## **7 Chair's report**

A report will be provided at the meeting.

## **8 Council decisions on recommendations from the Board**

There were no recommendations made to Council at the previous meeting.

## **9 Update from Te Roopu Ahi Kaa**

Mr Mete will provide a verbal update from the Komiti's meeting earlier on 11 June 2019.

### **Recommendation:**

That the verbal update on Te Roopu Ahi Kaa's meeting on 11 June 2019 be received.

## **10 Update on Water Supply upgrade**

On the advice of treatment experts engaged to look at the water quality issues, two operational changes has been made to the treatment process with positive results. Although the water quality leaving the plant has improved, it will take some time for the supply network to adjust to the slight change in water quality. As discussed with many residents during house visits, it is important that residents run their taps daily for as long as possible to allow the new water quality to run through the network and improve the situation. Weekly flushing of the network will continue for as long as needed. If any residents notice any deterioration of the current water quality please contact the Council office and let us know

## **11 Update on wastewater treatment plant (and meetings of reference advisory group)**

The update below (provided to the Board's last meeting) is still current:

The proposed programme to enable the installation of a land-based disposal of treated effluent (i.e. removal of discharge to Lake Waipu) started July 2018 (as per the agreement with the Ministry for the Environment). Consideration is now being given to identifying the most suitable land for this disposal, following which purchase will be negotiated with the owner. Discussions with landowners are now underway.

As noted in previous reports, an application for a new consent was lodged by 30 April 2018 (the extended timeframe agreed to by Horizons), which means the existing consent continues to apply until a new consent is issued.

Horizons consenting and land purchase are underway, there have been delays caused by land purchasing issues.

## **12 Update on Rātana playground project**

A verbal update will be provided.

## **13 Development of road safety strategy**

The Ministry of Transport will shortly be seeking public feedback on a new road safety strategy that aims to meaningfully reduce the trauma on our roads.

Currently, more than one person is killed every day on our roads, and another seven are injured. The effects of this trauma on families, communities, and the nation is devastating.

Our roads can be challenging and the consequences of small errors can be fatal. We need to improve the safety of our vehicles, our roads and our speeds, so that simple mistakes don't turn into tragedies.

The new strategy will propose a Vision Zero approach to road safety that says that deaths and serious injuries on our roads are unacceptable and preventable. Many countries that have taken a Vision Zero approach have significantly improved the safety on their roads over time.

We also know that travelling on our roads and footpaths can be stressful for many people at times, and we can do more to make this safer and more pleasant for all of us. A safe road transport system ensures that people feel safe to walk or bus or bike, and ensures we design our towns and cities as places people want to be in, not just to travel through.

The draft strategy will propose a vision, some principles for decision making and focus areas for action, and a list of priority interventions. The Ministry of Transport is keen to hear your views when the consultation opens mid-2019.

You can find out more at [www.transport.govt.nz/roadsafetystrategy](http://www.transport.govt.nz/roadsafetystrategy) and sign up to stay informed about the consultation.

## 14 Outcome of SmartyGrants review

At its meeting on 30 May 2019, the Finance/Performance Committee considered a report on Smartygrants™ (the platform facilitating Councils community funding programmes). That report included input from the nominated assessors from each Community Board/Committee. The decisions taken were:

- That the Finance/Performance Committee endorses the continued participation by nominated members of Community Committees/Boards in the initial evaluation of grant applications.
- That the Finance/Performance Committee accepts the findings and remedial actions of staff to continue the use of Smartygrants™ for the 2019/2020 funding rounds.
- That a report be provided to the Finance/Performance Committee before the end of 2019 on using the Council's website to receive grant applications (and facilitating their administration) as an alternative to renewing the contract with Smartygrants™.

The following summarises the process improvements moving forward for the next funding round:

- Where Smartygrants™ is used, all nominated assessors will be contacted by phone or email when applications have been uploaded and are ready for assessment *and* at the start of the week when the assessments are due to be completed. This also will provide assessors with a chance to ask questions about the process or seek clarification about any of the applications. A meeting (including access by conference call) will be offered to the assessors.
- Staff will advise assessors that their commentary will form part of the public report that will be considered by the Finance/Performance Committee.
- The report to the Finance/Performance Committee will be included in the distributed Order Paper rather than being presented at the meeting.
- Applications for the next funding round will be brought forward by two weeks to ensure that assessors have access to the applications in Smartygrants™ together with an accompanying summary report and that the report to the Finance/Performance Committee is completed in time.

- An applicant will not receive funding if assessors support falls under 45%.

## 15 Update on Town Signage

Noting the recent social media postings and complaints received by staff, the newly installed Rātana township sign (as approved by Rātana Community Board Resolution: 18/RCB/024) has received requests for alteration. The requests stem from failing to include the word Pā on the sign, which unfortunately cannot be added by way of alteration. If the inclusion of 'Pā' was requested it would come at the cost of a replacement sign; being \$850 (for the sign, delivery and installation).

Additionally, on 2 May 2019, Council approved by way of resolution (19/RDC/104) the adoption of the Māori Language Commission's orthography for all its reports, publications and signage, through a soft rollout process. This means that the macron will be used where recommended by the Māori Language Commission. Council support of this reflects its position in playing its part in supporting the use of Te Reo Māori. A copy of the revised sign, reflecting the amendments and orthography is below.

## 16 Other matters raised at previous meeting

There were no other matters raised at the previous meeting.

## 17 Cemetery register alignment

Council's records show two new burials, HUIA Te Aroha, row 13, plot 292, on 13 April 2019 and WERETA Tumanako, row 13, plot 286, on 18 April 2019.

## 2 Youth Council

Youth Council met in Marton Council Chambers on 28 May 2018. The main items of the meeting were:

- Youth Councils involvement in organising the local election 'Meet the Candidates' events throughout the district
- How to obtain a more diverse and authentic youth perspective across the district, involving larger numbers of youth.

### 3 Marton Centennial Park Skatepark

After receiving seed-funding from Council, the The Marton Centennial Park and Skate-park Development Committee with support of the Rotary Club of Marton, together worked tirelessly for three years to raise external funding to bring this project to fruition. This has been an excellent example of a community-led council-supported project. The grand opening took place on Saturday 25 May with 100's of people attending including major sponsors. Speeches were kicked off by VChay Hemopo, the son of the Pania and Ray who initiated and led the project. His Worship the Mayor cut the opening ribbon before youth took to the new park. The day included scooter and skate competitions with amateur, semi-pro and professional riders attending from throughout New Zealand. Following the opening day the skatepark has remained well used and the community requested that night lighting be installed. Project Marton have been working with the local Police to install security cameras focused on the area. The Marton Centennial Park and Skate-park Development Committee are continuing to further develop and complete the family area which will include seating, shade, and BBQ's.
