1 Introduction

- 1.1 Following a request from the Taihape Community Board, GHD has recommended that the speed limit along the whole length of Dixon Way and the short sections of Otaihape Road and Mangaone Valley Roads which link Dixon Way with State Highway One be lowered from 100km/h to 50km/h.
- 1.2 The Taihape Community Board accepted delegated responsibility at their meeting in April to undertake deliberations following consultation with the public about an amendment to this effect and has agreed to provide a recommendation back to Council following this meeting.
- 1.3 This report highlights the key Concerns for Taihape Community Board to consider in regard to the Speed Limit Bylaw Amendment 2018. It provides an overview of the key issues from the submission process and provides recommendations for how to proceed.

2 Legislative Requirements

- 2.1 The Speed Limit Bylaw is a legal requirement under the NZTA Setting of Speed Limit Rule 2017. Councils (as a Road Controlling Authority or RCA) are required to develop bylaws that allow speed limits on roads within their respective areas. The bylaw is formed under the requirements of the Local Government Act 2002.
- 2.2 The setting of speed limits rule gives power to Road Controlling Authorities (RCAs) to set speed limits that:
 - In the RCA's view are, safe and appropriate
 - Are consistent with speed management throughout New Zealand
 - Are of a reasonable and safe length
 - Have speed limit change points located at, or close to a point of significant change in the road environment
 - Have taken into account submissions received during consultation

- Have regard to any other factor the RCA considers relevant to achieving travel speeds that are safe and appropriate to the roads
- Aim to achieve a mean operating speed less than 10% above the speed limit

3 Consultation and Submissions

- 3.1 The consultation requirements are those prescribed in section 156 of the Local Government Act 2002. In this case, use of the special consultative procedure was not needed; the principles in section 82 were applied. The consultation period ran for one month, with written submissions being accepted between 18 April and 18 May 2018. Residents in the area where the changes are planned to occur were mailed a letter about consultation, the draft bylaw/ associated map and a submission form. This information was also available on the Council website. Stakeholders were sent a summary of information and maps which showed the proposed changes and were provided with advice about how to make a submission to Council.
- 3.2 A total of 11 submissions were received regarding the proposed changes, with no submitters electing to speak to their submission.

4 Analysis

- 4.1 Copies of the submissions are attached as Appendix 1. Of the 12 submitters, 8 supported changing the speed limit to 50km/h, 3 did not support changing the speed limit to 50km/h and one was neutral. Of the submissions, 11 included comments on the proposed
- 4.2 Key themes from the submitters were:
- The area experiences high foot traffic from pedestrians, due to residences and the two backpackers
 - There is no footpath for pedestrians, meaning they have to walk on the road
 - The proposed speed is appropriate for the surrounding environment, given the narrowness of the road and that it is partially unsealed and that it is unmarked
 - The area around the cemetery (access off State Highway One) could also warrant a reduced speed limit for safety reasons - there were four submissions which alluded to this argument. It is not within Council's jurisdiction to alter a speed limit in this area.
- 4.3 Of the two submitters that were opposed, one formed the view that 70km/h rather than 50km/h was appropriate. The other submission that was in opposition formed the view that due to the nature of the road, it could only be driven at a low speed and therefore a formal reduction would not make a difference and was a waste of Council's resources.
- 4.4 Overall, the submissions supported the proposed change to Dixon Way as it would increase safety, particularly to pedestrians.

5 Comment

- 5.1 There was one submission which formed the view that the speed limit ought to be lowered but to 70km/h. Another comment was to the opposite effect, in that they agreed with a lowered speed limit, but 30km/h would be more appropriate for the nature of the road.
- 5.2 It should be noted that under the Setting of Speed Limits 2017, to set a speed limit of 70km/h is only able to be done with approval of the NZ Transport Agency. This is a speed limit that is no longer to be commonly imposed since the imposition of the new rules, so rather 80km/h limit would be the nearest option to avoid having to obtain NZTA approval. As this speed is markedly different from what has been consulted on, and to adopt this speed limit legally, Council would need to consult again to obtain views from the community.
- 5.3 Only one stakeholder submission was received, it did not comment on the proposed amendment, but requested a supplementary a report about the speed limit change. This will be provided following deliberations. This submission has been classed as neutral.
- 5.4 The majority of submissions were from residents in the area, who were mailed a letter as part of consultation. Only three submissions received were not from residents in the area.

6 Recommendations

- 6.1 That the report 'Deliberations on the Speed Limit Bylaw Amendment 2018 – Dixon Way' be received.

- 6.2 EITHER

That the Taihape Community Board recommends to Council that an amendment to the Speed Limit Bylaw be made as to reduce the speed limit from 100km/h to 50km/h along the whole length of Dixon Way and the short sections of Otaihape Road and Mangaone Valley Roads which link Dixon Way with State Highway One.

OR

That the Taihape Community Board recommends to Council that not amendment to the Speed Limit Bylaw be made on Dixon Way and the short sections of Otaihape Road and Mangaone Valley Roads which link Dixon Way with State Highway One.

Comments:

So few people, who are
not local to, living
along the proposed
change-of-speed areas
would even "be" in
these "Roads" and "Way"
that it seems a
most expensive and
unnecessary use of
precious "funds" which
could surely be used
elsewhere (i.e. shoring up
areas prone to slips and/or
flooding i.e. Swan Street).
more appropriately and
with greater benefit to more of the population
of Taihape.

Also the "Roads" and "Way"
cited are narrow and it would
be a complete "reckless" drive
who travelled over them at more
than 50km anyway.

| Dixon Way Rd is narrow, has no road markings, + is frequently used by pedestrians (there are also no footpaths). Recently, in one morning, I observed the following pedestrians: 1x teenager, 1x Walking Pre-Schooler + 1x Toddler in Stroller 2x Adults + 1x Pre-Schooler 1x Adult + 1x Pre-Schooler on Bike 1x Adult + dog 1x Adult + dog 1x Backpacker. It is particularly risky for pedestrians when two vehicles are also on the road, travelling in opposite directions. | | | |

Comments:

I think a change to 70 Kmph would be more appropriate - The Main Road where it passes the Cemetery to Town should be altered to 70 Kmph. As well. The traffic speeds at 100 Kmph around that corner and its only a matter of time before there is a FATALITY on the Otaihape Road Junction. Also an appropriate NO TRUCK Exhausts BRAKE From Cemetery to the other side of Town.

Dixon Way Speed Limit Amendment

We agree with the proposal.

Now that Dixon Way is zoned Residential it should have the same benefits as other residential streets. It is sensible to extend the 50kph speed limit to the short section of Otaihape Valley Road and Mangaone Valley Road down to SH1.

We would recommend that Council plan for a future footpath alongside these roads and extending into Taihape township along SH1.

As SH1 has been signposted with a 75kph recommended speed limit around the cemetery, we do not think there is a major problem in convincing NZTA that a 70kph speed limit along SH1 from Mangaone/Rauma Roads to the current 50kph zones is a sensible limit, and provides safer travel for cemetery traffic, schoolchildren/traffic, walkers, traffic turning into and off SH1.

Yours sincerely

| Review the Waste Management and Minimisation Plan | This must be complete by 30 June 2018: Waste Management Act, section 50. Consultation will coincide with that undertaken for the 2018-28 Long Term Plan. The waste assessment (prescribed under section 51 of the WMA) must be complete before that review starts. Ideally, this work entails an analysis of all waste streams. However, as all kerb-side collection of waste in the District is done by private contractors, access to information about the characteristics of this waste is unlikely. This means the analysis is confirmed to waste taken to the waste transfer stations. Budget Waste takes its waste direct to the landfill. | Council LTP workshop held in December-Revised costings for various options tabled. | Draft WMMP 2018 out for consultation in association with LTP. |

Matters not arising elsewhere on the Agenda: Progress reports

1. Mangaweka Village toilets

The location of the toilet has been finalised with the Mangaweka Museum and its modified design.

However, despite the negotiations with the Museum and the New Zealand Transport Agency (over provision of off-street parking) this may not prove a feasible site because of one objection and the potential costs of a wastewater connection to the town's reticulated system.

2. Papakai and Memorial Park

Arrangements have been finalised for the location of the toilet at Papakai Park.

The toilet largely funded by the Government's Mid-sized Tourism Infrastructure Fund has been installed at Papakai Park

A concept plan is being finalised by Isthmus Group as the basis for the Friends of Taihape to seek external funding.

2. Former College site, Rauma Road

Colliers International, agents for the Ministry of Education, recently arranged for an inspection of asbestos risks in the Rauma Road buildings. As expected for buildings of this age and type, there is asbestos in both the gym and hall, but in all instances was found to be stable, bonded and rarely disturbed; the action taken is 'label, maintain seal and inform contractors'. A copy of the report is held on the premises. A further inspection will be held in twelve months' time.
