equipment. The engineers completed a two-day site investigation that covered all the items mentioned above.
- 5.3 This work has now been completed and a comprehensive asset condition report has been received early in February. The report identifies all asset renewals and upgrades that will be required to get the facility to comply with current requirements, and identified asset that will need upgrades in the short, medium and long term.
- 5.4 Phase 2 of the investigations will add costs to all identified upgrades and then prioritise the upgrades to clearly group them in like for like renewals or refurbishments of the facility for increased customer experience and a long-term vision of what the facility could be to reduce operating costs and increase use of the asset.
- 5.5 The Phase 2 work has now been completed and a more detailed summary report on the findings of the work will be presented to Council at this March 2025 Council meeting.

6. Financial Implications

- 6.1 This report does not identify and financial implications.

7. Impact on Strategic Risks

- 7.1 No impacts on strategic risks

8. Strategic Alignment

- 8.1 All projects are aligned with strategic goals.

9. Mana Whenua Implications

ITEM 10.6

9.1 All Mana Whenua implications are managed by the individual projects.

10. Climate Change Impacts and Consideration

10.1 There is no climate change impact.

11. Statutory Implications

11.1 There are no statutory implications.

Recommendation 1

That the report 'Project Updates Report – March 2025' be received.

11 Discussion Items

11.1 Where's Annual Plan & Co @ Rangitikei?

Author: Sophia Sykes, Communications Manager

1. Where's Annual Plan and Co @ Rangitikei?

- 1.1 From Friday 4th April – Monday 5th May 2025, Rangitikei District Council are consulting on the Annual Plan 2025/26. This document outlines how Rangitikei District Council plans to prioritise its time and resources in the 2025/26 financial year.
- 1.2 As part of this consultation, we are also asking for community feedback on:

2. The Rangitikei District Waste Management and Minimisation Plan

- 2.1 Council has a legislative requirement to review its Waste Management and Minimisation Plan (WMMP) every 6 years. This plan sets out the vision, objective and goals for minimising and managing waste in the Rangitikei.
- 2.2 The proposed approach to managing and minimising waste is not significantly different from the 2018-24 WMMP. The proposed vision has been updated to better reflect the New Zealand Waste Strategy. This proposed vision is *'To maintain a healthy and protected environment for Rangitikei by reducing our impact on the environment.'* Three new goals have also been drafted to help Rangitikei achieve this vision.

3. Proposed Schedule of Fees and Charges 2025/26

- 3.1 Council reviews its Schedule of Fees and Charges every year. Some fees and charges are set by legislation and therefore remain unchanged. Other fees and charges have been increased to reflect the actual cost increase of delivering that service. The remaining fees and charges have been increased by 2.3%, the CPI index provided by BERL before being rounded.
- 3.2 In addition, a number of changes outside this scope have been proposed as outlined below.

4. Cemeteries

- 4.1 A full review of the cemeteries fees and charges has taken place. The price of purchasing plots and interment fees have increased to cover the costs of creating and maintaining these plots. Of note stillborn and infants up to the age of one will now receive a plot free of charge and will continue to be interred for free. Children over one years old are proposed to be charged under an "All Plots" category. The Rose Berm Mt View and monumental permit are also proposed to be removed.

5. Regulatory

- 5.1 New seizure and rehoming fees are proposed to cover the cost of seizing and rehoming animals.
- 5.2 A charge has been included to allow alcohol licensees to put their public notice on Council's website instead of going in the newspaper, providing them a cheaper option.

6. Three waters connection

ITEM 11.1

- 6.1 A new connection fee will be charged to cover administration and inspection costs for any new water, stormwater and wastewater service connection.
- 6.2 A new bond will also be added for any new connection. This bond would be fully refundable if this work does not damage Council roads or footpaths.
- 6.3 The definition of extraordinary water users has been updated to capture any residential property with a pool.

7. Roothing

- 7.1 A new bond is proposed for new vehicle crossings. This bond will be fully refundable if this work does not damage Council roads or footpaths.

8. Hall Charges

- 8.1 The structure of the hire costs of the hall and meeting rooms at Te Matapihi has been simplified.
- 8.2 All other meeting rooms and halls for hire in the district have been updated to have the same discount structure for multi-hour and not-for-profit bookings.

9. Dangerous, Affected and Insanitary Building Policy

- 9.1 The Building Act 2004 requires Council to review its policy on dangerous, affected and insanitary buildings every 5 years. This policy provides Council with a means to ensure that dangerous and insanitary buildings are improved to meet building code standards, and affected buildings do not pose a risk to occupants.
- 9.2 All supporting material and draft documents for 'Where's Annual Plan & Co @ Rangitikei' can be found on our website: www.rangitikei.govt.nz/wheres-annualplan-andco
- 9.3 We encourage community leaders to take this consultation as an opportunity to connect with the Rangitikei communities they serve. Council welcomes feedback from anyone who calls Rangitikei home. Submission forms can be found on our website (www.rangitikei.govt.nz/wheres-annualplan-andco) or picked up from local Rangitikei Community Hubs.

11.2 Horizons Passenger Transport

Author: Carolyn Bates, Chair

1. Reason for Report

- 1.1 This item is included to discuss the Horizons Passenger Transport Committee and the opportunity to submit on the Horizons Regional Council Annual Plan.

Recommendation

If needed:

12 Meeting Closed.
