RANGITIKEI BEYOND

DRAFT COMMUNITY SPATIAL PLAN

Proud of our places and spaces

Ōtaihape Taihape

ŌTAIHAPE TAIHAPE

Taihape, the gumboot capital of the world, is the northern gateway to the Rangitikei.

Taihape celebrates its rural heritage, the mighty gumboot and has a strong sense of community.

Taihape provides easy access to the iconic mountains of the Central Plateau, the Rangitikei River, several national forest parks and the Hawke's Bay.

Located on the western bank of the Hautapu River, the town was built in a small basin surrounded by hills. Originally Taihape was a small natural clearing in dense bush, with the first European settlers arriving in 1894.

The remote location of Taihape provides challenges in accessing services, retirement housing and jobs. The underutilised rail line provides opportunity for improved connection to larger centres.

The gumboot - Taihape

VISION FOR *Taihape*

Taihape is an attractive and thriving town.
A great place to live, and a destination of choice for
travellers and tourists.

Key community priorities

- Housing.
- Development of parks and reserves.
- Public transport improvements – rail, local taxi, bus.
- Investing in Taihape as a destination.

Taihape at a glance

 **1,790** people live in Taihape. The population is nearly a third lower than it was 'back in its heyday' in the 1960s.

 **43%** of the population is between 30 and 64 years old

 **14** people per year (1% p.a) have moved to Taihape since 2014.

The GDP of the town is **90.3M**

 **1,009** people are employed. More than half of whom work in retail, accommodation and food services, agriculture, forestry and education.

 **231** businesses in Taihape.

Taihape has some unique and valuable soils and is already a producer of a range of foods in addition to traditional sheep and beef, such as quinoa, honey, asparagus, and garlic.

Key Themes

- 1 Suitable housing for all
- 2 Enhance Taihape as a destination
- 3 Manage competing land uses and support local business growth
- 4 Recreation and community facilities
- 5 Enhance and protect Taihape's heritage
- 6 Improved transport options

Key Spatial Moves

- RE Residential Expansion
- RI Residential Intensification
- IH Industrial Hub
- TC 'Right activity in the right place'
- TH Transport Hub

1

Suitable housing for all

Housing is a significant challenge for Taihape.

Flat land is limited and in high demand from both residential and commercial activities. Housing on the flat areas near the town centre is in demand by the elderly who need housing close to services.

Housing is required for workers, with a lack of housing being a key issue affecting the ability of local businesses to recruit staff. The risks associated with the Taihape West Slip area limits development in this area.

Around 5 homes have been built in Taihape since 2014.

The community is clear about the need for additional housing. There is support for medium density housing to be enabled throughout the whole town.

The most desirable features of a house were identified as being close to town, stand-alone and low maintenance. Community preference for the future of Rauma Road was for Residential.

Priorities

- > Encourage and enable infill development and medium density housing within the existing urban footprint to maximise the use of developable land and provide a range of housing types.
- > Identify and provide greenfield growth areas to ensure long-term housing needs can be met.
- > Enable a mix of residential density and typology in growth areas that enables a diversity of housing to be developed based on the varying topography of the site.
- > Reassess appropriate development for the Taihape West Slip Zone.
- > Ensure infrastructure is available to support housing growth.

Future residential and lifestyle growth

Taihape currently has 801 dwellings (2018 Census).

We anticipate up to seven homes will be needed each year to meet estimated growth projections. This is an additional 200 houses by 2050.

There is some land currently available for new houses, however we estimate that up to an additional 11 hectares of Residential land will be needed to accommodate projected growth.

	Residential	Rural Lifestyle	Total
 Number of houses – per year	6 houses	1 house	7 houses
 Number of houses – by 2050	190 houses	10 houses	200 houses
 Additional land required	11 hectares	0 hectares	11 hectares

A range of potential growth areas were assessed to determine their suitability for future development. The areas have been assessed as follows:

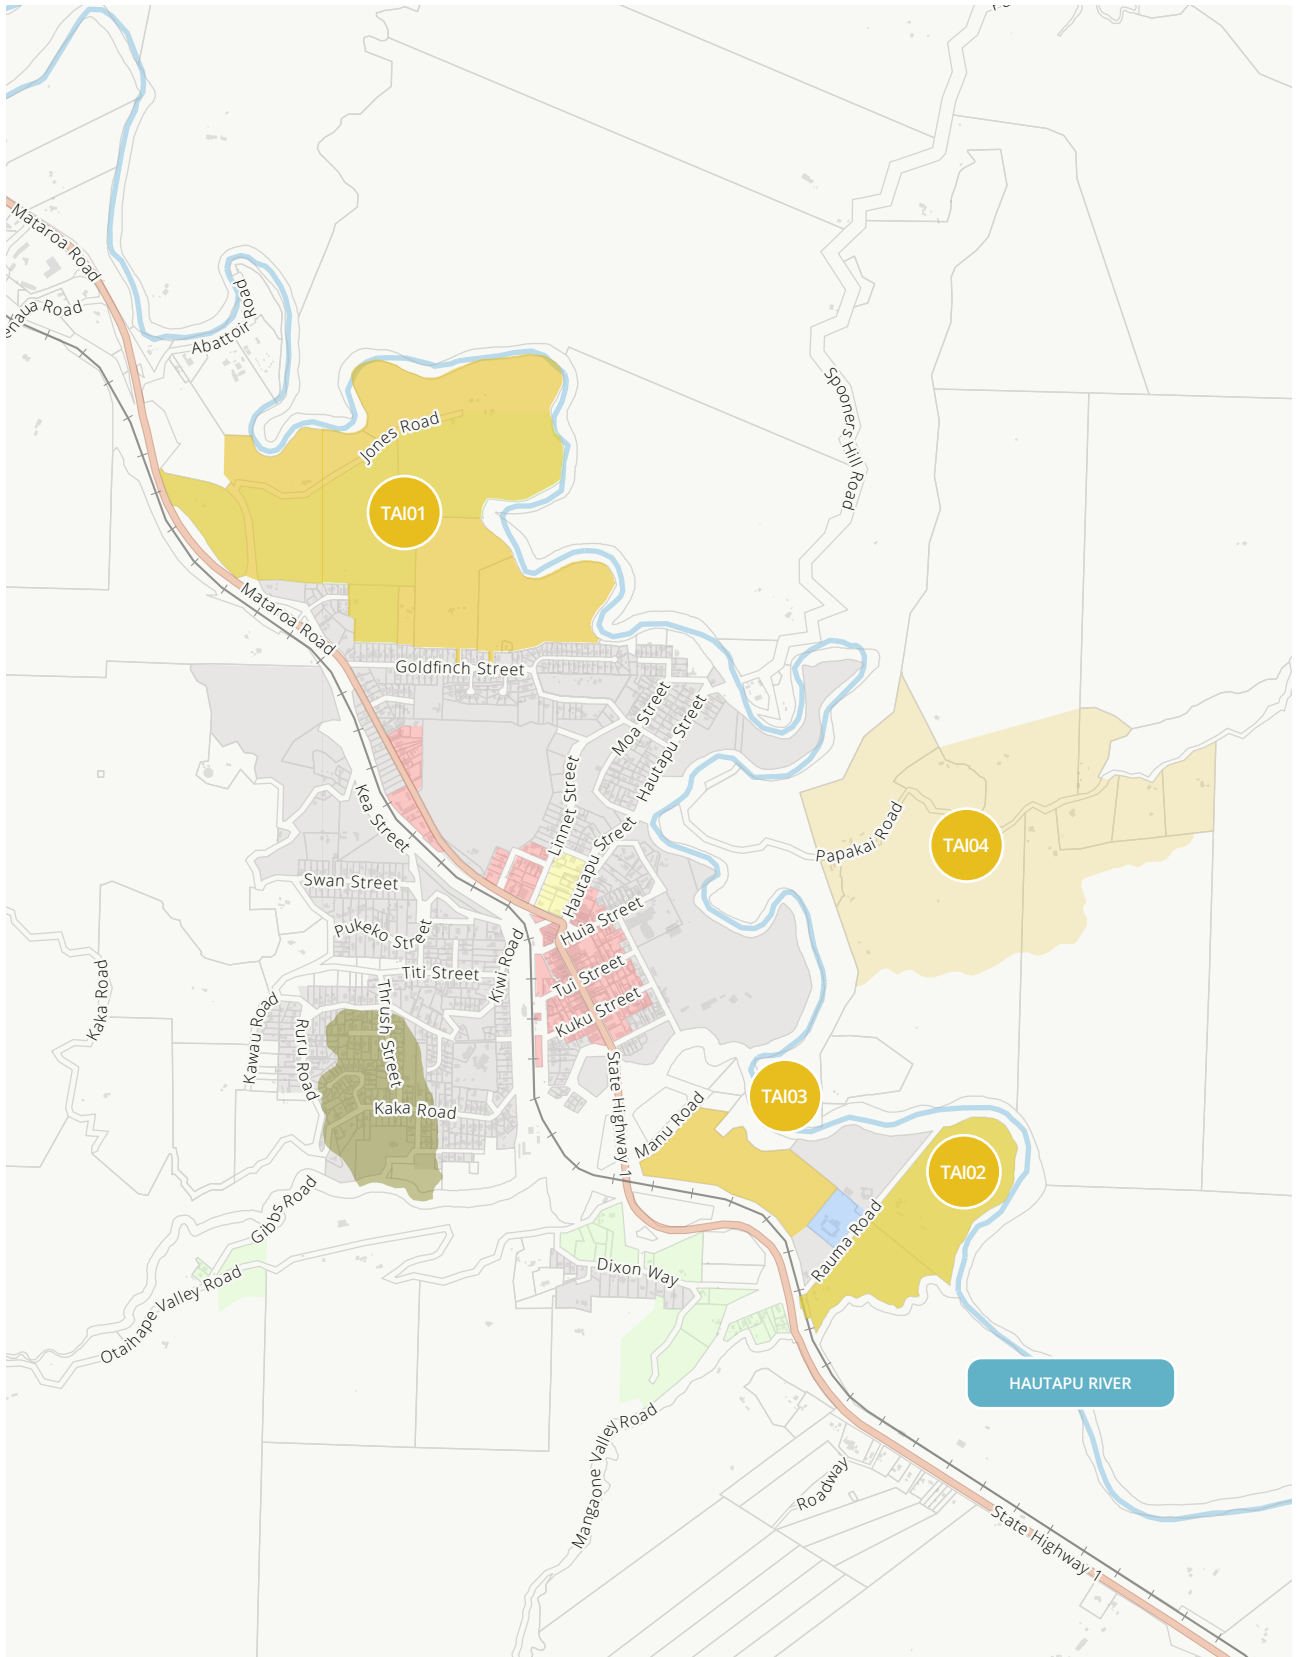

Area	Size	Suitability
TAI01 (Jones Road area)	85 hectares	Moderate
TAI02 (Rauma Road)	21 hectares	Moderate
TAI03 (Rauma Road / Manu Street)	12 hectares	Moderate
TAI04 (Papakai Road)	81 hectares	Low

Note: There may also be smaller properties on the fringe of the current Residential zone which may be appropriate for rezoning. These will be assessed through a District Plan change process.

Further work, including technical assessment, will be completed to refine the assessment of future growth areas, which may change this prioritisation. A detailed assessment of the growth areas is provided in Section 3.

Rauma Road Treaty Settlement properties

Two sites along Rauma Road, the existing St Joseph's Primary School site, and old Taihape College and farm site, are expected to be returned to iwi as part of Treaty Settlement negotiations. Council will work with iwi to support aspirations for these sites at the appropriate time.

2

Enhance Taihape as a destination

Taihape's location positions the town as a destination and as a stop for travellers.

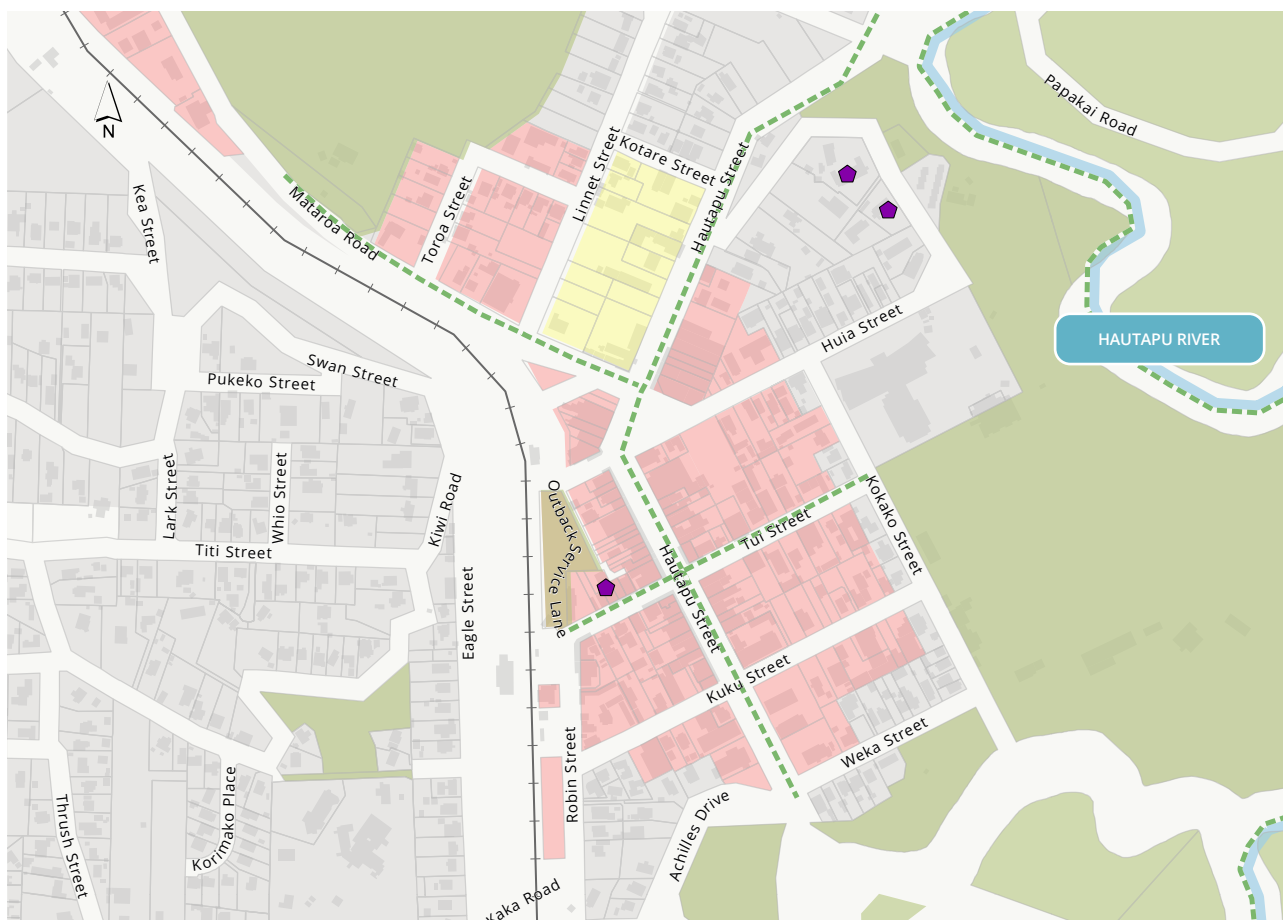

It is the gateway heading north to the volcanic plateau and for travellers heading south to the rest of the Rangitikei.

Approximately 6,500 vehicles travel through Taihape daily, with volumes higher during holiday periods.

Building Taihape's reputation as a great stop for travellers and visitor destination is a key opportunity and priority identified by the community.

Priorities

- > Enhance the entrances of Taihape to promote the town as the northern gateway into the Rangitikei.
- > Improve wayfinding throughout the town and promotion of Taihape's gumboot theme, key visitor attractions and the natural environment.
- > Link the Gumboot, Papakai Park and Memorial Park through the Taihape Town Centre via nature networks.
- > Invest in infrastructure that reinforces Taihape's role as a key stop for travellers.
- > Support the beautification of the Taihape town centre to increase its appeal and usability for locals and visitors.
- > Support the strengthening of earthquake-prone buildings and the establishment of new businesses that cater to the visitor market.
- > Work collaboratively to improve traffic flow through the Taihape town centre to encourage travellers to stop, support safe pedestrian and active mobility experience, and ensure efficiency for freight and heavy vehicles passing through.
- > Encourage the development of tourism businesses, focusing on opportunities associated with the natural environment.

3 Manage competing land uses and support local business growth

The Taihape town centre area contains a mix of retail, commercial, industrial, and residential uses. Industrial activities are also established to the north of the township.

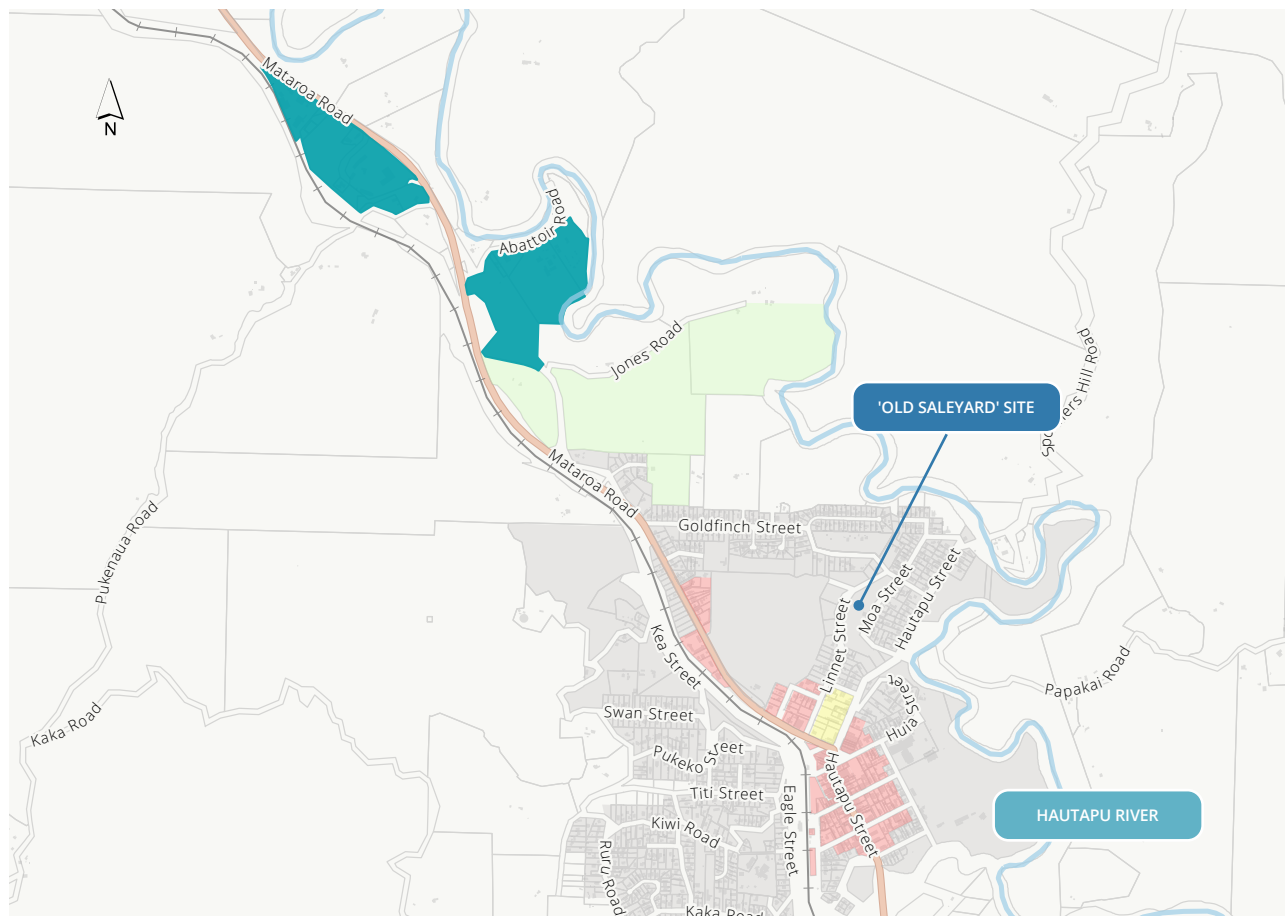

The topography of Taihape means there is competing pressure within the town centre from retail/commercial uses, industry and housing.

Significant opportunities exist for business growth associated with the visitor economy, and industries that support primary production, or that can leverage off Taihape strong links with State Highway 1 and the North Island Main Trunk Line.

Priorities

- > Maximise the use of space by encouraging the development of the 'right activity in the right place'.
 - Retail/hospitality/community services/offices on the ground floor of the core of the town centre.
 - Residential above ground floor in the core of the town centre and medium density residential on the periphery.
 - Industry/heavy commercial on the edge of town in the identified industrial hub.
- > Encourage the development of multi-storey buildings in the Taihape Town Centre as an efficient use of space that supports a mixed-use environment.
- > Work with businesses to enable the development of suitable housing for workers.
- > Invest in infrastructure to support business growth and establishment.

Commercial / Industrial Growth

Future Commercial / Industrial growth

We anticipate an additional 0.3 hectares of retail/commercial land and 2.9 hectares of industrial land will be needed to accommodate projected growth.

Future industrial growth is likely to leverage off the strong primary sector and add value to our primary products.

The 'Old Saleyards' site is an option for future commercial growth, with an industrial hub for Taihape identified to the North of the settlement.

Demand will need to be monitored to ensure opportunities for business establishment and expansion for Taihape are achieved.

	Commercial	Industrial
Projected demand	0.4 hectares	3.2 hectares
Expected Capacity (already zoned)	0.8 hectares	0.3 hectares
Land required	-0.4 hectares	2.9 hectares

“Most of the larger local employers started here and have grown rather than coming fully formed to the town, attracting outsiders may be possible but small local business should be encouraged and incentivised.”

4

Recreation and community facilities

Local recreation and community facilities are important to the Taihape community.

High quality community facilities can attract and retain residents and support community connection and wellbeing.

There is strong community leadership for the development of a range of facilities at Mt Stewart, Memorial Park, and Papakai Park.

Council is committed to developing a multi-purpose civic and community facility in Taihape and is investigating strengthening of the Grandstand at Memorial Park.

The construction of the Ngā Awa Block | Taihape Amenities Building in Memorial Park is almost complete. The building provides sports teams with modern changing facilities.

The community has high interest in the redevelopment of the Swim Centre. Recently, Council considered the feasibility of the all-year opening of the pool. In the short-term all-year opening is not a feasible option, but could be reconsidered in the future following population growth.

Taihape has an area school and a primary school that have capacity to cope with projected growth.

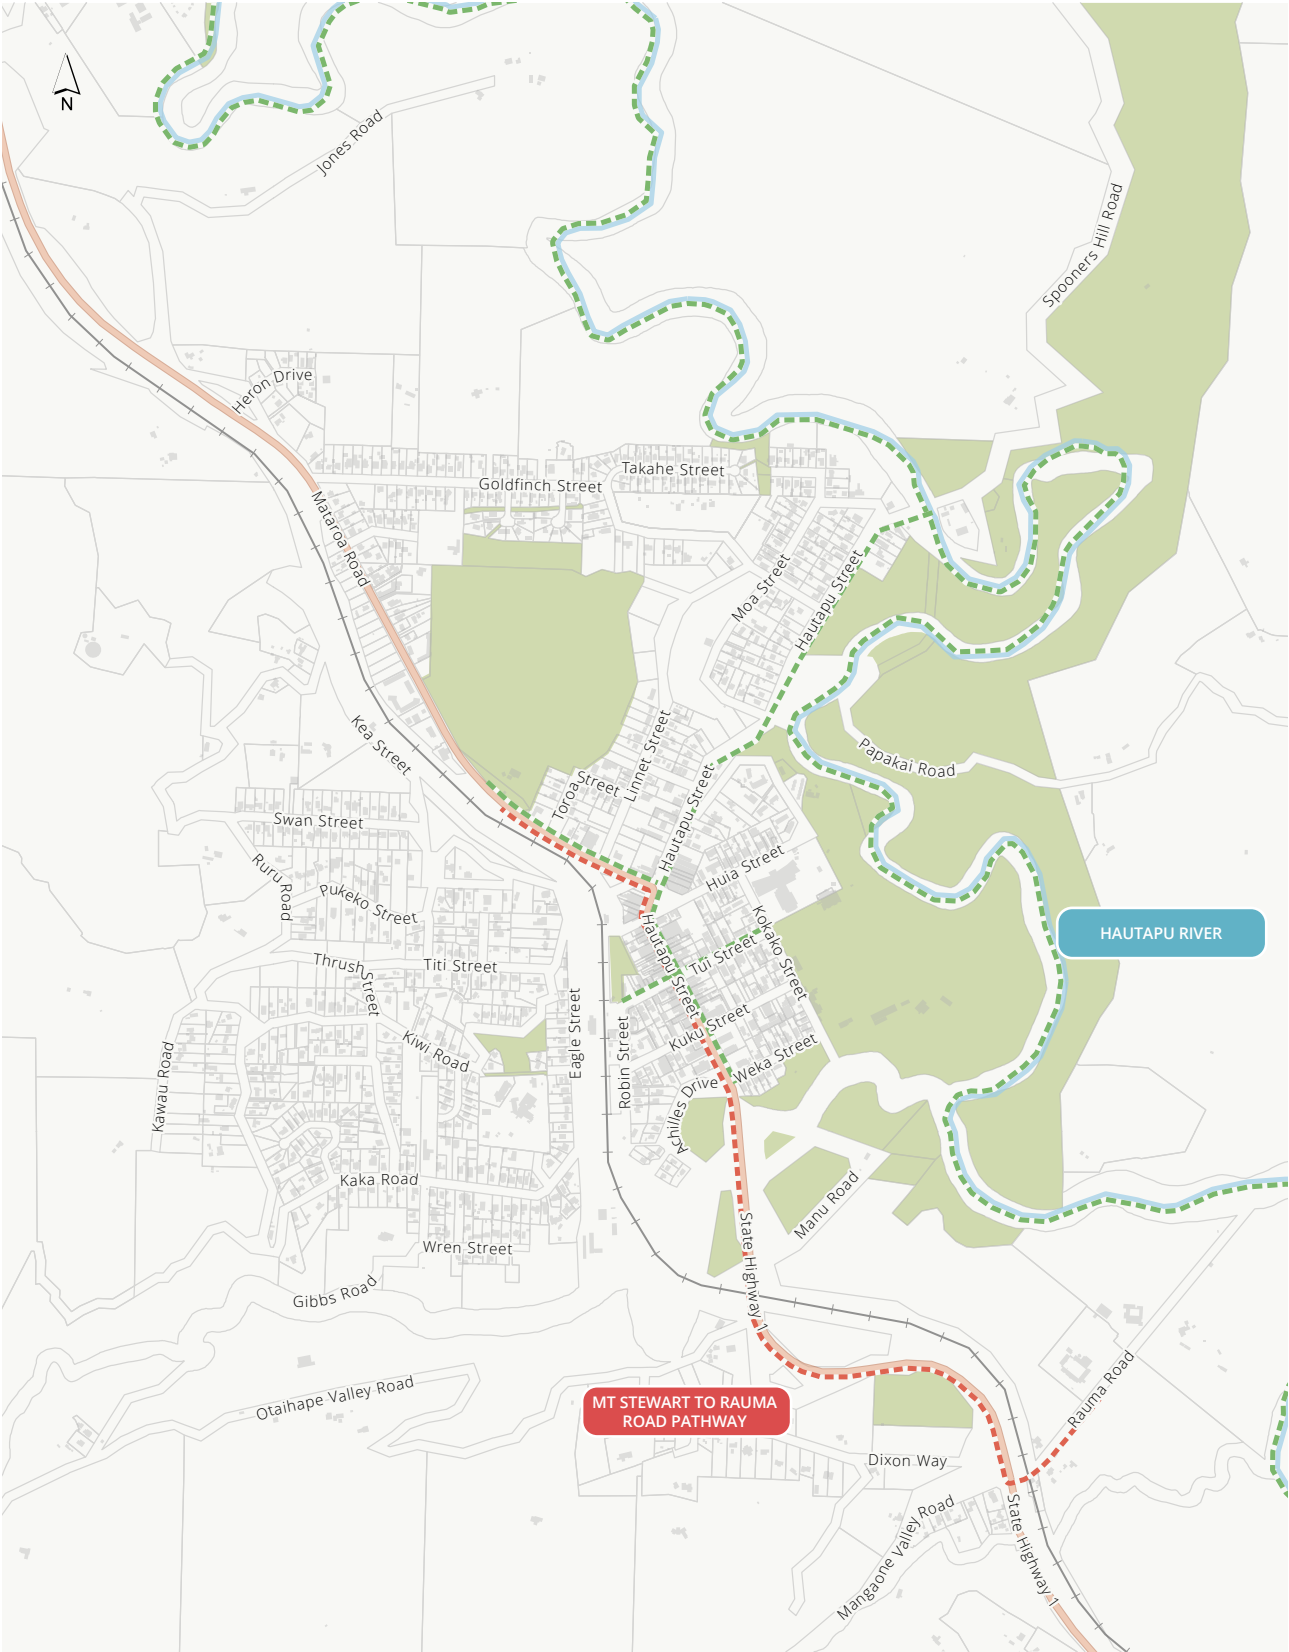

Priorities

- > Reinforce Taihape Memorial Park as the premier recreation space for the community.
- > Identify opportunities to improve recreation opportunities associated with the Taihape Swim Centre.
- > Invest in the development of a multi-purpose civic and community facility in Taihape.
- > Support community-led development of open spaces aligned with the Parks, Open Spaces and Sporting Facilities Strategy.

“Playground needs expanding and updating.”

5 Enhance and protect Taihape's heritage

The community has a strong sense of place and connection with history. Enhancing Taihape's built, cultural and natural heritage is important to the local community.

Community groups lead local environmental restoration, recreation, and heritage protection projects.

Priorities

- > Identify and protect significant heritage buildings and cultural sites.
- > Connect the town with the Hautapu River and open spaces through the development of nature networks.
- > Support the improvement in water quality of the Hautapu River.
- > Develop green corridors alongside active mobility pathways that act as wildlife corridors, using green infrastructure where appropriate.
- > Increase the canopy cover for Taihape.

Former Cascade Brewery - Taihape

“Beautified heritage buildings that emanate charm, cultural invitation and the warmth of family memories.”

Community Voice

6 Improved transport options

Taihape is located on key regional and national transport networks – State Highway 1 and the North Island Main Trunk Line connecting north/south, and the Taihape Napier Road ‘Gentle Annie’ connecting east to the Hawke’s Bay.

The community are reliant on private vehicles due to the distance of the settlement from larger centres and lack of public transport options.

Opportunities for passenger rail could provide significant improvements for locals and the visitor economy.

The development of infrastructure that supports active and micro-mobility transport could benefit the population accessing local services.

Priorities

- > Advocate for passenger rail services for tourists and locals, connected with Auckland, Ruapehu, Marton, Palmerston North and Wellington.
- > Advocate for improved public transport options that connect the community with other towns in the Rangitikei, Ruapehu, Whanganui, Palmerston North.
- > Develop a transport hub around the Taihape Train Station.
- > Develop active mobility pathways around town, to enable the community to use a range of active mobility methods for their main form of transport – walking, cycling, mobility scooters, e-scooters, etc.

Taihape Train Station

“The train line should have regular scheduled passenger stops in both directions.”

Action Plan

Rangitikei Priority Area	Key Themes	Project	
Thriving Communities Healthy Communities Connected Communities	SUITABLE HOUSING FOR ALL	1	1.1 Undertake a District Plan Change for urban growth that: <ul style="list-style-type: none"> • Rezones residential and lifestyle growth areas. • Identifies smaller properties on the urban fringe that could be rezoned as Residential • Implements structure plans for future growth areas and undeveloped residential areas. • Implement a planning framework to provide for medium density development that meets high quality urban design criteria throughout the whole town. • Implements a planning framework that enables the development of a range of section sizes appropriate to the topography of the site. • Reviews provisions to ensure they support aspirations associated with developing well-functioning communities and a diverse range of housing. • Re-assesses the appropriate management approach for the Taihape West Slip zone.
			1.2 Increase education and provide resources to the community and developers that identifies housing development opportunities and supports infill development throughout the urban area.
			1.3 Work alongside community housing providers to encourage the development of housing that meets the needs of the elderly population.
			1.4 Investigate and implement upgrades to increase stormwater resilience for Taihape.
			1.5 Investigate future capacity for the Taihape wastewater treatment plant and networks and implement upgrade projects where required.
			1.6 Investigate future capacity for the Taihape water supply and implement upgrade projects where required.
			1.7 Investigate options to encourage and incentivise infill housing and intensification.

The actions identified in the Action Plan are not guaranteed to be developed. Council will consider which actions are developed through long term planning processes and collaboration with implementation partners.

TAIHAPE

Our objectives

Through creating the draft Community Spatial Plan we want to achieve the following:

1. Articulate community aspirations for future land use and development.
2. Provide a blueprint of future land use and growth throughout the Rangitikei.
3. Collaborate with iwi and hapū to embed cultural values into how we plan for growth and development in the Rangitikei.
4. Guide infrastructure investment decisions and enable targeted future proofing.
5. Inform and shape the District Plan Review and Council's other plans and strategies.
6. Build confidence and identify potential for industrial, commercial, and residential development.

The actions identified in the Action Plan are not guaranteed to be developed. Council will consider which actions are developed through long term planning processes and collaboration with implementation partners. If they are developed, these potential growth areas will need to go through a District Plan change process to rezone them for residential or rural lifestyle use.
