17 Outcome of consultation on priority buildings – Building (Earthquake-prone buildings) Amendment Act

Under the new system for managing earthquake-prone buildings Council was required to consult with the community on areas where the strengthening of earthquake-prone buildings should occur faster (in half the time) due to their location in areas where there are high numbers of people or traffic – ‘priority areas’. Council undertook consultation with the community during October 2017, with proposed priority areas in Bulls, Marton, Hunterville and Taihape. A total of 22 written submissions were received, with 5 submitters choosing to speak at the oral hearing. The majority of submissions were opposed to the proposed priority areas, expressing concerns about the economic viability of the proposal. Following this feedback from the community Council decided to adopt ‘**no priority areas**’. This means that Council will have 5 years to identify potentially earthquake-prone buildings and building owners will have 15 years to strengthen buildings after being issued an earthquake-prone building notice. Nevertheless, Buildings (such as medical centres, police stations and schools) will still be considered as priority (and have reduced timeframes) under section 133AE of the Building (Earthquake-prone Buildings) Amendment Act.
